7. That the Proper Officers of the City are hereby authorized to execute said Zoning Agreement.

8. That the City Solicitor/Manager of Legal Services be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.

REASON FOR THE REPORT

The applicant is proposing to rezone the site from “M2” General Manufacturing to an “RMF-M” Residential Multi-Family – Medium District in order to develop a four storey building with 15 units on the property.

Rezoning applications require a Public Hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter.*

The Report is being submitted for the Committee’s consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, the property will be rezoned.

SITE DESCRIPTION

- The subject property is located on the north side of Wilkes Avenue in the Brockville Neighborhood of the River Heights-Fort Gary ward.
- The subject site is currently zoned “M2” – General Manufacturing.
- The subject site is 15,000 square feet in area and currently contains a single family home.

The immediate area is characterized primarily by single and two-family residential uses. Adjacent land uses include:

North: Multiple family residential uses -Villa Nova Senior Home (zoned “C2” Commercial Community).

South: Multiple family residential uses (zoned “RMF-M” Residential Multiple Family - Medium).

West: Multiple family residential uses -Villa Nova Senior Home (zoned “C2” Commercial Community).

East: Office uses (zoned “M2” General Manufacturing).

Figure 1: Air photo of the subject property and surrounding area (2012)

Figure 2: Zoning context

DESCRIPTION OF THE PROPOSED DEVELOPMENT

The applicant seeks approval to build a 4 storey, 15 unit multi-family building on the subject property.

REASON FOR APPLICATION

The subject site is currently zoned “M2” – General Manufacturing and is proposed to be rezoned to “RMF-M” – Residential Multiple Family – Medium in order to support the development, therefore, a rezoning is required.

ANALYSIS AND ISSUES

Context

This stretch of Wilkes Avenue has been transitioning toward a greater mix of uses including residential. Directly across Wilkes Avenue from this proposed project is a recently developed (2011) multiple family development of 98 units. Other nearby uses include seniors’ housing, a place of worship, and some industrial and recreational uses.

Policies
OurWinnipeg and the Complete Communities Direction Strategy

The site is located within the Areas of Stability – Recent Communities policy area. The key relevant policy guiding the development of Areas of Stability under the *Complete Communities Direction Strategy* includes:

- Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.
- Focus housing growth to areas that have municipal service capacity to support intensification, in addition to commercial and recreational amenities.
- Support Complete Communities by ensuring diverse and high quality housing stock.
- In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.

By adding to the mix of housing options in a context-sensitive manner, the proposed development aligns with intentions as identified in Complete Communities.

Zoning
The site, currently zoned "M2" – General Manufacturing District, is suitable for transition to residential given nearby developments which increasingly include residential as part of the land use mix. The new proposed zoning district, Residential Multi-Family –Medium (RMF-M) is intended to accommodate the development of multi-family units in areas with medium residential densities. The rezoning to "RMF-M" allows for the site to be developed in a manner that is consistent and compatible with surrounding properties, and this zoning district accommodates the number of units proposed.

Plan Approval
Among the information requested as part of Plan Approval, existing trees and landscaping are important items to note. The reasons for this are as follows:

- There is a substantial row of established, mature trees along both the east and the north edges of the site (see Attachment 'A').
- These trees provide an amenity for the site and for the wider area.
- The Public Service and the applicant have been working together to find ways to retain as many of these trees as possible.
- The applicant provided a tree survey showing the precise locations of the trees but the Public Service did not receive a corresponding proposal from the applicant to adjust the yards in order to preserve them.

In the absence of yard adjustments to preserve trees identified by the applicant, the Public Service, in the cross-referenced report (DAV 14-138937D), provides recommendations that strike a balance between retaining some of the trees while enabling the proposed development to proceed. Plan Approval should reflect these adjusted yard dimensions and the retained trees.

Summary
This area has transitioned toward a greater mix of uses including residential in recent years, making this multifamily project suitable for this location. The proposed development provides context sensitive infill for the area. The rezoning to "RMF-M" allows for the site to be developed in a manner that is

consistent and compatible with surrounding properties. For these reasons, the Winnipeg Public Service supports the proposed rezoning.

RECOMMENDATIONS
The Urban Planning Division recommends approval for the following reasons:

- The rezoning is consistent with OurWinnipeg and Complete Communities.
