REPORT SUMMARY

- The Urban Planning Division recommends approval of this application with conditions.

SITE DESCRIPTION

- The subject property is located on the west side of Bryce Street in the River-Osborne neighbourhood of the Fort Rouge – East Fort Garry ward.
- The site is 4,950 square feet.
- Under the Complete Communities Direction Strategy, the site is located within Areas of Stability – Mature Communities.

Figure 2: Zoning of the site and surrounding area.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to rezone the property from “R2” Residential Two-Family District to “RMF-L” Residential Multi-Family – Large.
- The applicant wishes to add two (2) units to an existing 8 unit multi-family dwelling
- This proposed addition will be located within the basement of the existing building. However, because the applicant is rezoning from “R2” to “RMF-L”, the proposed addition will have to meet the “RMF-L” dimensional standards.
- Thus, the rezoning application is associated with an application for six (6) variances.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- The site is located within the Areas of Stability – Mature Communities policy area. The key relevant policy guiding the development of Areas of Stability under the *Complete Communities Direction Strategy* includes:
    - Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.

- Focus housing growth to areas that have municipal service capacity to support intensification, in addition to commercial and recreational amenities.
- Support Complete Communities by ensuring diverse and high quality housing stock.
- In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.

ZONING

"RMF-L" Residential Multi-Family Large

- The "RMF-L" zone is intended to accommodate the development of multi-family units in neighbourhoods with medium to high residential densities. The dimensional standards for multi-family structures in the RMF-L zone are: a minimum front yard of 25 feet; a minimum rear yard of 25 feet; a minimum side yard of 8 feet (note b)[1] and, a maximum building height of 150 feet. The minimum lot area is 20,000 square feet and the minimum lot area per dwelling unit is 400 square feet.
- Parking requirements are 1.5 stalls per unit. However, for properties that fall within Urban Infill Areas, parking requirements are reduced to 80% of the required minimum stalls.

LAND USE BY-LAW

Rezoning

- The applicant is proposing to rezone the land from "R2" Residential Two-Family District to "RMF-L" Residential Multi Family - Large in order to add two (2) units to an existing 8 units multi-family dwelling.

OSBORNE VILLAGE NEIGHBOURHOOD PLAN

The subject site falls within the Osborne Village Neighbourhood Plan (OVNP) which provides detailed guidelines for development in Osborne Village. Under the OVNP the subject property is identified as a Village Medium Density Residential policy area. The following policies are applicable to the proposed development.

Village Medium Density Residential Policies:

- *4.1.3.A Encourage a mixture of single-family homes, duplexes, townhouses, and multiple-family buildings;*
- *4.1.3.B New development will have a minimum of two storeys and a maximum of four storeys in height in order to preserve the scale and pedestrian oriented character of this area;*

[1] note b – in the "RMF-L" zoning district, where a building is more than one storey in height, the required interior side yard increases by 2 feet for each storey above the ground floor to a maximum of 20 feet.

Character policies from the OVNP also apply to all development in Osborne Village. Generally, these policies encourage context sensitive infill that promotes pedestrian orientation by addresses massing and design of buildings, parking, preservation of mature trees and safety and visibility. Some specific policies that are applicable to this project include:

3.1.1.B.1 Orienting buildings to the street to restore traditional mature neighbourhood character. New buildings are to be located to the front and corner side property lines and have a street front orientation;

3.1.1.B.2 Respecting the traditional character of the area and surrounding properties in terms of pedestrian orientation, mass and scale of surrounding properties, compatible building materials, orientation of entrances to the street, and incorporation of compatible alignment, setbacks, and height of building(s) along the street;

3.1.2.B Development with a residential component should include a wide variety of housing options aimed at different lifestyles, age groups, and income levels.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The Complete Communities Direction Strategy encourages the intensification of land uses within mature neighbourhoods when done so in a context sensitive manner.
- This area of Osborne Village primarily accommodates with multi-family dwellings, especially along River Avenue and Stradbrook Street. Directly south of the applicant's property is a four (4) storey multi-family apartment. The proposal to add two more units to the existing eight (8) unit is consistent with the existing density in the neighborhood.
- Under the Winnipeg Zoning By-Law, buildings in the "RMF-L" districts can go up to 150 feet in height. However, the OVNP states that new development will have a minimum of two (2) storeys and a maximum of four (4) storeys. For this reason, a height cap of 40 feet has been placed on this property should there be any reason for redevelopment.
- The reason for this height cap is to make sure that any future development and or redevelopment of this property is consistent with the form and scale of existing neighborhood.
- The proposal for a ten (10) unit multi-family dwelling on this property is consistent with the surrounding context and complies with both the Complete Communities Direction Strategy and OVNP.

LAND DEDICATION

- When a developer rezones and/or subdivides a parcel of land, they are required to put in an application with the City of Winnipeg.
- As a condition of rezoning or subdivision, a developer is required to contribute a portion of the land to be developed to the City for parks purposes.
- The amount of land is not less than 10%.
- The developer is to provide land or 'cash in lieu' as determined by the Planning, Property and Development Department.
- The City is requesting cash in lieu for this application.

RECOMMENDATIONS
The Urban Planning Division recommends **approval** for the following reasons:

- The proposal is consistent with the policies of the Complete Communities Direction Strategy and is generally consistent with the Osborne Village Neighbourhood Plan.
- The proposed development provides context sensitive infill that helps enhance Osborne Village as an urban neighbourhood that encourages pedestrian activity.
- The rezoning to “RMF-L” allows for the site to be developed in a manner that is consistent and compatible with the surrounding properties.
- The condition pertaining to provision of lockable bicycle spaces is to ensure that the parking stall deficiencies on the site are met and maintained.
