HISTORY

On November 20, 2013, City Council amended the Local Improvement process by creating a pilot project for six years whereby the City of Winnipeg will finance the asphalt lane local improvements to the maximum of 50% of the total cost of the improvement. The City has capped support for this program to $1,000,000 per year or roughly 10 lanes. Funding will be provided on a first come first served basis determined by submission of a successful formal petition prepared by the City for an initiating property owner. Similar to concrete lane improvements, the required catch-basins and land drainage sewers are included and fully paid for by the City.
