(hereinafter referred to as the ``Lessee``) for the purpose of developing and maintaining a passive park identified as "Lease Area" on Misc. 4. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

In accordance with the Council Order of July 18, 1979, the Standing Policy Committee on Property and Development shall authorize the leasing or rental of City property for which the Director of Planning, Property and Development has no authority.

In this regard, Planning, Property and Development has negotiated the proposed terms and conditions of a Lease Agreement as set out in attached Schedule A in favour of Henteleff Park Foundation Inc. (HPF) for the use of City-owned lands located at 1964 St. Mary's Road and identified as "Lease Area" on attached Miscellaneous. Plan No. 14892/1.

The lease of park land over five years in length requires approval by at least a two-thirds majority of Council.

IMPLICATIONS OF THE RECOMMENDATIONS

The Department has determined that there is no general, policy, regulatory, environmental or human resource implications to entering into a lease agreement as shown on the attached Misc. Plan No. 14892/1.

As per the signed Development and Management Agreement, it is understood and agreed that funding for the operation, maintenance, management and improvement of the Park, exclusive of a future Interpretive Centre and other like future project developments, shall be the sole responsibility of the City. It is understood and agreed that unless the implementation of the Framework Plan (see Schedule B) requires otherwise, the standard for the operation, maintenance, management and improvement of the Park by the City shall be consistent with City standards for similar parks and will be subject to Council approved funding of a specific project.

As per Section 5 (Funding of the Implementation) of the Framework Plan; (a) "The Foundation acknowledges and agrees the funding for carrying out the Framework Plan, although being the Responsibility of the City…is totally conditional upon the City being able to secure the funding necessary to implement the Framework Plan from the Province of Manitoba, the Government of Canada as well as from Foundations, public and otherwise, in addition to the City's own resources available and approved for those purposes".

The Public Works Department has provided the following summary comments:

In as much as the plan outlines natural area preservation and site development components, implementation of the framework plan is expected to have environmental benefits and may have long term financial implications. Endorsement of the Framework Plan may, over time, affect operational budget requirements related to staffing for maintenance of the Henteleff Park Site. Additionally, it is expected that implementation of various components of the plan will require the City's financial participation and will be subject to Council approval of the project and budget to support the capital and operating funding.

The business plan provided to Public Works includes grants that are not yet received and may not be attainable each year. With the exception of the Winnipeg Foundation funding, the balance of funding is pending and requires annual proposals and adherence to changing grant criteria. Furthermore it is believed by Public Works that collecting admission may violate the terms of the lease.

Public Works has further advised that "Maintenance Shelter and Content" is lacking in standard maintenance obligations. It would appear the maintenance identified is based on a Parks Canada Interpretive Panel or stand along Interpretive Kiosk. See attached Maintenance Schedule (Schedule E) which is based on the Community Centre funding structure known as Sweat Equity.

HISTORY

In 1924 the Henteleff family purchased 40 acres of land at the site known today as 1964 St. Mary's Road to establish a market garden operation which was utilized as such until 1967 when the lands were expropriated by the City for the development of a park.

In 2002, the Standing Policy Committee on Property and Development deferred to the Director of Planning, Property, and Development respecting adoption of a proposed agreement of association between the City and the Friends of Henteleff Park for the purposes of maintaining and developing the lands.

In 2003, the City officially named the lands Henteleff Park.

The Lessee is a non-profit charitable organization that was established with the purpose of working with the City to enhance Henteleff Park in addition to civic investment. Chief among the Lessee's aims was the establishment of an Interpretative Centre on the front part of the Park bordering St. Mary's Road in addition to other like projects with accompanying structure(s) in the park such as a demonstration garden and green house project, albeit subject to prior approval by the City.

At its meeting on December 6, 2006 Council concurred in the recommendations of the Executive Policy Committee, and approved the Draft Henteleff Park Development and Management Agreement subject to select amendments. The final Henteleff Park Development and Management Agreement (HPDMA) was executed February 21, 2007.

The HPDMA outlines roles and responsibilities for the collaboration of the Framework Plan which was adopted by Council July 17, 2013. The Framework Plan represents the long range master plan for the site outlining the location of significant features within Henteleff Park and will be used to prioritize and solicit funding for the development of the site as a passive park and Interpretive Centre.

The subject Framework Plan was prepared by a consultant for the HPF with input from the Winnipeg Public Service and has become the master plan/working document for the Henteleff Park Steering Committee.

As per Section 3, Development of the Framework Plan, ([e] of the HPDMA), the Framework Plan may include some of the following elements, some of which have been included, and some of which have been completed. The significant components of the Development Plan and their status and responsibility include:

Components	Status	Responsibility
Recreation trails	completed and ongoing upgrades	HPF and City
Entrance/Orientation Signage	completed	HPF and City
Benches, picnicking sites	completed and ongoing	HPF and City
Re-Naturalization of Park	completed and ongoing	HPF and City
Rehabilitation of Normand Creek	ongoing	HPF and City
Demonstration market garden	native prairie species planted, ongoing	HPF and City
Parking lot	completed and maintained	HPF and City
Parkway System Connections	completed and ongoing	HPF and City
Interpretive Centre	Preliminary plans provided by HPF, reviewed by City, required Lease Report to Council ongoing with projected Lease, Funding, Operating funds in place by 2014	HPF and City

Scheduling and completion of the elements of the plan will be dependent on available funding as approved by Council and/or as available funding is identified by the HPF. The intent of the Framework Plan was that it serve as a guide to prioritize elements of the development of the park and that each element be reviewed by Public Works to determine if current funds for implementation and maintenance are in place.

In carrying out both the framework and development plan, with HPF and the City working in tandem, the goal of implementation thereof was to best sustain, enhance and display the natural surroundings including animal and bird life, tree and plant life, and the creek and river habitats.

The Risk Management Division of Corporate Finance reviewed the insurance requirements for this proposed lease and their comments have been incorporated into the terms and conditions.

The Planning, Property and Development Department has negotiated proposed terms and conditions of a lease agreement in favour of Henteleff Park Foundation Inc.

The Real Estate Management Review of December 31, 2014, audit recommendation #12 advised that "Where possible leases should include shorter base terms with options to renew, or cancellation

clauses should be included to protect the City's interest and provide flexibility in lease agreements." Note a cancellation provision associated with this lease agreement has not been included based on the absence of such provisions in prevailing associated development agreements. Specifically, at the time the City and HPF entered into the Development and Management Agreement (2007), a cancellation clause was not recommended for such agreements nor would inclusion have been acceptable to the HPF given planned efforts to secure and invest resources could be potentially limited. Therefore, it is recommended the subject lease agreement maintain similar provision to reflect the intent of the Development and Management Agreement and otherwise convey commitment to realization of associated investment(s).

This report seeks approval of the lease agreement as negotiated.

Additional Comments: Revenues consist of the nominal $1/annum rental amount. Subject to receipt of grants receivable (per Schedule C "Non-Monetary Grant Criteria Report"), evidence exists that sufficient funding is available to complete the project. HPF is reliant on government grants and private donations, the continuity of which is inherently risky, to fund its operations. However, based on the unaudited 2014 financial information provided, it appears that HPF will be able to fund its ongoing operations without operating subsidies from the City.

Non-Monetary Grant Criteria Report

Criteria	Pass	Fail	Comments
1. The organization must provide a facility operated in its entirety by a non-profit organization for non-profit uses.	✓		The Applicant is a non-profit organization.
2. The organization must provide for activities which are compatible with City's needs.	✓		Applicant provides enhanced amenities within Henteleff Park.
3. The organization must provide facilities for which there is a current and projected need in that location.	✓		The City has a need for park amenities.
4. The organization must provide reasonable access to all Winnipeg residents without discrimination.	✓		Unfettered access is provided to all who wish to visit.
5. The organization must provide access without the charging of initiation fees, membership fees or other costs which are incompatible with like facilities or organizations.	✓		No fees are charged to anyone in the delivery of this service.
6. The organizations must provide evidence of available funding and commitment to complete the project and assurance that no ongoing operating subsidies from the City will be required over the life of the development.	✓		Subject to receipt of grants receivable, evidence exists that sufficient funding is available to complete the project. HPF is reliant on government grants and private donations, the continuity of which is inherently risky, to fund its operations. However, based on the unaudited 2014 financial information provided, it appears that HPF will be able to fund its ongoing operations without operating subsidies from the City. See Schedule "C" for relevant documentation.
General Comments: The Property Management Branch has concluded that Henteleff Park Foundation Inc. satisfies the 6 criteria required to receive a non-monetary grant from the City of Winnipeg.
