REASON FOR THE REPORT

Council authority is required to amend Council's instructions.

IMPLICATIONS OF THE RECOMMENDATIONS

Rather than pay for a portion of the terminus landscaping costs, the Developer will be obligated under terms of the Servicing Agreement to install and construct terminus landscaping with a proportionate (50%) reimbursement of the costs from the City upon satisfactory completion of the works.

HISTORY

On December 14, 2011, Council approved Minute 124, the subdivision and rezoning of 311 Grassie Boulevard under File DASZ 24/2011 to create new lots fronting Jacques Avenue and Grassie Boulevard, see Appendix "A" sketch. The conditions of approval included a requirement for the Developer to enter into a Servicing Agreement with the City in accordance with the City's Administrative Coordinating Group (ACG) report dated September 12, 2011 as amended by Council. Council Decision contained the following new Condition B. 12 added to the ACG recommendation;

> "12. That at the time of development of the lots fronting onto Jacques Avenue, the Developer shall pay 50% of the costs of the terminus landscaping requirements which would include emergency break-away bollards (landscape plan to be submitted to the East Kildonan – Transcona Community Committee for approval prior to the issuance of development permits)."

On January 21, 2014, the East Kildonan – Transcona Community Committee considered the Developers, 6651802 Manitoba Ltd., Attn: Mr. Dale Davis, terminus landscaping plan and approved it subject to, and amongst other things, that the Developer request an amendment to their required Servicing Agreement which would effectively require the Developer to complete the landscaping works during the same construction season as surface works to be completed under the Agreement and further provide for partial reimbursement (50%) of said works from City funding.

On January 28, 2014, the Developer requested an amendment to the required Servicing Agreement, see Appendix "B", to complete the terminus landscaping works as approved by the East Kildonan – Transcona Community Committee, see attached Appendix "C".

The Winnipeg Public Service has no objection to the Developer's request.
