IMPLICATIONS OF THE RECOMMENDATIONS

In the Agreement between CPKN and the City of Winnipeg, the respective rights and responsibilities with regards to the development of the Course Content into an electronic format for distribution amongst the Canadian police community are addressed.

HISTORY

Established in 2004, CPKN provides e-learning training for police and law enforcement. CPKN is a not for profit corporation that works to develop high-quality online training products in partnership with police services, training institutions, and recognized subject matter experts in the Canadian police community, including the Canadian Association of Chiefs of Police and the Police Sector Council.

Through a secure Learning Management System, CPKN offers a wide range of e-learning courses that address both mandatory and elective training needs within the Canadian police community.

In collaboration with CPKN, the WPS has developed training materials on the subject of *Search and Seizure: Warrantless Authorities and Domestic Violence Investigations,* which may be of value in training and development of police forces and other similar organizations.

An Agreement has been drafted to address the respective obligations of CPKN and the WPS for setting out their respective rights and responsibilities with regards to the development of the Course Content into an electronic format for distribution. The term of the Agreement commenced on April 1, 2014 and continues until and including March 31, 2017.

The WPS is responsible for all costs associated with the development of the E-Learning Course including updates, amendments, alterations and revisions as necessary. CPKN is responsible for costs associated with the design and delivery of the E-Learning Course, as addressed in the Agreement. Annual updates costs will not exceed 5% of the total Development Costs per annum which shall be paid for by CPKN. However, if the updates are greater than 5% of the Development Costs, CPKN reserves the right to negotiate further development costs with the Content Provider.
