REASON FOR THE REPORT

Council approval is required to enter into the Agreement with the Canadian Centre for Child Protection Inc. (the Centre)

IMPLICATIONS OF THE RECOMMENDATIONS

The Agreement will formalize the arrangement for use of significant intellectual property from the Centre by the Winnipeg Police Service. There is no cost attached to the arrangement.

HISTORY

The SES is tasked with educating school aged children on a variety of topics. As a partner agency in the effort to educate children, the Centre provides consistent, age-appropriate safety information to Canadian children.

The WPS is able to access cutting edge presentations compiled by researchers and educators who are fully versed in the current mindset of youth while they are granted a voice in the schools of the city. The research based approach undertaken by the Centre is substantially more in depth and in essence is quicker to detect changes in online behavior and trends relating to safety. In terms of intervention and integration into schools, the Centre is limited to a fraction of the exposure that the SES enjoys.

The Centre developed a set of three safety presentations designed to be delivered in school environments. Each of these presentations is tailored toward a specific demographic, while maintaining a broader overview of the generalized topic of online safety. The Centre's presentations will only be used for children who are in the grades indicated on the presentation.

In order to facilitate the most impactful presentation, the SES needs the assistance and collaboration from community partners, including the Centre. The presentations will be used by WPS officers for display in school environments for the sole purpose of educating children about online safety.

It is understood that all or any part of the presentations may be replaced by the Centre from time-to-time. A summary of any such changes will be provided for the WPS at or before the time a presentation is replaced to ensure the WPS is aware of the reason for the changes. Changes made to protect or comply with intellectual property requirements shall be mandatory. All other changes shall be optional. The WPS will not directly modify the content in any manner; however, the request may be made to the Centre, which has the option to comply.

The Agreement is effective from the date identified on the first page of the Agreement until the end of the first school year (June 30) during which the Agreement is effective. The Agreement automatically renews for successive one-year terms unless one party notifies the other of an intention to not renew by June 1 of a calendar year.
