Petition to Restore Niakwa Park Bicycle Path

We, the residents of Niakwa Park are strongly opposed to the recent changes to the bicycle path that runs parallel to Number One Highway and Comanche Road. This pathway now ends abruptly at Pawnee Bay and veers sharply towards the Seine River, which has forced all non-motorized means of transport such as cyclists, rollerbladers, skateboarders, runners etc. directly onto the sidewalk or roadway into on coming traffic. This is posing problems for motorists and pedestrians alike. The single lane sidewalk is an inadequate replacement for the busy double lane bicycle path and does not meet the needs of this community. This is causing significant safety concerns as there is now increased traffic on the street as a result of these changes and it is only a matter of time before an accident occurs. We request that the path be restored to its original position from Pawnee Bay to the end of Iroquois Bay in order to meet the needs of our residents but also those residing in St. Vital, Southdale, Niakwa Place and Windsor Park.
