1. This is a project which is supported by all three levels of government.
2. The community has been extensively canvassed and there have been consultations in terms of the entire project.
3. The record of Park Manor is exemplary in terms of the service they have provided to the community over the past five decades looking after seniors.
4. It is crucial that this project go forward as it's something that the community knows there is a demand for as personal care home beds are in short supply across the city.
5. Having this in the community is important to families.
6. There is a joint use agreement in place for the parking lot so Park Manor staff can use it during business hours and the public can use it to access park amenities after hours.
7. It is important that the municipality continues to be a part of and support Park Manor.

REASON FOR THE REPORT

This report provides information, and makes recommendations, regarding the subject application (DASZ 22/2016) in terms of compliance with the City's development plan – *OurWinnipeg* – and *Complete Communities*, which is one of four Direction Strategies supporting *OurWinnipeg.*

This report is available to the public and is for consideration by Council and committees of Council.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, and the associated conditional use and variance applications are approved, the process of creating the proposed "C2" lot and obtaining permits to develop a surface parking area on it can proceed.

HISTORY

On May 14, 2015, the City of Winnipeg was registered as the owner of the subject site. The previous owner was the Province of Manitoba.

On July 15, 2015, Council declared a portion of Victoria Jason Park "surplus to the needs of the City." The minutes of the applicable portion of that meeting are as follows:

Council concurred in the recommendation of the Standing Policy Committee on Property and
Development and adopted the following:

1. *That the "Subject Property" as identified on the attached Misc. Plan 13998/7* [shown in Figure A] *be declared surplus to the needs of the City.*
2. *That subject to the approval of recommendation 1., the authority be delegated to the Director of the Planning, Property and Development Department to finalize the terms and conditions of sale of an area of approximately 2,200 m^2 within the "Subject*

Property" to Park Manor Care Inc., or nominee, at fair market value to be determined by an independent appraisal, and upon such additional terms and conditions that the Director of Legal Services consider necessary to protect the interests of the City. The terms and conditions shall include, but not be limited to, the following:

A. That the proceeds of sale be allocated to the Land Dedication Reserve Fund for upgrades to the Victoria Jason Park;
B. That the proponent receives approval to subdivide and rezone the subject property;
C. That the proponent receives approval for any conditional use and variance applications;
D. That the proponent enter into an agreement with the City for the joint use of the subject property for the general public's use of the parking lot on evenings and weekends;
E. That the proponent confirms substantial completion of the Park Manor Care Home expansion project within two years of the issuance of building permits;

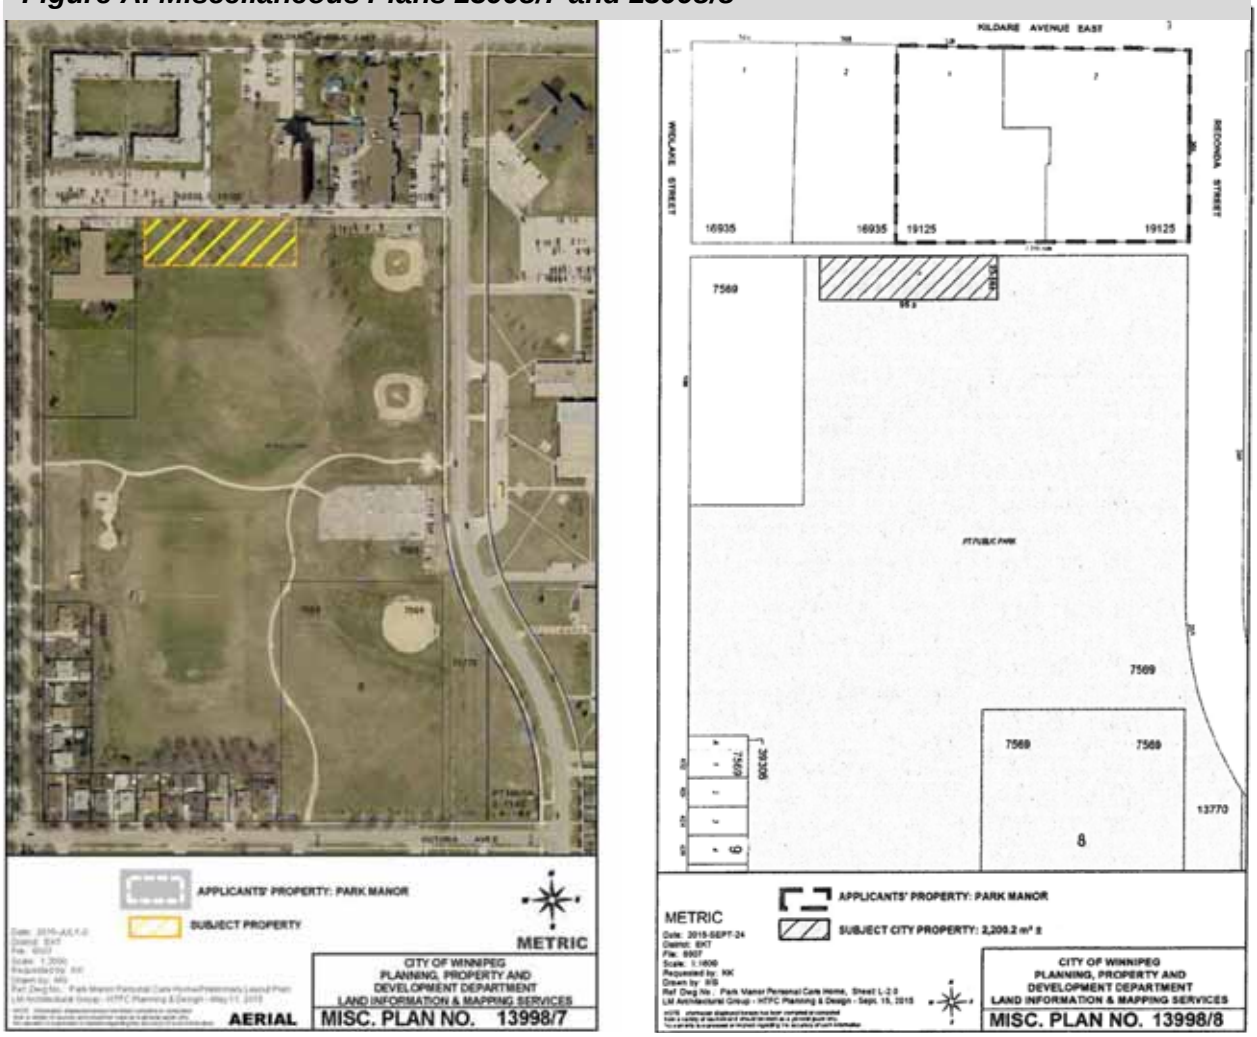

3. That final site plans are subject to the approval of the Director of Planning Property and Development subject to:

A. That the soccer area not be impacted and to ensure provision for a 50x100m field with a 5m off set on all sides to retain the run-off area;
B. That any removal of existing trees from the subject property be approved by the City Forester and compensation for the value of the trees will be at fair market value payable to the City by the Purchaser in accordance with the City's Tree Removal Guidelines;
C. That a perimeter fence be installed around the subject property by the proponent;

4. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

On February 3, 2016, the Board of Adjustment approved Variance Application DAV 133948/2014C, which accommodates a proposed plan of subdivision and, in part, the associated expansion of the Park Manor Personal Care Home (which is a type of assisted living facility under Zoning By-law 200/2006). The site of the personal care home is immediately north of the public lane that is the northern limit of Victoria Jason Park.

Figure A: Miscellaneous Plans 13998/7 and 13998/8

The approved variances do not include a variance to the insufficient parking supply that would be on the site of the expansion because a parking management plan (PMP) has been submitted instead. The PMP (File 15-177630) states that a surface parking area for staff of Park Manor Care Home would be built in a future lot to be created from part of Victoria Jason Park. The PMP requires the approval of the Director of Planning, Property and Development.

On May 2, 2016, the City of Winnipeg provided Park Manor Care Inc. with a letter authorizing them to be the applicant of all development applications, including the application that is the subject of this report (DASZ 22/2016), needed to permit the establishment of a non-accessory surface parking area on what is presently part of Victoria Jason Park and identified on Misc. Plan 13998/8 (shown in Figure A). As previously stated, the parking area would primarily be for the Park Manor Personal Care Home, after it is expanded.

The creation and development of this future lot into a surface parking area are the focus of this report.

CONSULTATION

The City's Administrative Coordinating Group was consulted in the preparation of this report.

SITE DESCRIPTION

The subject site, identified on Figures 1, 2 and 3, is:

- abutting Widlake and Redonda streets, Victoria Avenue East and a public lane (forming its northern limit);
- in the Kildare-Redonda Neighbourhood and the Transcona Ward;
- approximately 19 acres;

Figure 1: 2014 Aerial Photography **North↑**

- the largest of three areas of land comprising Victoria Jason Park;
- containing, near its northern limit, several medium to large size trees, a baseball field, a soccer pitch and accessory parking;
- in a “PR2” Parks and Recreation 2 (Community) District of Zoning By-law 200/2006; and
- in a Recent Communities Area, which is a type of Areas of Stability policy area of *OurWinnipeg* and *Complete Communities*.

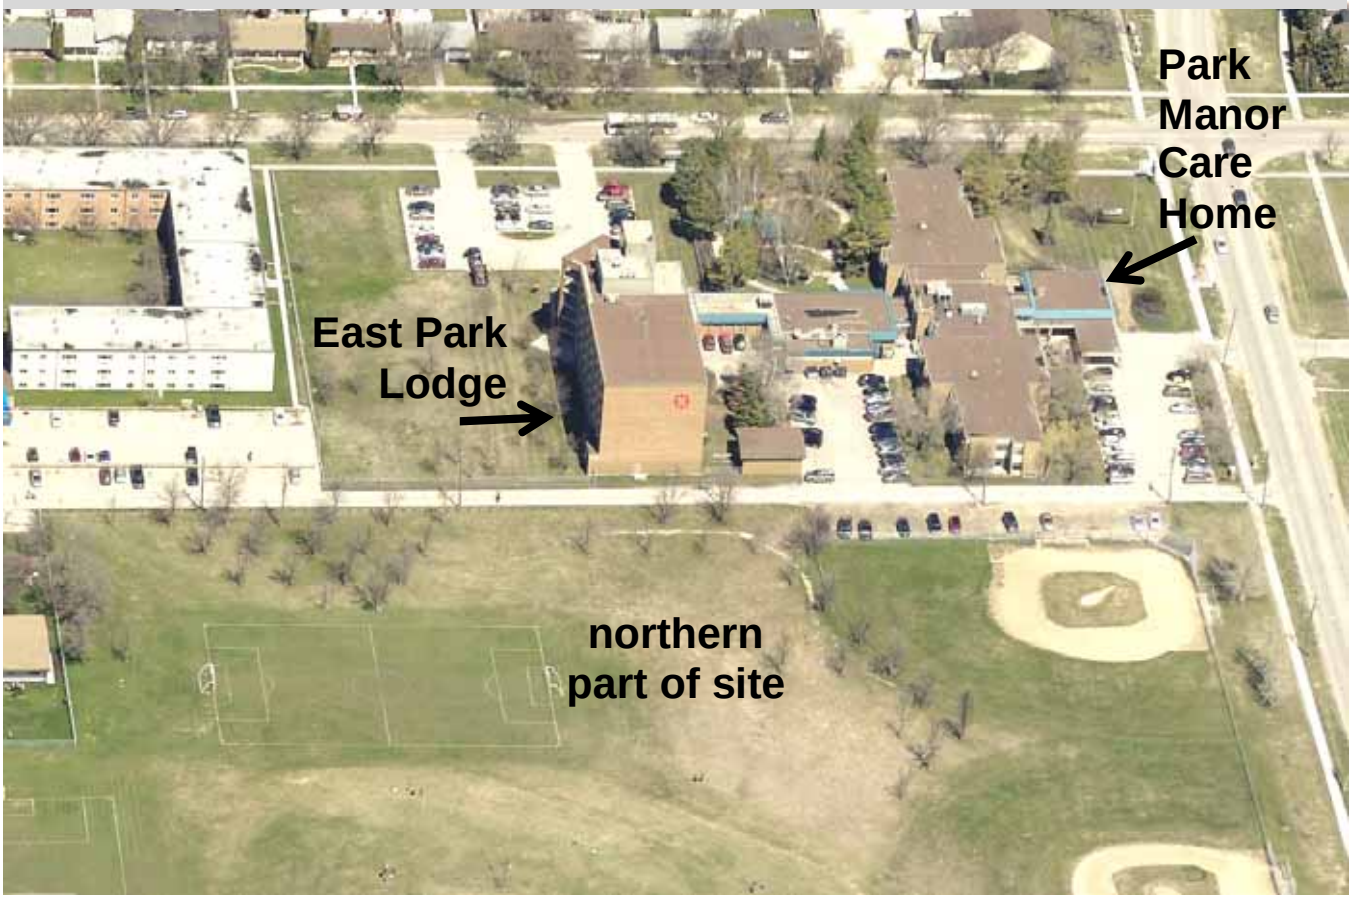

SITE CONTEXT

West and south of the site, on both sides of Widlake Street and Victoria Avenue East, are residential uses.

East of the site is Redonda Street and east of that are a school and school division offices.

North of the site is a public lane. The roadway in the public lane is concrete. North of the public lane are multi-family dwellings (MFDs) and a personal care home (Park Manor Care Home). One of the MFDs is East Park Lodge. East Park Lodge is connected to the Park Manor Care Home. The undeveloped area west of East Park Lodge (and shown in Figure 2) is where the bulk of the expansion to Park Manor Care Home is to be built.

Figure 2: Looking North at Northern Part of the Site and Park Manor Care Home and East Park Lodge, Pictometry of 2014 Aerial Photography

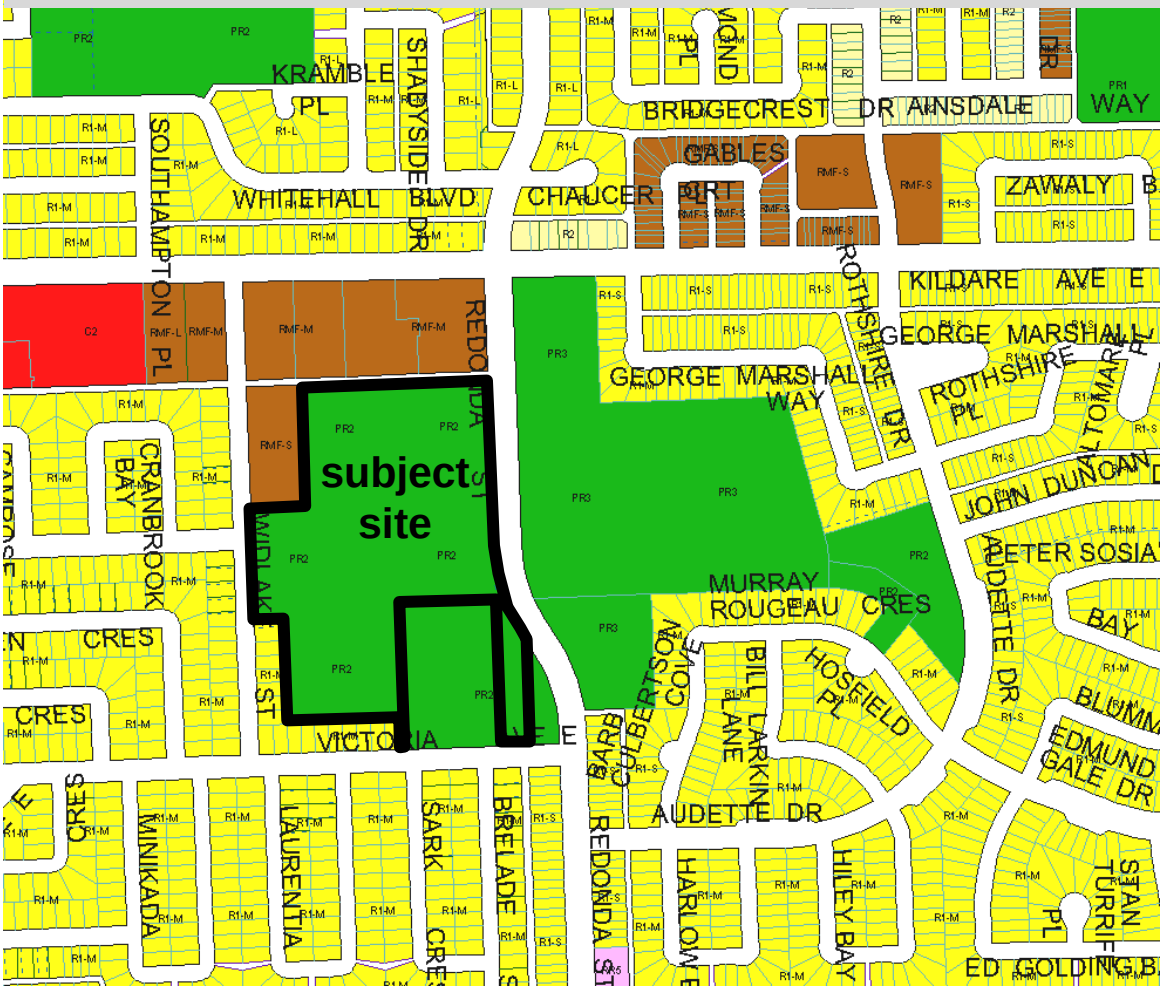

DESCRIPTION OF THE PROPOSED SUBDIVISION AND REZONING

As shown on Figure 1 and Schedule "A" to this report, the proposal is to create a lot from a portion of a public park (Victoria Jason Park). Plans submitted by the applicant show that the proposed lot would be approximately 27 feet east of 500 Widlake, 312 feet wide (measured parallel to the public lane) and 76 feet deep. The proposed lot would be zoned to "C2" because that zoning district is the most restrictive of the zoning districts in which surface parking (as a principal use) is allowed. The remainder of the park would remain zoned "PR2."

However, Table 1, which shows the principal uses allowed in the "C2" District, shows many allowed uses that would not be appropriate on the proposed lot. Therefore, a zoning agreement, limiting the allowed principal-uses, is warranted.

Conditional use approval of the proposed surface parking, a use variance and a landscaping variance are also required. They are described in the reports regarding DCU 116545/2016D and DAV 118174/2016D.

Figure 3: Existing Zoning and Lot Lines **North↑**

DESCRIPTION OF THE PROPOSED DEVELOPMENT

Before the site can be developed, approximately 14 trees would have to be removed. After their removal, a non-accessory surface parking area would be developed on the proposed "C2" lot. This lot would be paved and would contain 71 parking spaces. These spaces would be primarily for staff of Park Manor Personal Care Home. The submitted plans show that six Hackberry trees and 43 Compact Highbush Cranberry shrubs would be planted in the proposed lot. These plans also show that three Hackberry trees would be planted just west of the proposed lot and three just east of the proposed lot.

In addition, and as previously stated, the minutes of City Council's July 15, 2015, meeting state, in-part:

- *That the proponent enter into an agreement with the City for the joint use of the subject property for the general public's use of the parking lot* [16 of the 71 parking spaces] *on evenings and weekends;*
- *That final site plans are subject to the approval of the Director of Planning Property and Development subject to:*
  - *That the soccer area not be impacted and to ensure provision for a 50x100m field with a 5m off set on all sides to retain the run-off area;*
  - *That any removal of existing trees from the subject property be approved by the City Forester and compensation for the value of the trees will be at fair market value payable to the City by the Purchaser in accordance with the City's Tree Removal Guidelines;*
  - *That a perimeter fence be installed around the subject property by the proponent* (so that baseballs are less likely to enter the lot).

ANALYSIS AND ISSUES

OurWinnipeg and *Complete Communities*

OurWinnipeg is the City's development plan and *Complete Communities* is a "Direction Strategy" of *OurWinnipeg* that provides additional directions and policies on land use and development in the city.

The Key Direction of *OurWinnipeg* and *Complete Communities* that applies to the Areas of Stability policy area states: "Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population."

Given that the proposed parking area is necessary to facilitate the expansion of the Park Manor Care Home by 120 beds and that the care home expansion would provide more new rooms for personal care home residents, the expansion of the care home complies with the aforementioned Key Direction. Therefore, the proposed subdivision, rezoning and development also comply with the Key Direction.

The first and eighth policies of Direction 1 of Section 04 of *Complete Communities* state, respectively:

> *Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complementary to the existing scale, character and built form.*
>
> *In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure…*

The proposed subdivision plan, rezoning and development are consistent with these policies because:

- only approximately 14 trees would have to be removed;
- no sports or recreation facilities would have to be removed; and
- the size, approximately 23,683 square feet, and location of the proposed lot, are consistent with the size and location of the area Council declared surplus on July 15, 2015.

In addition, because the proposal includes making 16 parking spaces available to park users during certain periods of time, it complies with the fourth policy of Direction 1 of Section 07 of *Complete Communities*, which states: "*To best serve the population, parks must be accessible, available and inclusive…"*

REASONS FOR THE RECOMMENDATIONS

The Urban Planning Division recommends approval because, subject to the recommended zoning agreement and Council's conditions with-respect-to their declaration that the land is surplus to the City's need (as well as the clauses in the offer to purchase), the proposed plan of subdivision, rezoning and development are consistent with *OurWinnipeg* and *Complete Communities*.
