RECOMMENDATIONS

That authorization be granted for expenditures of up to $1,200,000.00 in 2014 prior to the adoption of the 2015 Capital Budget, as a first charge against the General Capital Fund, in accordance with Subsection 288(2) of the City of Winnipeg Charter, to allow award of contracts to ensure timely delivery of projects associated with the 2015 Waterway Crossings and Grade Separations Program.

REASON FOR THE REPORT

Council approval is required for a first charge for an expenditure of capital funds prior to the adoption of the 2015 capital budget.

IMPLICATIONS OF THE RECOMMENDATIONS

The authorization requires a first charge on the 2015 Annual Program Capital Budgets to allow the award of contracts prior to the adoption of the 2015 Capital budget, in accordance with Subsection 288(2) of The City of Winnipeg Charter.

HISTORY

On December 17, 2013, Council adopted the 2014 Capital Budget which included forecasted amounts in 2015 of $700,000 for the Saskatchewan Avenue Bridge (Omand's Creek) to undertake preliminary and detailed engineering related to the bridge replacement, and $500,000 for the Lyndale Drive – Retaining Wall Rehabilitation to undertake preliminary engineering related to the retaining wall rehabilitation. Both projects are multi-year projects that commence in 2015.

In order to undertake these projects within the expected timelines in 2015, Bid Opportunities for each of these projects need to be awarded prior to Council approval of the 2015 Capital Budget. Delay in funding approval will delay these projects which could cause increased costs to the City. Table 1 includes the summary of the project budgets and first charge requirements on the 2015 Capital Budget.

Table 1 - Summary of Projects Requiring First Charge Funding on 2015 Capital Budget
