REPORT SUMMARY

- The applicant is proposing to rezone the site from "RMF-M" Residential Multi-Family Medium District to "RMF-L" Residential Multi Family - Large in order to add six (6) more units to an existing building consisting twenty-two (22) dwelling units.
- The Urban Planning Division recommends approval of this application with conditions.

SITE DESCRIPTION

- The subject property is located on the west side of Sherbrook Street in the Daniel McIntyre neighbourhood of the Daniel McIntyre ward.
- Existing on the property is a multi-apartment building that is 7,182 square feet in size.
- Under the Complete Communities Direction Strategy, the site is located within Areas of Stability – Mature Communities.

SURROUNDING LAND USES AND ZONING

North: Residential uses zoned “RMF-M” Residential Multi-Family Medium.

South: Single family houses zoned “RMF-M” Residential Multi-Family Medium.

East: Sherbrook Street, then single-family houses zoned “RMF-M” Residential Multi-Family Medium.

West: Backlane, then single-family houses zoned “RMF-M” Residential Multi-Family Medium.

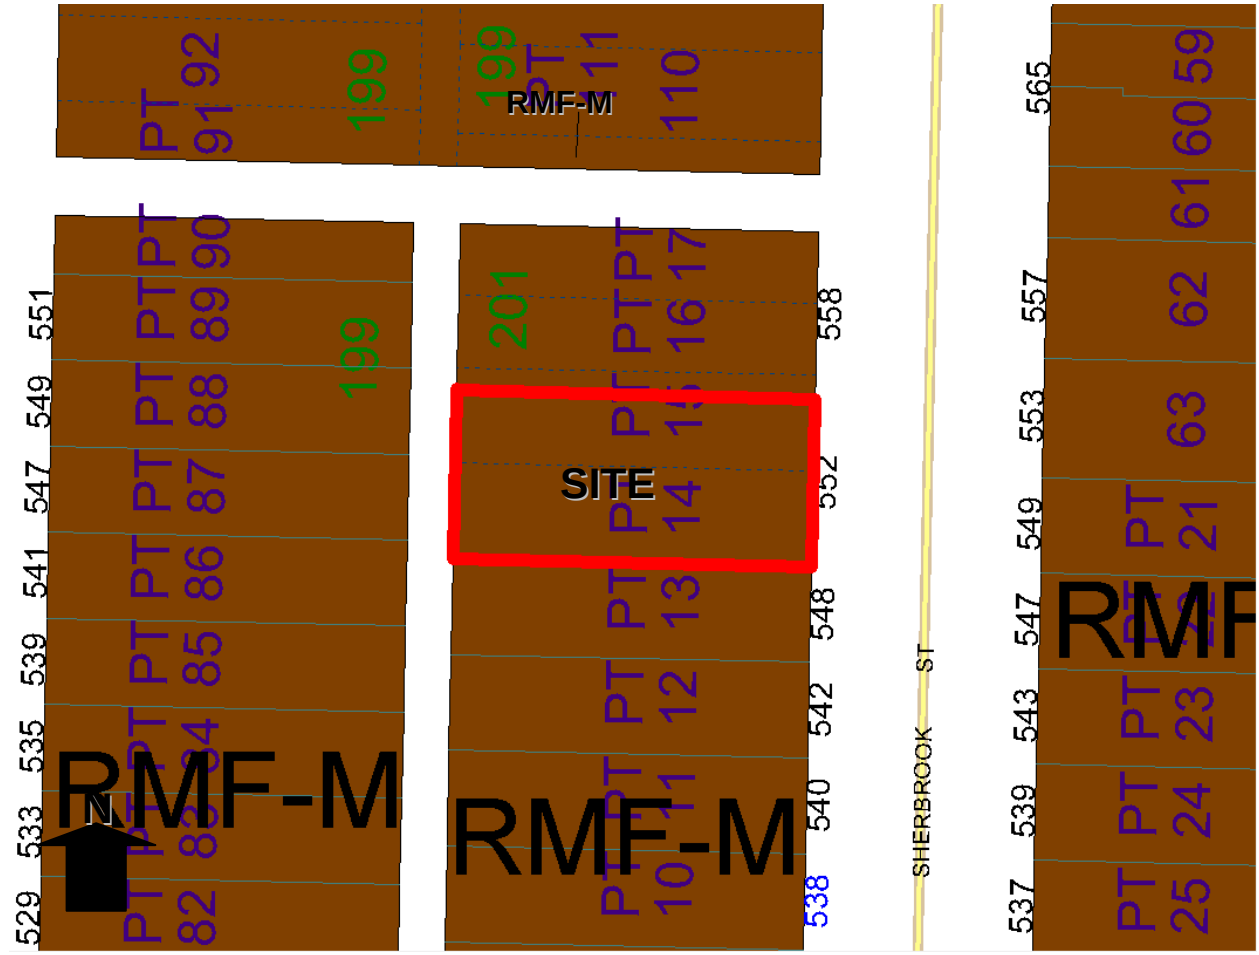

Figure 2: Zoning of the site and surrounding area.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to rezone the property from “RMF-M” Residential Multi-Family Medium District to “RMF-L” Residential Multi-Family – Large.
- The applicant wishes to add six (6) units to an existing 22 unit multi-family dwelling
- This proposed addition will be located within the basement of the existing building. However, because the applicant is rezoning from “RMF-M” to “RMF-L”, the proposed addition will have to meet the “RMF-L” dimensional standards.
- There is an associated variance application. (See DAV 15-159733D).

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- The site is located within the Areas of Stability – Mature Communities policy area. The key relevant policy guiding the development of Areas of Stability under the *Complete Communities Direction Strategy* includes:
    - Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.

- Focus housing growth to areas that have municipal service capacity to support intensification, in addition to commercial and recreational amenities.
- Support Complete Communities by ensuring diverse and high quality housing stock.
- In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.

LAND USE ZONING BY-LAW

"RMF-L" Residential Multi-Family Large Development Standards

- The "RMF-L" zone is intended to accommodate the development of multi-family units in neighbourhoods with medium to high residential densities. The dimensional standards for multi-family structures in the RMF-L zone are: a minimum front yard of 25 feet; a minimum rear yard of 25 feet; a minimum side yard of 8 feet (note b)[1] and, a maximum building height of 150 feet. The minimum lot area is 20,000 square feet and the minimum lot area per dwelling unit is 400 square feet.
- Though the structure in question exists and zoned "RMF-M", the rezoning application is such that it must meet the new zoning district (RMF-L) development standards.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The Complete Communities Direction Strategy encourages modest intensification of land uses within mature neighbourhoods when done in a context sensitive manner. The proposed increase in density by adding six (6) dwelling units to an existing 22 units is consistent with this policy.
- There are multiple variances required in association with the proposed expansion. Many of these variances are unavoidable because the applicant is maintaining the existing building, which has to meet the dimensional standards of the zoning district in which it's being rezoned. (See planner's report for DAV 15-159733/D).
- The height cap is necessary to make sure that any future redevelopment of the site is consistent with the existing neighborhood form and character.
- The proposed expansion will be in the basement of the existing structure without any changes to the footprint of the building.
- The Urban Planning Division is supportive of the rezoning application.

Building Height

- With the rezoning of the property from "RMF-M" to "RMF-L", a future redevelopment of the property could potentially see structures up to a maximum of 150 feet tall.
- The Urban Planning Division feels that because the neighbourhood is primarily characterized as single family residential, the condition to limit height to a maximum of 60 feet will help preserve the character of the neighbourhood while accommodating the expansion of this multi-family development.

Plan Approval

- The Urban Planning Division is recommending that final plans be submitted to the Director of Planning, Property and Development and the City Centre Community Committee should there be a redevelopment of the site, for review prior to the issuance of a development permit on the site. The inclusion of this clause will allow the Urban Planning Division and the City Centre Community Committee to review final plans before development takes place for any future developments on the site.

LAND DEDICATION

- When a developer rezones and/or subdivides a parcel of land, they are required to put in an application with the City of Winnipeg.
- As a condition of rezoning or subdivision, a developer is required to contribute a portion of the land to be developed to the City for parks purposes.
- The amount of land is not less than 10%.
- The developer is to provide land or 'cash in lieu' as determined by the Planning, Property and Development Department.
- The City is requesting cash in lieu for this application.

RECOMMENDATIONS
The Urban Planning Division recommends **approval, with conditions** for the following reasons:

- Increasing residential density and helping to achieve a compact urban form are key policies of Our Winnipeg and Complete Communities Direction Strategy that are fulfilled by this application.
- Being that the proposed expansion/intensification is within the existing building, the Urban Planning Division does not foresee any adverse impact on surrounded properties.
