STANDING POLICY COMMITTEE ON PUBLIC WORKS

QUESTION PERIOD

Minute No. 534
Councillor Steek made reference to the recently implemented speed hump policy and noted that on Centennial Street speeding had been completely eradicated, when previously 20% of all cars had been speeding. He questioned if Councillor Angus was aware of this, and noted at the same time that traffic had been reduced by 30% on Centennial Street as a result of the speed humps.

Councillor Angus advised he was aware of it and pleased about it.
