RECOMMENDATION: Approval with Conditions

REPORT SUMMARY

- The applicant intends to rezone the property to a “PR2” Parks and Recreation District.
- The proposed rezoning is meant to accommodate a land swap between the City of Winnipeg and the Seven Oaks School Division.
- The rezoning is required to create consistency in zoning designations of the affected lands.
- The Public Service recommends the rezoning be approved subject to any conditions specified herein.

SITE DESCRIPTION

The subject properties that would be rezoned as part of this application are lands located at the southwest corner of Amber Trail and Allen Blye Drive and the lands at the northern terminus of Birtle Street north of Leila, in the Amber Trail Neighbourhood of the Old Kildonan ward (See Figure 1). To put the lands in a larger context, they are associated with Ecole Leila North School and City owned public reserve lands west of the school.

Surrounding Land Use and Zoning

North: Amber Trail, then single-family homes zoned “R1-M” Residential Single-Family District.
South: A public lane then single-family homes zoned “R1-S” Residential Single-Family District and a fire station zoned “RMF-M” Residential Multi-Family District and “PR2” Parks and Recreation District.
East: Allen Blye Drive, then single-family homes zoned “R1-M” Residential Single-Family District.
West: Lands approved for multi-family development zoned “RMF-M” and “RMF-S” Residential Multi-family District.

Figure 1: Lands subject to proposed rezoning (Aerial Flown 2012)

DESCRIPTION OF THE PROPOSAL

- The applicant intends to rezone the property to a "PR2" Parks and Recreation District.
- The proposed rezoning is meant to accommodate a land swap between the City of Winnipeg and the Seven Oaks School Division.
- The rezoning is required to create consistency in zoning designations of the affected lands.
    - The lands currently owned by the Seven Oaks School Division need to be rezoned to "PR2" to match the City owned lands this will be consolidated with
    - The lands owned by the Seven Oaks School Division, adjacent to the subject City owned lands they will be consolidated with will be rezoned to "PR2" to match the existing "PR2" which is more suited to a school.
    - The existing RR5 zoning district is not the most appropriate zoning district for public park space or for a school. The "RR5" zoning district is meant to

accommodate rural residential development in Agricultural Policy areas where the minimum lot size can be less than 40 acres.

- The subject rezoning application will clean up the zoning situation on the affected sites to better match zoning district with planning policy.
- The intended use of the land requires a rezoning and subsequent Public Hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- The report is being submitted for the Committee's consideration of the development application at the Public Hearing.
- The Public Service recommends the rezoning be approved subject to any conditions specified herein.

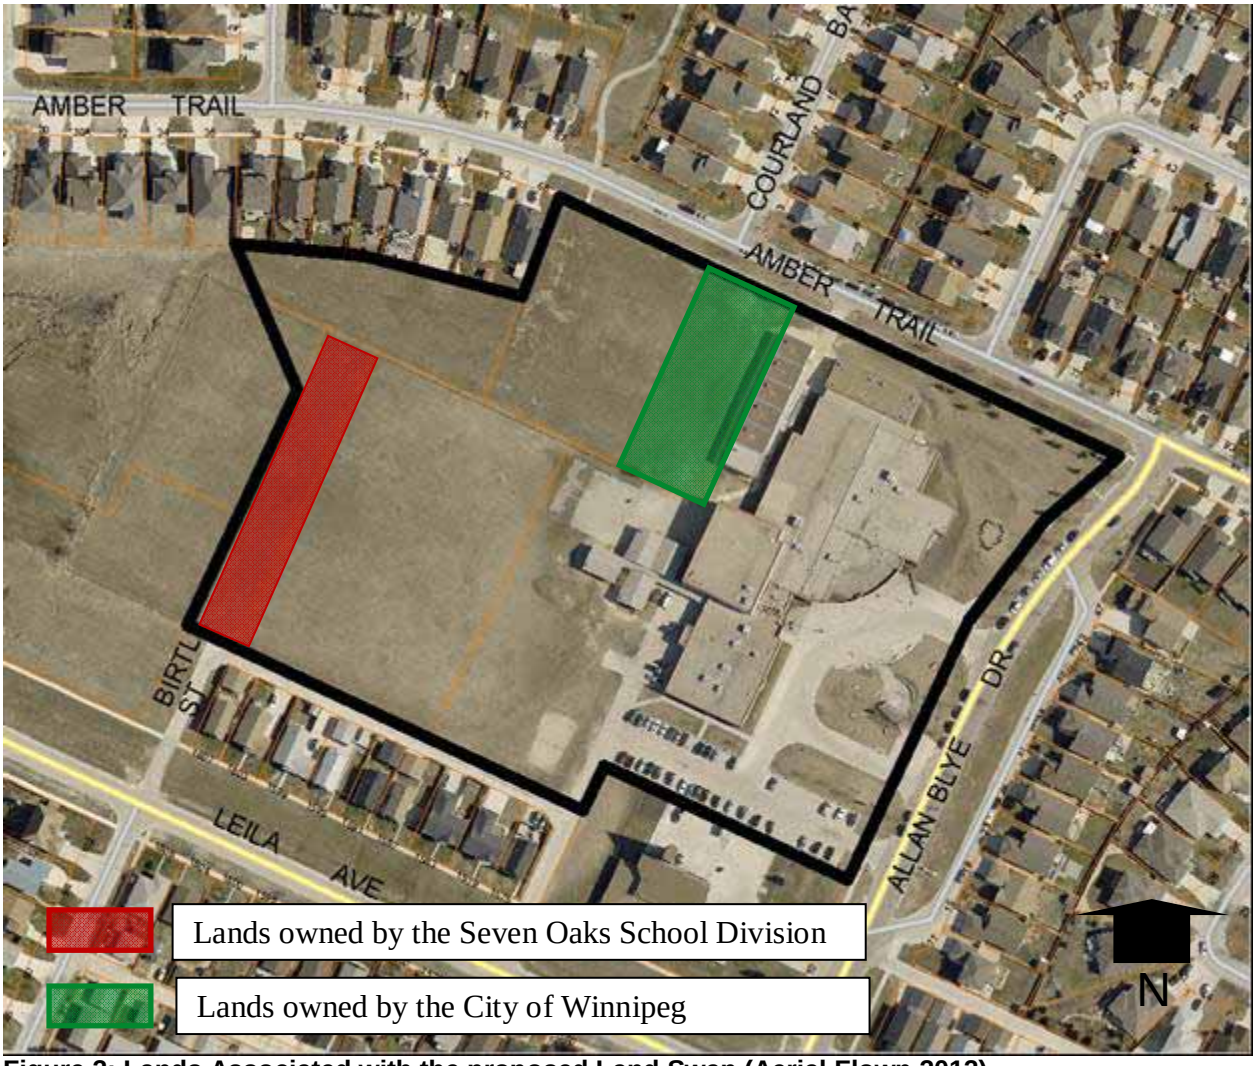

Figure 2: Lands Associated with the proposed Land Swap (Aerial Flown 2012)

Figure 2 above illustrates the lands that are associated with the land swap between the City of Winnipeg and the Seven Oaks School Division.

- The lands currently owned by the City would become owned by the Seven Oaks School

Division and consolidated with the existing School Division lands directly to the east. The School Division Lands are currently zoned “RR5” would then be rezoned to “PR2”.

- The lands currently owned by the Seven Oaks School Division would become owned by the City of Winnipeg and consolidated with existing City owned lands directly to the east. The subject lands would be rezoned to “PR2” to match the public reserve lands

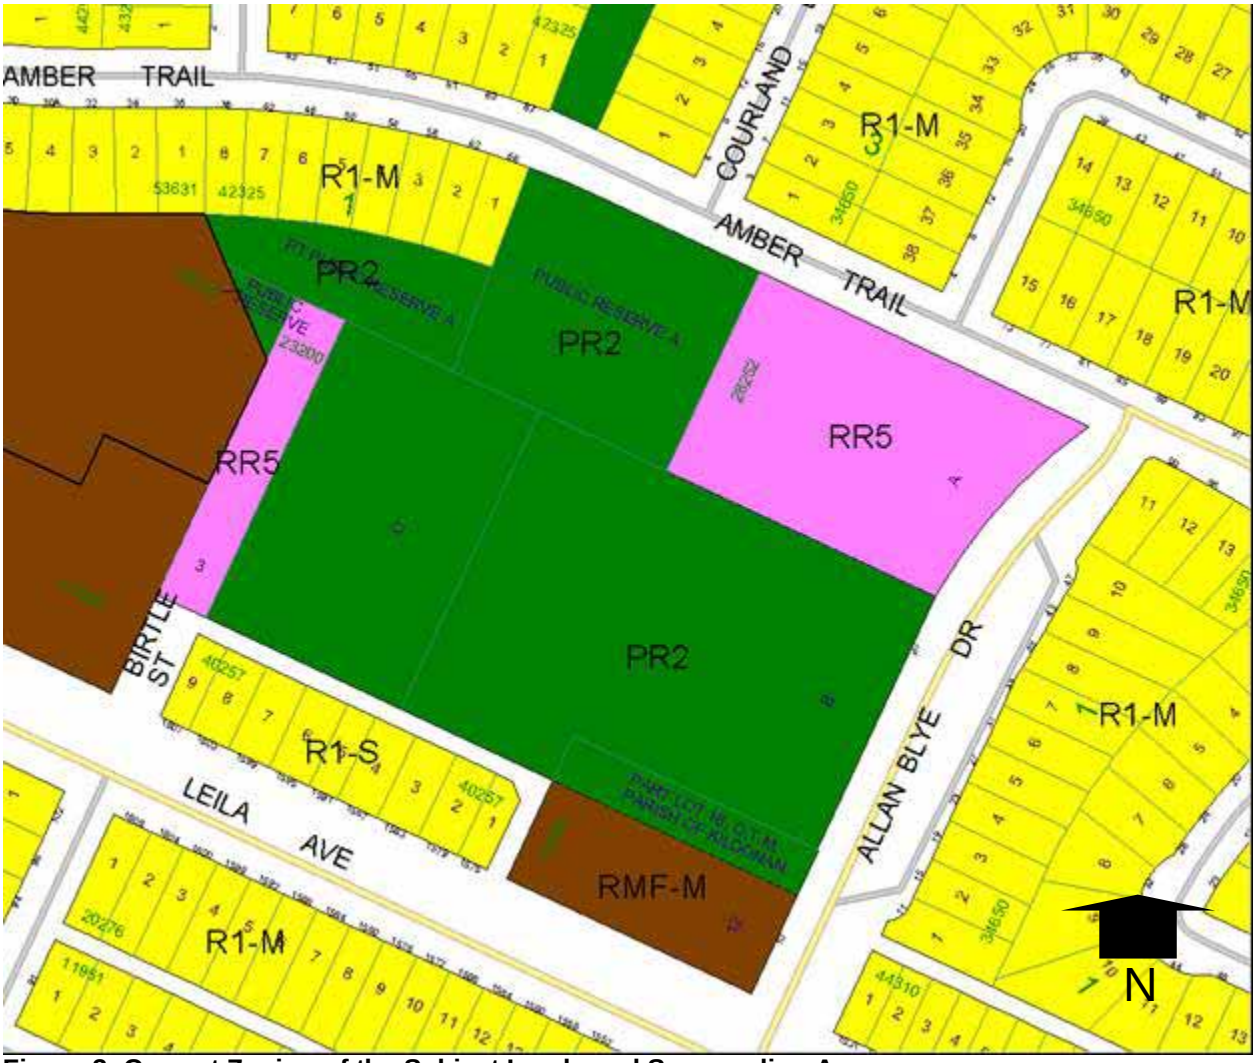

Figure 3: Current Zoning of the Subject Lands and Surrounding Area.

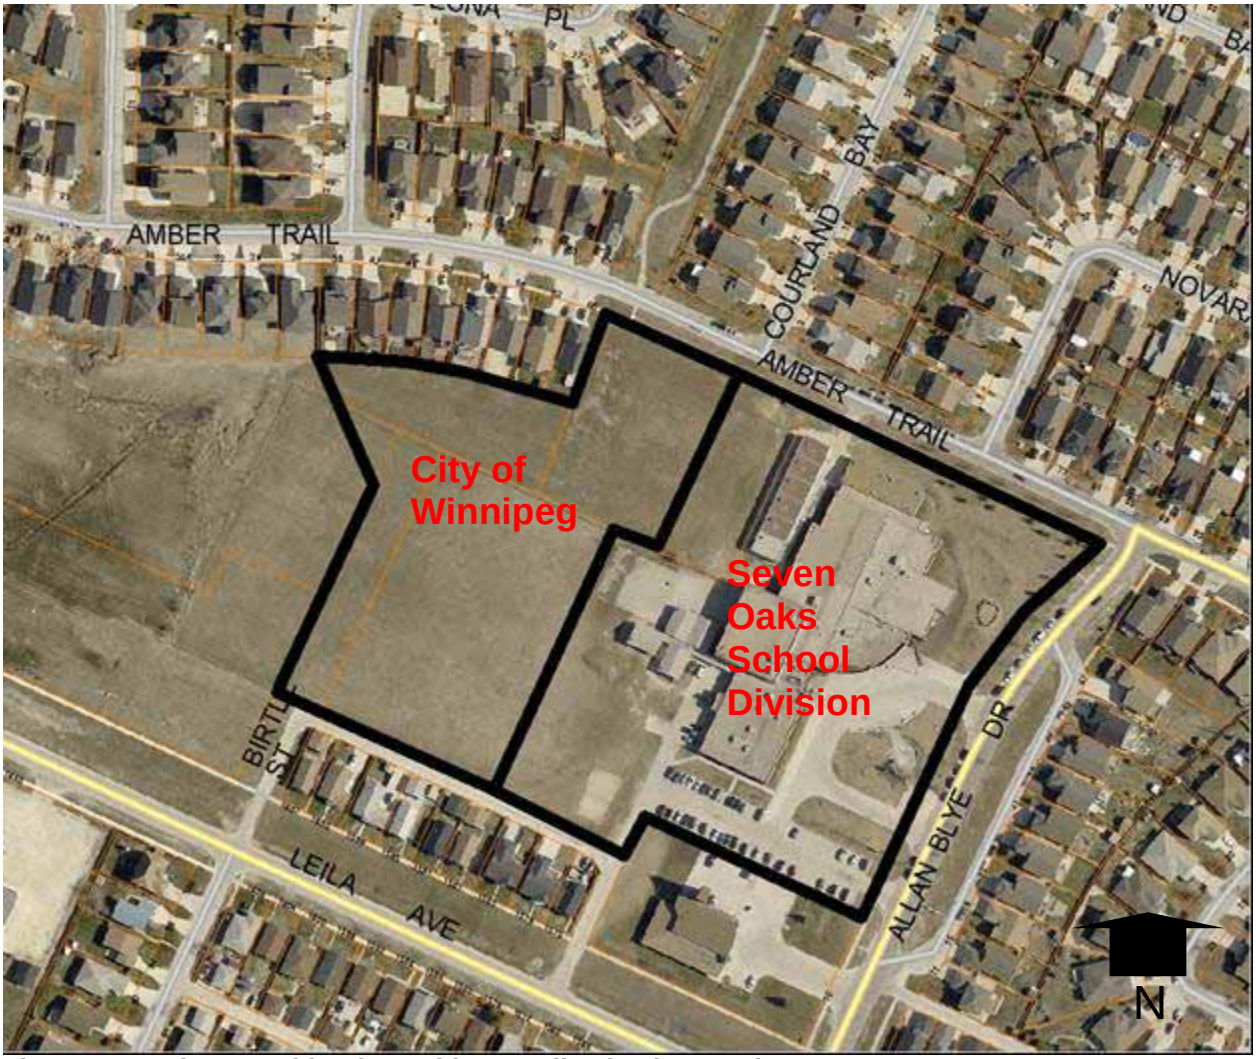

Figure 4: Land Ownership after subject application is complete.

Figure 4, above, illustrates what lands will be owned by the City of Winnipeg and what lands will be owned by the Seven Oaks School Division once the land swap has been finalized. The land swap, rezoning and consolidation allow for each entity's lands to be contiguous on their own. All of the lands highlighted in Figure 4 would have a consistent "PR2" Zoning District. This zoning district is the most appropriate to accommodate the land uses for both the School Division and the City of Winnipeg.

ZONING

Zoning By-Law 200/2006:

The current zoning designation of the subject lands is RR5 Rural Residential District.

> *The Rural Residential 5 (RR5) district is intended to provide areas for large-lot rural residential development, along with limited agricultural uses.*

The zoning district of the subject lands does not fit the neigbourhood context in which they are situated in. As noted above, the "RR5" zone is meant for rural development in areas that are designated for rural development. However, the subject lands are designated as Recent Community in Complete Communities; the current "RR5" designation is not consistent with the Recent Community Policy designation.

Proposed Zoning District
The lands are proposed to be rezoned to "PR2" Parks and Recreation District.

> The Parks and Recreation 2 (PR2) district is intended for sites that include community recreation facilities and parks that are accessed by a mix of pedestrian and vehicular traffic. These sites may provide active programs and activities, including community centres, hockey pens, arenas, indoor soccer, wading pools, spray parks, skateboard parks and athletic fields. Parking facilities ranging from 10 to 100 stalls may be associated with these uses. These parks and facilities typically occur along collector streets.

The proposed "PR2" zoning district for the subject properties is a much better fit both in terms of the neigbourhood context in which the lands are situated in and in terms of the Complete Communities policy designation that governs the lands.

COMPATIBILITY WITH EXISITNG DEVELOPMENT

Effectively, the rezoning application will provide zoning consistency for the City owned lands and the Seven Oaks School Division lands. The land will remain in use for school purposes for the Seven Oaks School Division and park space for the City of Winnipeg. The subject rezoning cleans up the sites from a zoning perspective. Without it, the City lands and School Division lands would each be split zoned which makes it difficult to apply the by-law, not to mention that the "RR5" district is intended for rural, not urban development. The re-orientation of lands provided by the land swap provides mutual benefit to the City of Winnipeg and the School Division in that:

1) It results in a better consolidation of the School Divisions lands and park lands (Contiguous instead of non-contiguous).
2) The land that the City would be getting from the School Division is a logical location for the continuation of the Amber trails multi-use pathway.
3) The land that the School Division would be getting from the City provides for opportunities for facility expansion without special permission from the City.

4) The land that the School Division would be getting from the City is currently not programmed by the City nor has there been any specific demand or expectations from the neighbourhood.

RECOMMENDATION

The Urban Planning Division recommends approval for the following reasons:

- The proposed rezoning to "PR2" better reflects the intended use of the subject lands and is consistent with the Recent Community Policy designation of Complete Communities.
