RECOMMENDATIONS

1. That Zoning Agreement under File DAZ 222/2000, (By-law No. 7719/2000), be amended as follows:

   A. That the words: "20 feet, south side of Buffalo Place west of Beaver Street" be deleted from Clause 3.

2. That the Director of Legal Services and City Solicitor be requested to prepare the necessary Amending Agreement to Zoning Agreement DAZ 222/2000, (By-law No. 7719/2000) as approved in aforesaid Recommendation 1.

3. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

4. That the Director of Legal Services and City Solicitor be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.

REASON FOR THE REPORT

- The applicant wishes to amend the zoning agreement to allow a reduced yard for accessory parking.
- The property has a Zoning Agreement caveated on the Certificate of Title by the City of Winnipeg, of which one of the clauses requires a minimum 20 foot yard along Buffalo Place.
- The Public Service recommends approval of removing this requirement from the zoning agreement.

IMPLICATIONS OF THE RECOMMENDATIONS

- *If the recommendations of the Planning and Land Use Division are concurred in, the subject clause will be deleted.*

HISTORY

- *The subject lands are zoned "M1" Manufacturing (Light) District as per DASZ 222/2000.*
- *Associated with the above DASZ is a Zoning Agreement caveated on the title (# 2830736/1).*
- *Key functions of the zoning agreement include limiting the types of uses that can be accommodated on the subject site and maintaining minimum yard setbacks.*

REPORT SUMMARY

- The applicant is looking to remove a yard requirement from the zoning agreement to allow a reduced front yard to an accessory parking area.
- The Urban Planning Division recommends the application be approved.
- The layout of the parking area is consistent with other properties located on Buffalo Place.
- The unique shape of the property makes it difficult to comply with the minimum yard setback of the zoning agreement.
- The parking area is not visible from the street as it is screened with landscaping.

SITE DESCRIPTION

Land Use and Zoning

- The subject site, which is zoned "M1" Manufacturing (Light) District is located on the south side of Buffalo Place between Waverley Street and Otter Street in the Buffalo neighbourhood of the River Heights – Fort Garry ward.

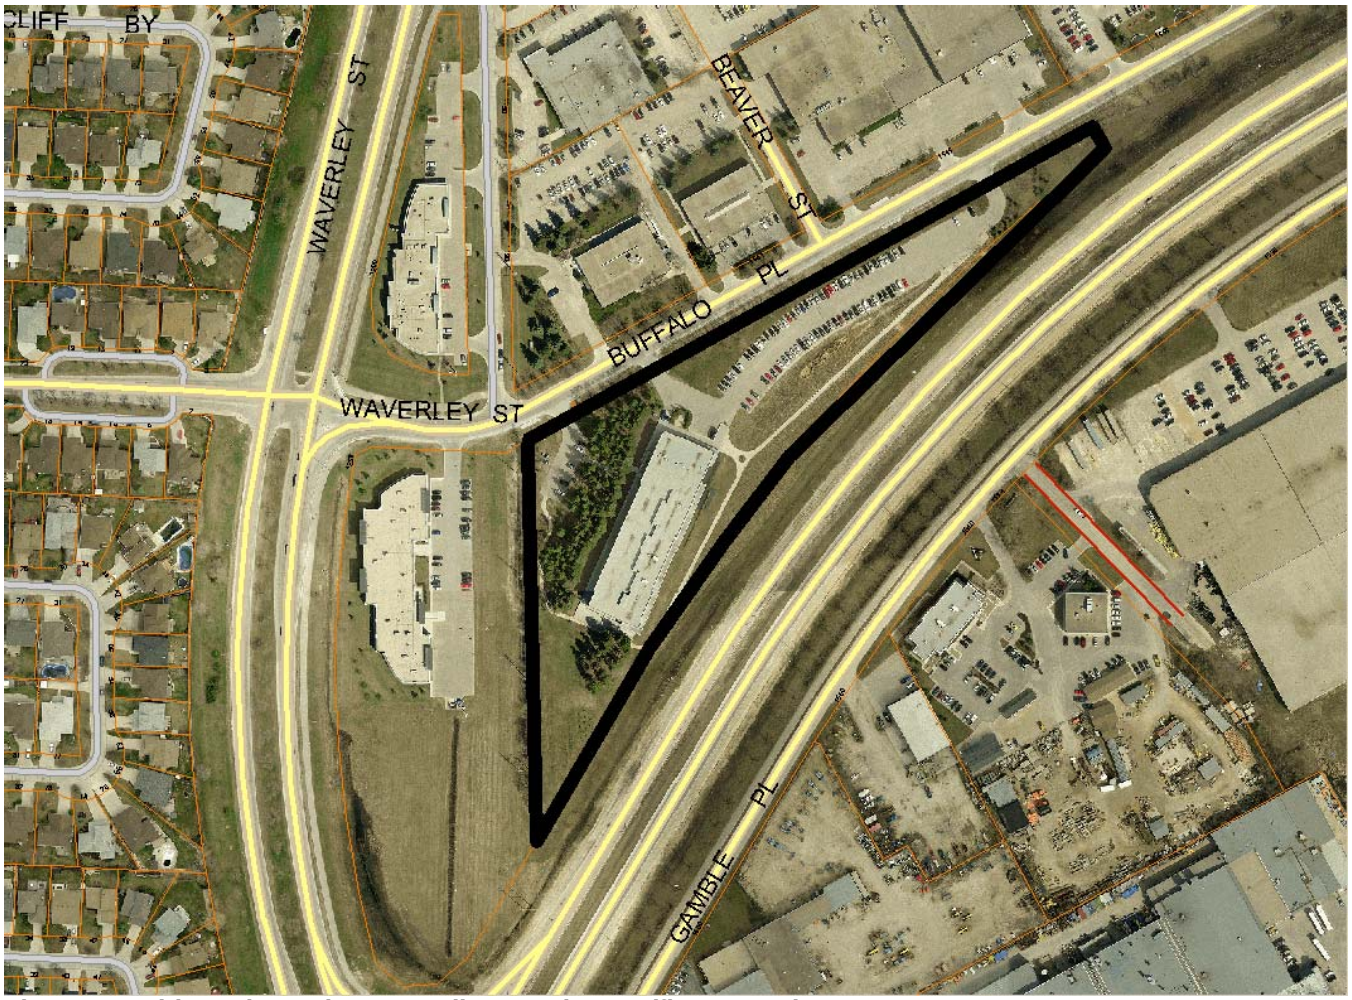

Figure 1: Subject Site and Surrounding Land Uses (flown 2012)

DESCRIPTION OF PROPOSED DEVELOPMENT

- Through this application, the applicant is looking to remove a yard requirement from the zoning agreement to allow a reduced front yard to an accessory parking area.
- If the applicant is successful in removing the yard requirement they will also need to obtain a variance to reduce the minimum front yard setback for properties zoned “M1” under by-law 200/2006 (this is the subject of associated File # DAV 13-176010). The applicant also requires that the plans be approved by the City Centre Community Committee as per the zoning agreement associated with DAZ 222/2000.

ANALYSIS AND ISSUES

Complete Communities Direction Strategy

- Under the *Complete Communities Direction Strategy* the proposed development is within the Employment Lands / General Manufacturing Policy Area. Key relevant policies guiding development within Employment Lands:
    - Maximize the economic development potential of existing and future employment lands
    - Encourage uses that support the industrial function of the employment cluster while catering to the day-to-day needs of area businesses and employees

- Allow for the development and retention of a broad range of employment lands and a variety of parcel sizes. Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.

The proposed development will invigorate an existing industrial property by accommodating more employees on site.

ZONING AGREEMENT

The subject property contains a zoning agreement that was created when the property was rezoned to"M1" in 2000. The zoning agreement contains a number of clauses including minimum yard setbacks, of which the applicant is attempting to amend. Specifically Clause 3 of the zoning agreement requires minimum yard setbacks including:

"20 feet, south side of Buffalo Place west of Beaver Street"

It is the above wording the applicant is requesting to have deleted from the zoning agreement.

DISCUSSION

The analysis set forth here is essentially the same as described in the variance application whereby the application is being supported on the basis of unique site characteristics. Specifically the shape of the site makes it difficult to satisfy the yard requirements of the by-law. The shape of the site can be described as triangular whereby the property tapers, becoming narrower moving eastward. The subject property flanks Buffalo Place to the north and Gamble Place to the south. These roads become closer to each other moving east. The effect is so drastic that the west property line of the subject site is approximately 635 feet in length and the east property line is 40 feet in length. Since the building is located on the western end of the site, the parking area is impacted by the decreasing lot depth moving west. The location of the parking area also provides for the maintenance of existing pathways that meander though the subject site.

RECOMMENDATION

The Urban Planning Division recommends the application be approved because:

- The proposed front yard setback will not impact neighbouring properties.
- The development of the parking area is consistent with other properties on Buffalo Place.
- The unique shape of the property, which narrows moving eastward, presents a significant challenge to designing the site in a manner that meets the minimum setback established in the zoning agreement and the zoning by-law.
- The subject parking area will accommodate the intensification of an already existing office building within an area designated for employment lands.
- The subject site, including parking area is well landscaped and as a result the parking area is not visible to traffic travelling along Buffalo Place.
