REASON FOR THE REPORT

The Report is being submitted for the Committee's consideration of the development application at the
Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, a development permit can be issued.

HISTORY

765 Scotland Avenue was at one time owned in two parts by the respective owners of 761 and 767 Scotland. It was subsequently all part of a single land holding with 767 Scotland. No short form subdivision was ever created. The historical lots of subdivision are all smaller than the minimum lot area in the zoning by-law, which triggers the associated variance – DAV 14-107783D.

SITE DESCRIPTION
The subject property, which is currently zoned "R1-S" Residential Single-Family District, is located on the north side of Scotland Avenue between Lilac Street and Arbuthnot Street in the Earl Grey Neighbourhood of the Fort Rouge - East Fort Garry ward. It occupies approximately

4900 square feet. Surrounding properties are all zoned "R1-S" and are predominantly single-family residential with a duplex to the south and a duplex on the abutting property to the east.

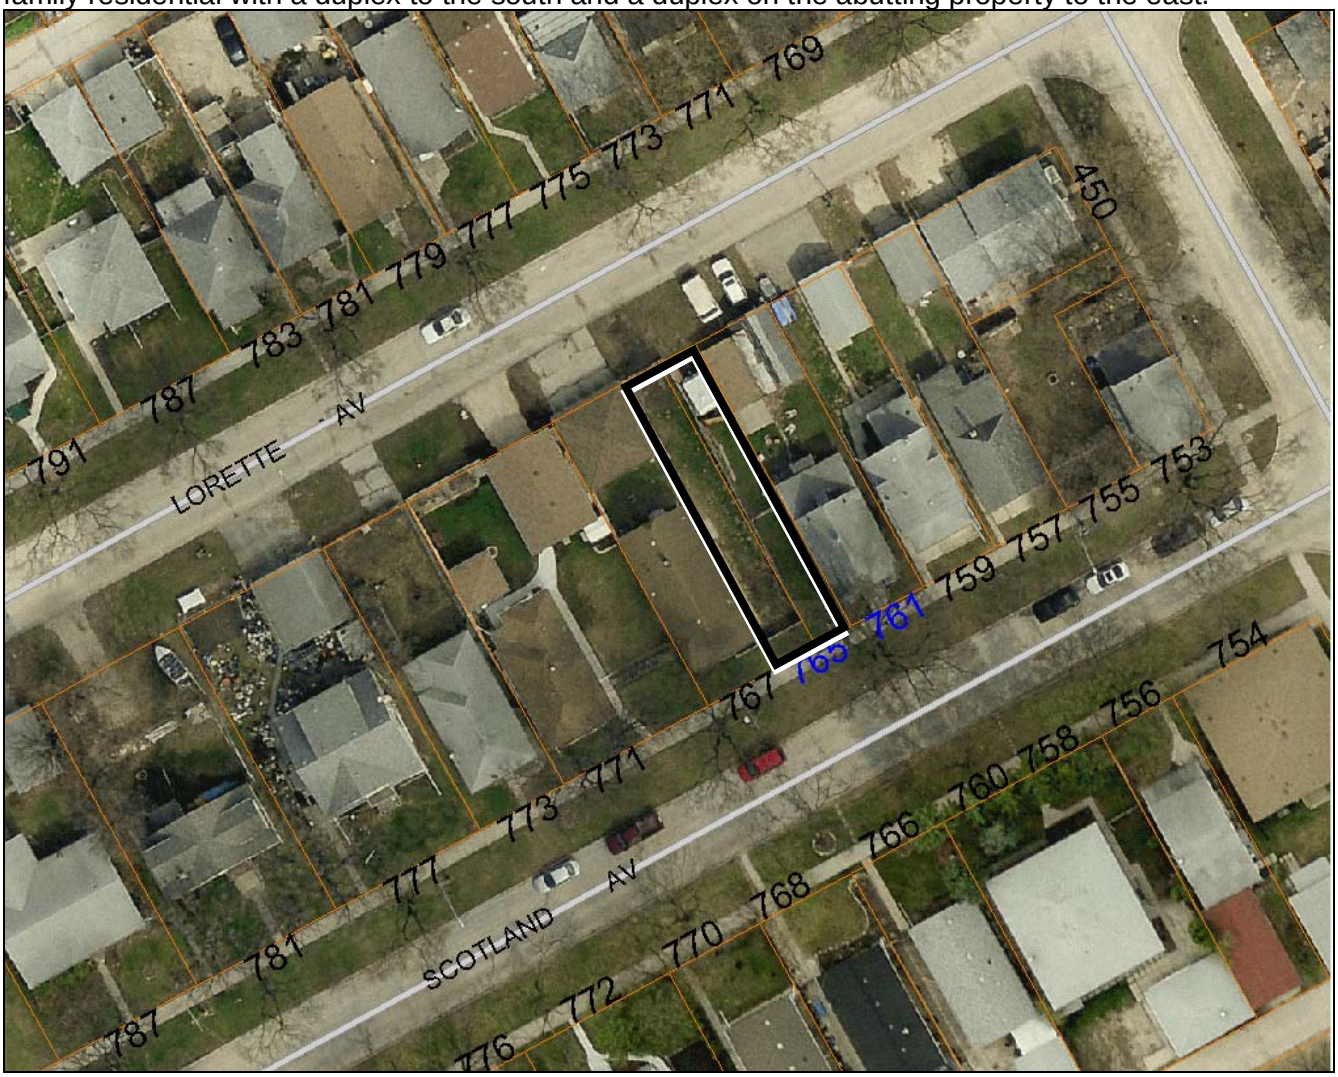

Figure 1: Aerial photograph of the subject site and surrounding area (2012)

DESCRIPTION OF THE PROPOSED DEVELOPMENT

The applicant seeks approval to rezone the subject property from an "R1-S" Residential Single-Family District to an "R2" Residential Two-Family District in order to construct a duplex on the lot. The proposed building is two-storeys with one unit in the lower level and the other unit occupying the main and upper levels. Both have a front entrance and rear balconies. There is an open parking pad at the rear. The front and rear yards are compliant. Only the east side yard is proposed to be reduced by one foot through the associated variance DAV 14-107783D.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the *Complete Communities Direction Strategy* the proposed development is located within the Areas of Stability – Mature Communities policy area. Key relevant policies guiding development within Areas of Stability include:
    - Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.
    - Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.
    - Support the subdivision of a parcel of land into two or more lots when it is done in a context sensitive manner.

  The Conference Board of Canada has projected a substantial shift in the share of new units, away from single-family, and towards apartment/condo multiple-family units, over the next 20+ years. As per the Conference Board forecast from 2009 to 2031

  - Single-family is projected to decrease from a 71% share to a 35% share of housing starts
  - Multiple-family is projected to rise from a 29% share to a 65% share of housing starts.

  A key assumption in the Conference Board projections is that, as the 'boomer' generation ages, they will generally leave their single-family homes and move into condos or apartments.

  By providing a variety of different housing types in each neighbourhood, people have an opportunity to "age in place" – staying in familiar surroundings and keeping the same networks of friends.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The proposed development is consistent in massing and form with adjacent properties.
- Two-family dwellings are consistent with character of this neighbourhood, with two such properties immediately adjacent.
- The change from "R1-S" to "R2" is among the most minor forms of intensification possible in an established neighbourhood.

SUMMARY

- Under the *Complete Communities Direction Strategy***,** all neighbourhoods are expected to accommodate growth and change.
- Scotland Avenue is adjacent to Grant Avenue, which is a major transit route. Intensification is typically support in locations nearest to transit. (No properties front onto

this portion of Grant Avenue.) The subject property is approximately 100 metres from a transit stop.

LAND DEDICATION

- When a developer rezones and/or subdivides a parcel of land, they are required to put in an application with the City of Winnipeg.
- As a condition of rezoning or subdivision, a developer is required to contribute a portion of the land to be developed to the City for parks purposes.
- The amount of land is not less than 10%.
- The developer is to provide land or 'cash in lieu' as determined by the Planning, Property and Development Department.
- The City is requesting cash in lieu for this application.

RECOMMENDATIONS
The Urban Planning Division recommends approval for the following reasons:

- The proposed zoning and density for the subject site is compatible with the immediate area.
