TO THE CHAIRPERSON AND MEMBERS
OF THE RIEL COMMUNITY COMMITTEE

RE: FILE NO. DAC 12/2003 - PROPOSED CLOSING OF PART OF THE PUBLIC LANE NORTH OF JOHN BRUCE ROAD, EAST OF ST. ANNE'S ROAD FOR INCLUSION INTO DASZ 15/2003
SAINT VITAL WARD

RECOMMENDATION:

That the Community Committee approve the proposed closing and recommend:

I. That the City Solicitor be instructed to prepare the necessary by-law for submission to Council to effect the closing in accordance with the attached **Schedule "A"** , Misc. Plan No. 11930.

II. That the proper officers of the City be authorized to do all things necessary to effect the intent of the foregoing.

REASON:

All street and lane closings require the consideration of the Community Committee.

HISTORY:

The subject lane was created in 1912 by a subdivision of the surrounding area. It is not paved and serves no public purpose.

The Planning, Property and Development Department has received a request from Troy Richardson Agencies to purchase the portion of the lane identified as "Proposed Lane Closing" on Schedule "A". The applicant proposes to incorporate the lane into DASZ 15/2003, an application to subdivide and rezone the land shown bordered on Schedule "A".

DISCUSSION:

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the closing.

The Transportation Division of the Public Works Department has the following comments:

"…the actual gravel roadway of the subject lane located to the south of the proposed closing as well as a portion of the gravel roadway of the east-west lane do not exist within their prescribed rights-of-way. It is recommended that as a condition of either the subject closing or the proposed subdivision and rezoning application (DASZ 15/03) the applicant shall enter into a Servicing Agreement providing for the reconstruction, to similar standards as the current lane roadway, of the affected sections of public lane within the designated rights-of-way, as determined by and to the satisfaction of the Director of Public Works."

Easements

Manitoba Hydro has advised that Hydro, MTS, and Shaw Cable maintain facilities in the area. The only improvements typically allowed in easement areas are fencing and paving. The provision of these easement areas will be addressed through the subdivision process.

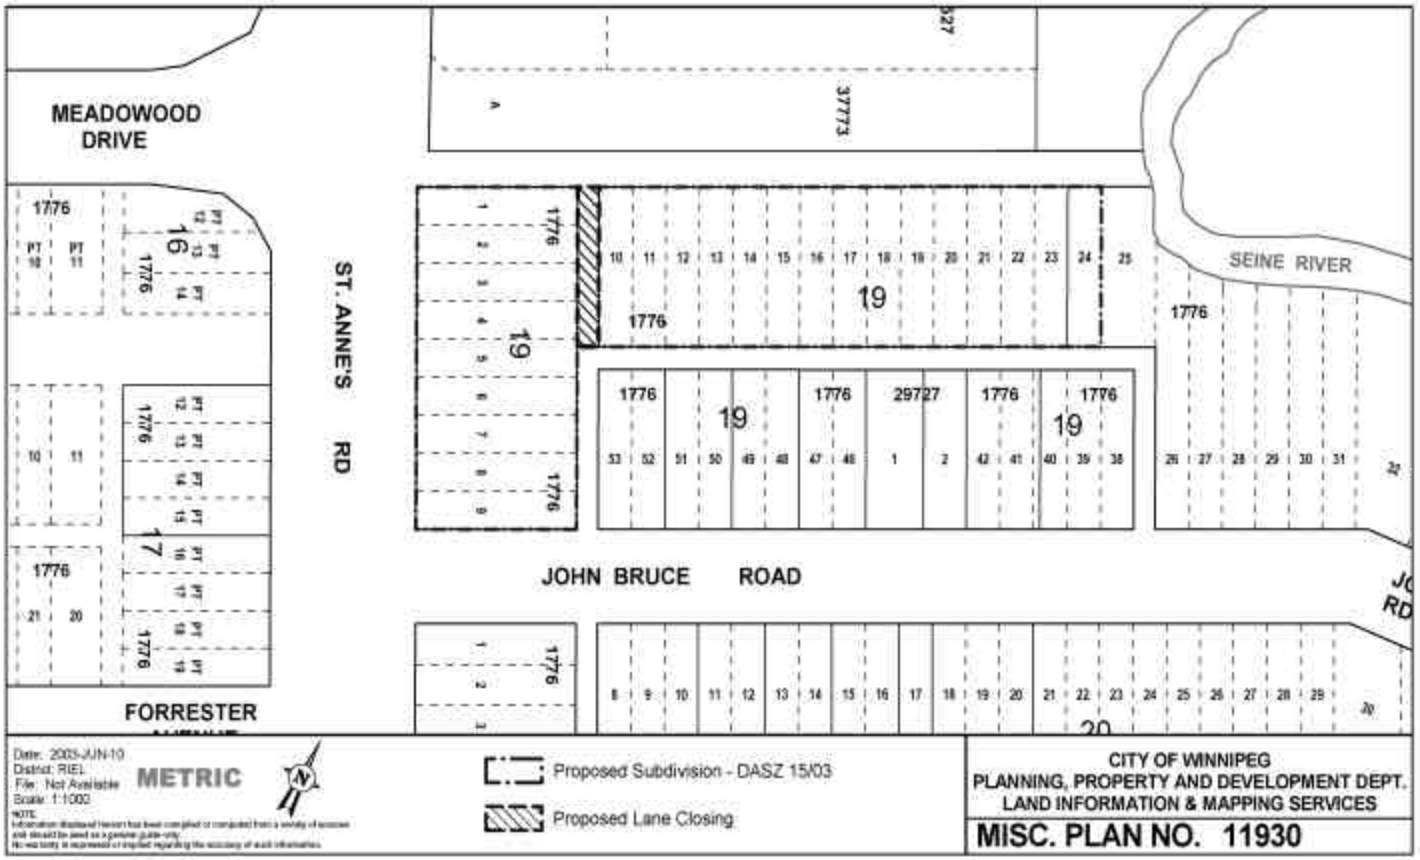

Transfer of Jurisdiction Over Public Rights-of-Way

The lane must be legally closed before it may be incorporated into the subdivision. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.
