        - an east side yard of 5 feet (1.52 metres) instead of 8 feet (2.44 metres);
        - a west side yard of 4 feet (1.22 metres) instead of 8 feet (2.44 metres);

        - stall dimensions of 7.75 feet x 18 feet (2.36 metres x 5.49 metres) instead of 10 feet x 18 feet (3.05 metres x 5.49 metres).

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the *Complete Communities Direction Strategy* the proposed development is located in the Areas of Stability – Mature Communities. Key relevant policies guiding commercial development within Areas of Stability include the following:

- Key Direction - Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population (p.78).
- Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complementary to the existing scale, character and built form (p.80).
- Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments (p.80).
- Encourage intensification to occur at centres and corridors (p.80).
- Support complete communities by ensuring diverse and high quality housing stock (p.80).
- In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses (p.80).
- Facilitate land assembly for infill developments (p.85).

CITY OF WINNIPEG ZONING BY-LAW 200/2006

- There is an associated variance application as part of this rezoning and subdivision application for the following:

    1) for the construction of a multi-family dwelling (12 units) to permit:

        - a front yard of 20 feet (6.1 metres) to the building and 16 feet (4.88 metres) to the decks instead of 26 feet (7.92 metres);
        - an east side yard of 5 feet (1.52 metres) instead of 12 feet (3.66 metres);
        - a west side yard of 4 feet (1.22 metres) instead of 12 feet (3.66 metres);
        - a rear yard of 20 feet (6.1 metres) instead of 25 feet (7.62 metres);
        - a lot area per dwelling unit of 791 square feet (73.49 square metres) instead of 800 square feet (74.32 metres);
        - 17 parking spaces instead of 18 spaces;
        - a pedestrian route that will not be developed in accordance with the pedestrian connection design standards;

    2) for the establishment of an accessory parking area to permit:

        - an east side yard of 5 feet (1.52 metres) instead of 8 feet (2.44 metres);
        - a west side yard of 4 feet (1.22 metres) instead of 8 feet (2.44 metres);
        - a continuous fence buffer on the west and south sides instead of a fence buffer having a horizontal length of 48 feet (14.63 metres) followed by a landscaped strip having a length of 16 (4.88 metres);
        - stall dimensions of 7.75 feet x 18 feet (2.36 metres x 5.49 metres) instead of 10 feet x 18 feet (3.05 metres x 5.49 metres).

- The variance report will address each variance individually.

PUBLIC WORKS

- The Public Works Department is supportive of the project subject to the following:

  Plan Considerations

  1) The Developer shall, at no expense to the City, transfer and legally open, property required for a 2.375m widening of the existing north-south public lane, along the full length of the existing north-south public lane, abutting the east limit of the Planned Area, as determined by and to the satisfaction of the Director of Public Works.
  2) The Developer shall, at no expense to the City, transfer to the City and legally open property required, from the southeast corner of the Planned Area, for a 3.0m x 3.0m corner cut where the existing north-south public lane intersects with the existing east-west public lane abutting the south limit of the Planned Area, as determined by and to the satisfaction of the Director of Public Works.

  Servicing Requirements

  1) Pavements
     - The Developer shall, at no expense to the City, construct Portland cement concrete pavement to 6.0m wide by 150mm thick and all related works, in the existing north-south public lane abutting the east limit of the Planned Area, between Mager Drive East and the existing east-west public lane abutting the south limit of the Planned Area, as determined by and to the satisfaction of the Director of Public Works.
  2) Sidewalk
     - The Developer shall, at no expense to the City, construct a 1.5m wide by 100mm thick Portland cement concrete sidewalk on the standard alignment, 0.3m off of the property line, on the south side of Mager Drive East from the west limit of the Planned Area to St. Anne's Road, as determined by and to the satisfaction of the Director of Public Works.
- The current site plan does not take into account the 3.0m x 3.0m corner cut required as part of Public Works comments regarding Plan Considerations. This corner cut is required to help facilitate the turning radii for garbage collection vehicles.

COMPATIBILITY WITH EXISTING NEIGHBOURHOOD AND SURROUNDING USES

- The subject site is located within 200 feet of two (2) Regional Mixed Use Corridors (St. Anne's Road and St. Mary's Road), which are characterized by multi-family, single family and commercial land uses. The zoning districts along Mager Drive East are all RMF-S. Though, this project would be the first multi-family development on the street, it is certainly the intent that this street be developed over time to higher density uses, such as this project.
- Consequently, this proposed multi-family development largely aligns with the policy direction of redevelopment within our Mature Communities as identified above. Further, this type of development fits the current context of what is permitted on Mager Drive East and fits in with the larger vision of the type of development that will occur along our Regional Mixed Use Corridors.

RECOMMENDATION
The Urban Planning Division recommends approval for the following reasons:

- The proposed development is consistent with the policies of the Complete Communities Direction Strategy; and
- The proposed development is compatible with the existing neighbourhood and surrounding land uses.
