RECOMMENDATIONS

The Urban Planning Division recommends approval of the application to vary the "RMF-M" Dimensional Standards of Zoning By-law No. 200/2006 for the establishment of a play structure to permit no north side-yard instead of 8 feet (2.44 metres);

subject to the following condition:

1) that, if any variance granted by this order is not established within two (2) years of the date hereof, this order, in respect of that Variance, shall terminate.

REASON FOR THE REPORT

This report is required because the proposed play structure cannot be established at the proposed location without approval of the proposed variance.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, the play structure can be established on the subject site.

HISTORY

On September 22, 2015, the East Kildonan-Transcona Community Committee concurred in the recommendation of the Winnipeg Public Service, as amended, and approved the plans of a proposed play structure to be established at 155 Peguis Street. A zoning agreement, associated with DASZ 10/2013, requires plans to be approved by said committee and the Director of Planning, Property and Development and subsequent development to be in conformity with the approved plans.

The committee approved the plans subject to the following condition(s):

1. That five (5) deciduous trees be planted in the locations circled in blue ink on page 1 of 34 of the approved plans.
2. That the play structure include junior and senior features, including swings and a slide, subject to the approval of the Director of Planning, Property and Development and the Director of Public Works.

CONSULTATION

Consultation was not warranted to prepare this report.

RECOMMENDATION:	Approval with One Condition

CRITERIA FOR APPROVAL

Pursuant to Section 247(3) of *The City of Winnipeg Charter*, a Zoning Variance application can be approved if the proposed development:

(a) is consistent with *Plan Winnipeg* (*OurWinnipeg*) and any applicable secondary plan (*Complete Communities* and the *Transcona West Area Structure Plan);*

(b) does not create a substantial adverse effect on the amenities, use, safety and convenience of the adjoining property and adjacent area, including an area separated from the property by a street or waterway;

(c) is the minimum modification of a zoning-by-law required to relieve the injurious effect of the zoning by-law on the applicant's property; and

(d) is compatible with the area in which the property to be affected is situated.

DESCRIPTION OF THE SUBJECT LAND

Figure 1 shows that the subject land is immediately northeast of Peguis Street and Cal Gardner Drive. The subject land is one lot in a plan of subdivision. It fronts onto Peguis Street and is approximately 369 feet deep and 400 feet wide. It is in the Peguis Neighbourhood and the Transcona Ward.

The subject land is in a Recent Community Policy Area of *Complete Communities,* a Residential Mixed Use Policy Area of the *Transcona West Area Structure Plan* and an "RMF-M" Zoning District. The lot comprising the subject land was created under File DASZ 10/2013. Under that file a development agreement was entered into that requires the developer to service the area with piped water, wastewater and land drainage, paved roads and paths, and other infrastructure.

SURROUNDING LAND USE AND ZONING

Figure 1 shows that areas zoned, or approved to be zoned, multi-family are adjacent and near the

Figure 1: Approved Subdivision and Rezoning Applications and 2014 Aerial Photography

subject land. Figure 1 also shows that “RR5” Rural Residential 5 and “R1-L” Residential Single-Family Large Zoning Districts are near the subject land.

Construction of residential buildings, and infrastructure, has recently begun in the vicinity of the subject land. This construction began after the 2014 aerial photography of the area was completed.

DESCRIPTION OF THE PROPOSED DEVELOPMENT AND VARIANCE

PROPOSED DEVELOPMENT

The proposed development, shown on the plans submitted as part of the variance application, is the establishment of part of a play structure on the subject site. The other part would be established on the abutting property to the north.

PROPOSED VARIANCE

The proposed variance that is the subject of this report, and the proposed variance regarding 225 Peguis Street, would accommodate the proposed play structure.

ANALYSIS

OURWINNIPEG, *COMPLETE COMMUNITIES* AND THE *TRANSCONA WEST AREA STRUCTURE PLAN*

The proposed variance complies with these policy documents because it would accommodate part of a play structure that would be established partly on the subject property and partly on the abutting property to the north.

COMPATIBILITY AND ADVERSE EFFECT

The proposed variance would be compatible, and have no adverse affect on, the area in which the subject site is located.

INJURIOUS EFFECT AND MINIMUM MODIFICATION OF THE ZONING BY-LAW

The proposed variance can be considered to address an injurious effect of the by-law and can be considered the minimum modification needed to do so because it would accommodate a proposed play structure that would be on the subject site and the property north of it.

REASONS FOR RECOMMENDATIONS

In the context of Section 247(3) of The Charter, the Urban Planning Division recommends approval of the variance application because it

a) is consistent with Plan Winnipeg (*OurWinnipeg) and* any applicable secondary plan (*Complete Communities)*;

b) would not create a substantial adverse effect on the amenities, use, safety and convenience of the adjoining property and adjacent area, including an area separated from the property by a street or waterway;

c) would be the minimum modification of a zoning-by-law required to relieve the injurious effect of the zoning by-law on the applicant's property; and

d) is compatible with the area in which the property to be affected is situated.

The recommended condition of approval, stated below, is to ensure the variance will be acted upon in a timely manner, before significant change occurs in the area around the subject land.

RECOMMENDED CONDITION OF APPROVAL

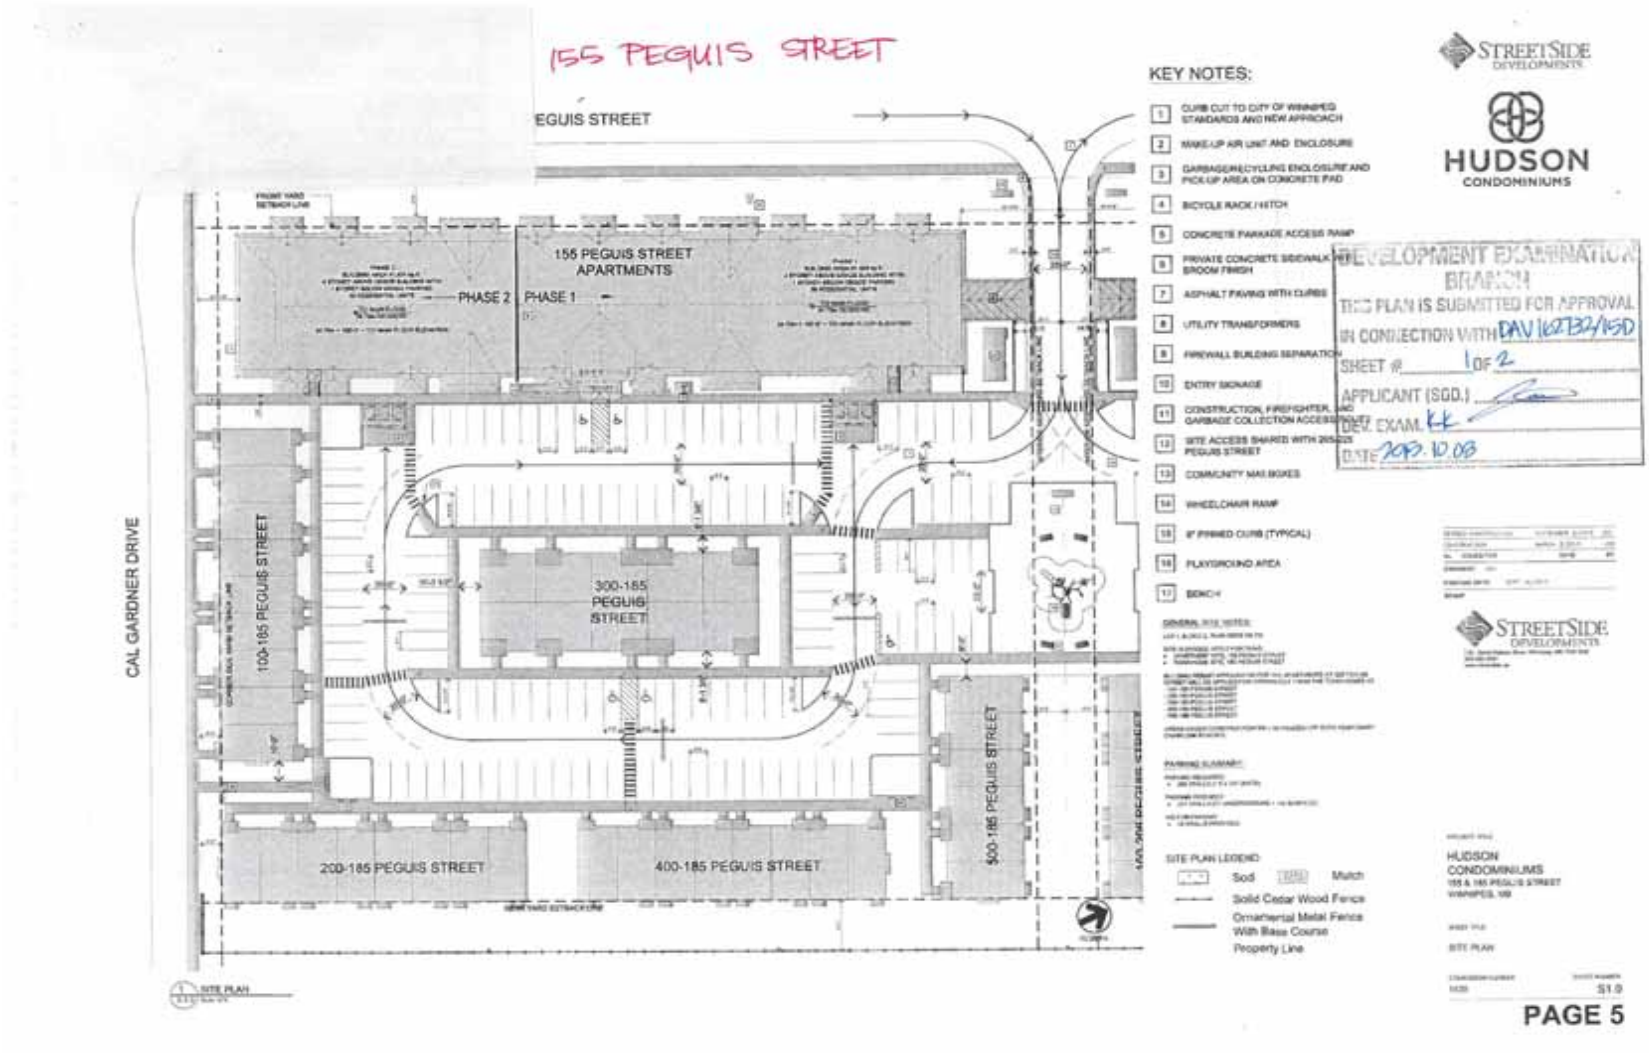

That, if any variance granted by this order is not established within two (2) years of the date hereof, this order, in respect of that Variance, shall terminate.
