SUBJECT: RESULTS OF JULY 31, 2003 LOCAL IMPROVEMENT ADVERTISEMENT

DATE: September 9, 2003

Attached is the 'Local Improvement Project Status Report' indicating proposed Local Improvement projects within your Community & Ward boundary that were advertised on Thursday July 31, 2003 in the Winnipeg Free Press newspaper. The East Kildonan - Transcona Community Committee is, therefore requested, to specifically review and recommend to the Standing Committee on Public Works on the Local Improvement projects as follows:

Work Order No.	Local Improvement	Location
99-03-020-1-03	*Land Drain Sewer (Lateral Only)*	*In the east-west leg of John Huyda Drive from the north-south leg of John Huyda Drive to Mitchelson Way.*

It is estimated that the total cost of the project is $10,500 of which **92.16**% is to be recovered from the property owners' share. Mr. Herb Bodnaruk of 738 Bonner Avenue requested an 'Objection Against Petition Form' on August 6, 2003 and subsequent to receipt of said 'Objection Against Petition Form' on August 25, 2003, no other objections apart from the petition were filed. In accordance with Section 125 of *The City of Winnipeg Charter*, it was ascertained and certified by the City Treasurer that the signatures obtained from the benefiting property owners represents 15.49% of the total assessable frontage.

Please note, with not including developer-owned lands at the time the 'Objection Against Petition Form' was issued, signatures obtained from the benefiting property owners represents 23.42% of the total assessable frontage, short of the necessary 60% to defeat the project. However, since the 'Objection Against Petition Form' was issued, it has come to our attention that the developer has acquired additional lands, therefore the signatures obtained from the benefiting property owners represents 56.85% of total assessable frontage, which is still short of the required 60% to defeat the project.

City's Administration Recommendation: The undertaking of this Local Improvement should proceed, since the petitioners were unable to attain the required 60% of the total assessable frontage.
