REASON FOR THE REPORT

- Subdivisions and re-zonings require a Public Hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- The Report is being submitted for the Committee's consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

- If the recommendations of the Urban Planning Division are concurred in, the subject site will be rezoned and subdivided in a manner consistent with the map provided in Schedule "A" of this report.

RECOMMENDATION: Approval with Conditions

SITE DESCRIPTION

- The subject property is Phase 4 of the Bridgwater Trail neighbourhood. The land was originally rezoned and subdivided to create single-family lots zoned R1-M in 2012 on Rowntree Avenue, Bridge Lake Drive, and Arbourwood Court.
- The land is currently vacant.
- The site is located within the Low Density Residential policy area within the Waverley West Area Structure Plan.

SURROUNDING LAND USE AND ZONING (See Figure 2)

North: vacant land zoned R1-M

South: vacant land zoned R1-M

East: vacant land zoned R1-M

West: vacant land zoned R1-M

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to change the existing zoning from R1-M to R2 to allow for the construction of two-family homes and to further subdivide the lots which were previously subdivided under DASSF 584/2014.
- A variance is also required for three reverse corner side yards for 3 foot side yards instead of 10 feet (see DAV 15-166782/D).

- The subdivision and rezoning will allow each unit of the proposed two-family homes to be built no a separately titled lot and avoid the need for future short form subdivision applications. The two-family buildings will be built with a party wall and shared driveway that follows a shared property line.
- It should be noted that there are a few larger lots within the development that may be developed in the future as multi-family dwellings. In order to establish that use, an application for a conditional use to establish the multi-family dwellings will be required.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the *Complete Communities Direction Strategy* the proposed development is within the Areas of Stability – Recent Communities policy area. Key relevant policies guiding development within Areas of Stability include:
    - Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.
    - Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.
    - Promote a quality public realm with a high level of accessibility to community services and amenities and opportunities for gathering and social interaction.
    - In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.
    - Support Complete Communities by ensuring a diverse and high quality housing stock.

WAVERLEY WEST WEST AREA STRUCTURE PLAN

- The Waverley West West Area Structure Plan provides the overall planning guidance for the development of Bridgwater Trails (Neighbourhood E). The subject lands are located within the Low Density Residential policy area. The purpose of the Low Density Residential area is to provide for lower density residential development (generally single-family residential).
- The density target to be achieved in the Lower Density Residential Area is 4-6 units per gross developable acre.
- The specific residential design will be determined through the development application process.
- Section 5.1.1 of the Plan addresses the composition of the Lower Density Residential policy area. Relevant policies include the following:

    (1) Ground-oriented, single-family uses shall be the predominant land use, allowing for single-family attached and detached housing, townhouses and duplexes.

- Section 5.1.2 of the Plan speaks to the context around how to increase density through design. Relevant policies include the following:

(2)(v) Maximize density by minimizing front yard setbacks and lot widths subject to market demand and required City of Winnipeg approvals.

ZONING

- The Residential Two-Family (R2) zoning district is intended to accommodate the development of single- and two-family units and where appropriate limited multi-family units in lower-density areas. Residential units are permitted at densities as set out in Part 5 of the zoning by-law (By-law 200/2006).

COMPATIBILITY WITH EXISTING NEIGHBOURHOOD AND SURROUNDING USES

- The subject site is located within the Low Density Residential policy area, which supports residential two-family uses, as proposed by this applicant.
- The residential two-family dwellings proposed by the applicant will be similar in scale and massing to the single-family dwellings on adjacent streets.

PUBLIC WORKS

- The Public Works Department has reviewed the proposed subdivision and rezoning on land located in Bridgwater Trails Phase 4 Neighbourhood Area, Rowntree Av, Bridge Lake Drive, Arbourwood Court, Eaglewood Drive (DASZ 41/2015) and has the following comments and recommendations:
    - That the proposed lot widths should provide a minimum distance of 6.1m between the edge of the private approach flares between the two-family lots, adjacent the boulevard and measured along the curb, to the satisfaction of the Director of Public Works. This is to accommodate snow storage and on-street parking and is consistent with the minimum parking space dimensions as per the City of Winnipeg's Zoning By-Law.

RECOMMENDATION

- The Urban Planning Division recommends approval because the proposed development is consistent with the policies of the Complete Communities Direction Strategy and the Waverley West West Area Structure Plan.
