RECOMMENDATIONS

1. That the Zoning Agreement under File DASZ 10/77 dated September 20, 1977 (By-law No. 2000/78), be amended for the subject property (Lot 1 Plan 39688 NW 1411 2E) to permit an interior side yard of zero (0) feet instead of 10 feet, (3.048 metres).

2. That the Director of Legal Services and City Solicitor be requested to prepare the necessary Amending Agreement to Zoning Agreement DASZ 10/77 (By-law No. 2000/1978), dated September 20, 1977 as approved in aforesaid Recommendation 1.

3. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

4. That the Director of Legal Services and City Solicitor be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.

REASON FOR THE REPORT

- The applicant is proposing to develop a truck shelter addition to an existing industrial building with a southwest side yard of 3.68 feet.
- The existing zoning agreement on the land restricts the minimum side yard to 10 feet except where a side lot line abuts a street in which case the minimum side yard along that line shall be 25 feet.

- The applicant is requesting a side yard of 3.68 feet instead of 10 feet. As such, a zoning agreement amendment is required.
- A zoning agreement amendment requires a Public Hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- The Report is being submitted for the Committee's consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

- If the recommendations of the Urban Planning Division are concurred in, the Zoning Agreement will be amended to permit a south west side yard setback of zero (0) feet instead of 10 feet.

HISTORY

DASZ 10/1977

- The subject property went through a subdivision approval process under file DASZ 10/77, and a proposed zoning changes to By-law 16502 by rezoning from an "A" Agricultural district to an "M2" Light Industrial district and a "PR" Park and Recreational district.
- A zoning agreement caveat was placed on the land in conjunction with that rezoning. Relevant clauses restricting the land under the zoning agreement is clause 2 (b) which states that:
    - Each building site within the land shall have minimum side yards of ten (10) feet except where a side lot line abuts a street in which case the minimum side yard along that lot line shall be twenty-five (25) feet.

ZAA 10/1999

- There was a zoning amendment application under file ZAA 10/99. The original zoning agreement attached with rezoning under file DASZ 10/77 was amended by adding clause 2 (c) which states that:
    - Notwithstanding subclause 2 (b) herein, that an aboveground tunnel structure, and the use thereof, be permitted for the purpose of connecting a one-storey metal-sided industrial building on property 1 to the rear of proposed warehouse on property 2, said tunnel structure and warehouse to be constructed in accordance with plans submitted, showing the design and layout of the site, including the approximate location and size of both structures, and attached hereto and marked as Schedule "A" to Zoning Agreement Amendment ZAA 10/99

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to develop a truck shelter addition to an existing industrial building with a southwest side yard of 3.68 feet.
- The proposed truck shelter will sit on an angle providing a wider 8 foot side yard at the south eastern end.
- The existing zoning agreement on the land restricts the minimum side yard to 10 feet except where a side lot line abuts a street in which case the minimum side yard along that line shall be 25 feet.
- The applicant is requesting a side yard of 3.68 feet instead of 10 feet. As such, a zoning agreement amendment is required, (see Figure 3 below)
- The Winnipeg Zoning By-law, notwithstanding the zoning agreement, does not require any setback for interior side yards in the “M2” Manufacturing District.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the *Complete Communities Direction Strategy* the proposed development falls under employment lands policy area. Key relevant policies guiding development in employment lands include:
    - Consider options to encourage development of under-utilized parcel and obsolete sites.
    - Encourage uses that support the industrial function of the employment cluster while catering to the day-to-day needs of area businesses and employees.

ZONING (BY-LAW 200/2006)

“M2” General Manufacturing District

- The M2 zoning district is intended to accommodate light manufacturing, processing, service, storage. Wholesale, and distribution operations, with some limited outside operations and storage.

LAND USE BY-LAW

Amendment to Zoning Agreement DASZ 10/77

- The amendment will pertain to the subject lot, (Lot 1 Plan 39688 NW 1411 2E) only.
- The applicant is proposing to develop a truck shelter addition to an existing industrial building with a southwest side yard of 3.68 feet.
- The existing zoning agreement on the land restricts the minimum side yard to 10 feet except where a side lot line abuts a street in which case the minimum side yard along that line shall be 25 feet.
- The applicant is requesting a side yard of 3.68 feet instead of 10 feet. As such, a zoning agreement amendment is required.
- The Winnipeg Zoning By-law, notwithstanding the zoning agreement, does not require any setback for interior side yards in the “M2” Manufacturing District.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The proposed shelter addition will be located in an existing asphalted area,
- The applicant’s proposal is consistent with the existing form, context and character in the area.
- The proposed development is an efficient use of under-utilized land which is in line with the *Complete Communities Direction Strategy.*
- The adjacent site to the southwest, sharing the side property line in question currently uses their side yard for the storage of pallets, small containers, etc., (see Figure 4 below)

Figure 4: Photo of Effected Side yard

REASONS FOR RECOMMENDATION

The Urban Planning Division recommends **approval** for the following reasons:

- The proposed 3.68 feet side yard at the west point of the addition widening to 8 feet at the eastern point is beyond the zero foot side yard requirement for the 'M2' zone as per Winnipeg Zoning By-Law 200/2006.
- The proposed amendment is for the south west side yard of the subject site only, the 25 foot side yard requirement adjacent to Omands Creek Boulevard will remain in force.
- The proposed side yard will not have any effect on the adjoining manufacturing properties.
- The proposed amendment is in line with the Complete Communities Direction Strategy for employment lands.

RECOMMENDATION

1. That the Zoning Agreement under File DASZ 10/77 dated September 20, 1977 (By-law No. 2000/78), be amended for the subject property (Lot 1 Plan 39688 NW 1411 2E) to permit an interior side yard of zero (0) feet instead of 10 feet, (3.048 metres).

2. That the Director of Legal Services and City Solicitor be requested to prepare the necessary Amending Agreement to Zoning Agreement DASZ 10/77 (By-law No. 2000/1978), dated September 20, 1977 as approved in aforesaid Recommendation 1.

3. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

4. That the Director of Legal Services and City Solicitor be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.
