4. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

Council approval is required for a by-law to reactivate deferred local improvement taxes.

EXECUTIVE SUMMARY

This Administrative Report provides information regarding the reactivation of a deferred watermain local improvement for the property at 2125 Inkster Boulevard.

The watermain local improvement was first charged to the subject property in 1991 pursuant to By-law No. 5619/91 and was the subsequent deferral was granted in 1994 by By-law No.

6438/94. The owners of the subject property have approached the City of Winnipeg to pay out the local improvement and have the Notice of Deferral discharged from the title.

As the payment has been received for the payment of the local improvement, the Public Service recommends reactivating the local improvement and discharging the Notice of Deferral from the title.

IMPLICATIONS OF THE RECOMMENDATIONS

There is no financial impact to the City of Winnipeg as the deferment for the local improvement for this property was originally recorded as a receivable on the balance sheet.

HISTORY

In 1991, Council passed a By-law for the imposition of local improvement taxes for local improvements in Inkster Boulevard from the east line of Groverdale Avenue to King Edward Street for the property located at 2125 Inkster Boulevard as follows:

By-law No.	Improvement Type	Term	Annual Levy
5619/91	Watermain	1991-2000	$4,325.56

The above local improvement taxes were deferred on June 22, 1994 by By-law No. 6438/94 for 2125 Inkster Boulevard (see Attachment 1 for Notice of Deferment).

Deferment By-law No. 6438/94 (see Attachment 2 for Deferment By-law) states the circumstances under which the deferment will cease. In this case the property owners have approached the City of Winnipeg and wish to pay out the deferred local improvement.

Accordingly the deferment should cease and the property owner be required to pay the local improvement taxes at the cash cost or amortized cost at the prevailing City rates as at February 18, 2016, including interest at the City's current capital borrowing rate.

Reactivation of the local improvement taxes is necessary in order to allow the cost of the Local Improvements to be added to the tax roll and the Notice of Deferment currently registered against the subject property be discharged. Payment for these local improvement taxes in the form of a personal cheque has been received from Dr. Suresh Reddy and Mrs. Maria Reddy on behalf of the registered owner of the subject property. The payment, received February 18, 2016, covers the full cash cost of the local improvement in the amount of $65,853.30, which is calculated at the prevailing cash cost rate as at February 18, 2016 of $97.00 per frontage foot multiplied by the actual frontage of the subject property, 678.9 feet ($97 x 678.9 = $65,853.30). (see Attachment 3 for LI Cash Cost Statement)

Upon Council approval of the Reactivation By-law, the local improvement taxes will be imposed on the subject property. Furthermore, as payment of the local improvement taxes on the

subject property has been received, such payment will be processed by the City and a discharge of the Notice of Deferment will be provided to the property owner. Once this discharge has been registered with the Winnipeg Land Titles Office, the Notice of Deferment will then be cancelled on the title of the property.
