REASON FOR THE REPORT

On December 17, 2013, Council approved as part of the 2014 Operating Budget Process a report on "Strategies of Canadian Cities to Enhance Public Safety on Transit". The report

included a recommendation that as part of an enhancement to current security and enforcement practices, a comprehensive Transit By-Law be developed for adoption by Council.

IMPLICATIONS OF THE RECOMMENDATIONS

The addition of 2 Cadet positions to the Winnipeg Police Service complement have a financial implication in 2014 of $48,385 for four months to be funded by an appropriation from the Transit Department's Retained Earnings and an annual cost of $85,625 for 2015 and later years.

HISTORY

Background

At its meeting of March 20, 2013, Council directed that Winnipeg Public Service, in consultation with the Winnipeg Police Service and Winnipeg Transit, prepare a comprehensive report on strategies used by other Canadian Cities of roughly comparable size to enhance safety on their public transit systems, including security staffing, if any; and outlining potential options and their associated costs to enhance safety on the Winnipeg transit system, and report back to the Standing Policy Committee.

On December 17, 2013, Council approved as part of the 2014 Operating Budget Process a report on "Strategies of Canadian Cities to Enhance Public Safety on Transit". In addition to proposing an increase in the number of Foot Patrols/Special Constables, the report also included a recommendation for a comprehensive Transit By-law to be developed for adoption by Council in order to strengthen the legal foundation of the Foot Patrols/Special Constables activities as part of an enhancement to current security and enforcement practices.

Transit By-laws from four other Canadian cities of approximate comparable size to Winnipeg were reviewed and used to develop the Transit By-law proposed in this Report.

If enacted by Council, the attached draft Transit By-law would become effective immediately.

A comprehensive Transit By-law is required to regulate the use of the Public Transit System, including the Southwest Rapid Transit Corridor - a private facility owned by the City of Winnipeg for the provision of rapid transit services as shown in Appendix A of the By-law.

Transit By-law Overview

The By-law makes it an offense for non-payment of transit fare and outlines fines for a number of offenses related to:

- Conduct on the Public Transit System and Rapid Transit Corridor
- Access to the transitway and transit stations
- Provision for banning persons

The Transit By-law includes the following key features:

1. Makes payment of a transit fare or use of transit fare product mandatory.

2. Prohibits any person from engaging in an activity or behavior that creates a danger to another person.

3. Prohibits any person from obstructing or interfering with the safety of a Bus Operator and/or the operation of transit vehicles.

4. Prohibits any person from damaging or vandalizing transit property, which includes buses and other vehicles.

5. Prohibits any person from staying more than 90 minutes in a transit shelter or being in a transit terminal or loop, except for the purpose of boarding a bus

6. Prohibits any person from carrying a firearm on transit property and vehicles, unless he or she is a Police Officer.

7. Prohibits drinking alcoholic beverages or inhaling intoxicants on transit property.

8. Prohibits any person from carrying a container of explosive, flammable or toxic materials on transit property.

9. Incorporates key elements of the Rapid Transit Corridor By-law as follows:

    a) Restricts use of a transitway to public transit vehicles, supervisory and maintenance vehicles operated by the City, emergency vehicles operated by the Winnipeg Fire and Paramedic Service, and vehicles operated by officers of the Winnipeg Police Service.
    b) Prohibits any person from walking; running; cycling; travelling on a skateboard or rollerblades; riding an animal or non-motorized vehicle; driving, riding, or being a passenger in a motorized vehicle; or travelling in any other way within a transitway.
    c) Permits pedestrians to cross a transitway only at designated pedestrian crosswalks in stations.

10. Delegates authority to the Director of Transit to:

    a) Appoint employees or agents of the City of Winnipeg as by-law enforcement officers for the purpose of administering and enforcing the By-law.
    b) Authorize other individuals and vehicles to enter and remain on transit property and a transitway in order to effect repairs, service, and maintain a rapid transit corridor.
    c) Authorize vehicles used to transport passengers for a fee and operated by other transportation operators to enter transit property and a transitway for the purpose of integrating the services provided by these operators with the public transit property offered by the City of Winnipeg.

d) Make rules respecting:
   i) The operation, parking, standing and stopping of vehicles within transit property and a rapid transit corridor.
   ii) The activity and behavior of individuals within transit property and a rapid transit corridor.
   iii) Signage within transit property and a rapid transit corridor.
   iv) Other matters respecting the operation of the public transit system and a rapid transit corridor.

e) Authorize specific activities that would be illegal on transit property if unauthorized, including selling or distributing items, placing advertisements, busking or performing, and operating vehicles on the transitway.

11. Authorizes, under The Petty Trespasses Act, the removal of any individual from a rapid transit corridor who contravenes a provision of the By-law or a rule made by the Director of Transit.

12. Authorizes the Director to ban an individual who has committed a criminal offense, violated the Narcotics Control Act or contravened the By-law from transit property and a rapid transit corridor for a period of time specified in the ban.

13. Outlines an appeal process from an order or a decision made under the By-law, including a ban, to the Standing Policy Committee on Infrastructure Renewal and Public Works.

14. Specifies fines for minor offences in the amount of $100 plus court costs imposed by the Provincial court system. (Defacing transit property by writing, drawing, painting, scratching or etching, etc. has a fine of $200.) An offender has an early payment option; by paying half of the fine plus court costs within 15 days he or she will not be further prosecuted for the offence. The more serious offences (including fighting, interfering with safety of a Bus Operator or the operation of a Transit vehicle, causing a safety concern for a transit passenger, using a vehicle to block or interfere with operation of a transit vehicle, and interfering with the operation and safety of the transitway) do not have a specified fine attached and can only be dealt with by the court.

Enhanced Security Measures

With the enactment of the proposed Transit By-Law and the increased presence of Special Constables, Winnipeg Transit's ability to proactively address and triage potential risks will be enhanced. With this, improved safety on Winnipeg's Transit system is expected, but not without a corresponding increase in demand for support from the Winnipeg Police Service (WPS). As such, support for increased Winnipeg Police Cadet services from Winnipeg Transit will help address the expected increase in demand for WPS services. The 2014 cost of two additional Cadet's commencing on September 1, 2014 has been identified as being $48,385, and $85,625 annually thereafter by WPS. If approved by the Winnipeg Police Board, this amount of funding from Winnipeg Transit will be accommodated through the Department's Retained Earnings in 2014, and referred to the 2015 WPS budget process for consideration.
