REPORT SUMMARY

- The applicant intends to rezone the property to an ""M2" General Manufacturing District.
- The proposed rezoning is meant to accommodate a Place of Worship use in an existing building.
- The proposed rezoning is consistent with *Complete Communities* because the lands will remain industrially zoned – "M2" – which is consistent with the General manufacturing Policy Designation.
- The subject rezoning will accommodate development within an existing building.

- The report is being submitted for the Committee's consideration of the development application at the Public Hearing.

SITE DESCRIPTION

The subject property, which is currently zoned "M3" Manufacturing Heavy, is located on Warnock Street between Logan Ave and Henry Ave in the Logan C.P.R. Neighbourhood of the Point Douglas ward.

Surrounding Land Use and Zoning

North: Henry Avenue, then industrial uses zoned "M3" Manufacturing Heavy District.

Figure 1: Approximate Boundary of the Subject Site (Aerial Flown 2012)

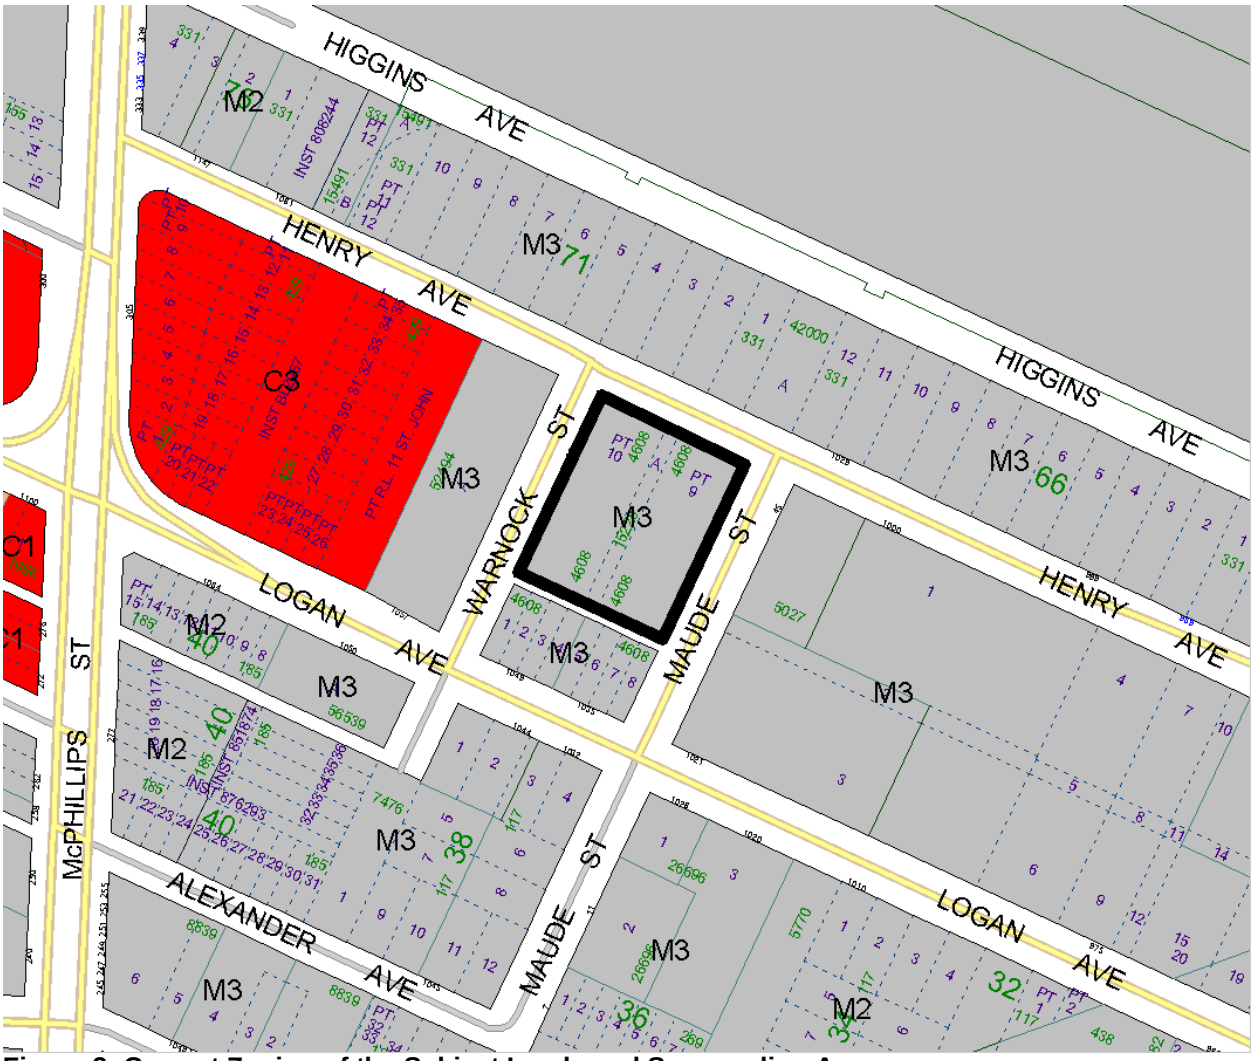

Figure 2: Current Zoning of the Subject Lands and Surrounding Area.

DESCRIPTION OF THE PROPOSAL

- The applicant intends to rezone the planned area to an “M3” Manufacturing Heavy District and use the existing building as a Place of Worship.
- The lands are currently owned by the City of Winnipeg and will be sold for the established purpose subject to a successful rezoning.
- Through the application process the city will retain some of the lands at the southern edge of the property for the purposes of a lane widening.
- The proposed rezoning will allow an existing building, which has been used as an office, to remain in use as a place of worship.

ZONING

Zoning By-Law 200/2006: Proposed Zoning District
According to Zoning By-law 200/2006:

> The Manufacturing General (M2) district is intended to provide for light manufacturing, processing, service, storage, wholesale, and distribution operations, with some limited outside operations and storage.

The M2 district also accommodates a number of uses that are not industrial in nature such as hotels and motels; restaurants and drinking establishment; and places of worship (the proposed use). The applicant is choosing the M2 zoning because it allows the zoning on the land to be consistent with the General Manufacturing policy designation of the Complete Communities and allow the proposed use as a permitted use.

COMPATIBILITY WITH EXISITNG DEVELOPMENT
The subject lands currently contain an office building. Neighboring properties reflect a mix of uses, including the City of Winnipeg Animal Services facility across Warnock to the west, offices across the public lane to the south that front onto Logan Avenue, and industrial uses scattered throughout the area. It is noted that the subject site is located one block from the intersection of McPhillips Street and Logan Avenue which provides many commercial services including a large strip mall on the north east corner. In this context the proposed use seems compatible with the range of uses in the immediate vicinity.

INPUT FROM OTHER DEPARTMENTS
In circulation of the subject application, the Public Works Dept has advised of the need for lands for a future widening of the existing east-west public lane, from Warnock Street to Maude Street along the south limit of the Planned Area, as well as a corner cut in the southwest corner of the property. This requirement is addressed under recommendation 1. B. of this report.

RECOMMENDATION
The Urban Planning Division recommends approval for the following reasons:

- The proposed zoning district accommodates a Place of Worship as a permitted use under Zoning By-law 200/2006 and is consistent with the General Manufacturing Policy designation of Complete Communities.
