DESCRIPTION OF THE PROPOSED DEVELOPMENT
The applicant seeks approval to build a 1.5 storey, split level duplex on the subject property.

REASON FOR APPLICATION
The subject site is currently zoned "R1-M" – Residential Single Family – Medium and is proposed to be rezoned to "R2" Residential Two-Family in order to support the construction of a duplex, therefore a rezoning is required.

ANALYSIS AND ISSUES

Context

The immediate area is characterized by primarily single family residential with some two-family and multiple-family; and by a significant amount of commercial/retail development along Pembina Highway. The subject property is located in very close proximity to Pembina Highway.

Policies

Complete Communities Direction Strategy

As per the *Complete Communities Direction Strategy,* the proposed development falls within Areas of Stability – Mature Communities policy area. Key policies guiding development within Areas of Stability include:

- Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.
- Support Complete Communities by ensuring diverse and high quality housing stock.
- In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.

This proposed development adds to the mix of housing types in the Ebby-Wentworth neighbourhood and is complementary to the scale and character of housing in the area. The proposed development meets the intent of applicable policies in Complete Communities.

Zoning

The proposed zoning district, "R2" - Residential Two-Family, is intended to accommodate the development of single and two-family units and where appropriate limited multi-family units in lower density areas.

It is common for Mature Communities similar to this neighbourhood to be wholly zoned "R2" to provide increased support for two-family housing. Although Hector Street is currently zoned "R1-M", "R2" zoning and two-family housing is appropriate in this location given the following:

- *Complete Communities* supports minor to moderate density increases in Mature Communities where appropriate.
- There is an existing duplex, as well as some multiple family housing, across the back lane from the subject property.
- The subject property is located in very close proximity to Pembina Highway.

This rezoning allows for one additional dwelling unit to be provided, and allows the site to be developed in a manner that is consistent and compatible with surrounding properties.

For the above reasons, the Urban Planning Division believes the proposed rezoning to "R2" is suitable at this location and recommends that the rezoning be approved.

Summary

Complete Communities supports minor to moderate density increases in Mature Communities. The proposed development is 1.5 storeys, which provides a scale that is in keeping with that of neighbouring properties. The proposed development is located in very close proximity to

Pembina Highway and will provide one additional dwelling unit to the site in a context sensitive manner.

RECOMMENDATIONS
The Urban Planning Division recommends approval of the rezoning for the following reasons:

- The rezoning is consistent with OurWinnipeg and Complete Communities.
