RECOMMENDATION: Approval

CRITERIA FOR APPROVAL
Pursuant to Section 247(3) of the City of Winnipeg Charter, a Conditional Use application can be approved for posters if the proposed development:
(a) is consistent with Plan Winnipeg and any applicable secondary plan;
(b) does not create a substantial adverse effect on the amenities, use, safety and

convenience of the adjoining property and adjacent area, including an area separated from the property by a street or waterway; and

(d) is compatible with the area in which the property to be affected is situated.

SITE DESCRIPTION

The subject property is located on Stafford Street, in the Ebby-Wentworth neighbourhood of the Fort Rouge - East Fort Garry ward

The site is Mature Communities under the Complete Communities Direction Strategy. The property is zoned “R1-M” Residential Single-Family District.

SURROUNDING LAND USE AND ZONING

North: Residences zoned “R1-M” Residential Single-Family District
South: Commercial use zoned “C2” Commercial District
East: Residences zoned “R1-M” Residential Single-Family District
West: Stafford Street, then residences zoned “R1-M” Residential Single-Family District

DESCRIPTION OF THE PROPOSED DEVELOPMENT

The applicant seeks approval to add two dwelling units into the basement of an existing 26 unit multi-family residential building.

The space for two additional suites has been freed up by reconfiguring the laundry room and some storage areas.

REASON FOR APPLICATION

The existing building is non-conforming in the ‘R1-M” Residential Single-Family District. Given that they are adding additional suites, they are now required to bring the zoning of the property into compliance with the Winnipeg Zoning By-law. Due to the number of units they will have (28 units), a rezoning to the “RMF-L” Residential Multi-Family District is required.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

The subject property is located in Mature Communities on a street that has the characteristics of a community mixed use corridor (Stafford Street). A key policy for mixed use corridors is as follows:

Promote the enhancement of existing community mixed use corridors through moderate intensification.

The proposed addition of two suites can be characterized as moderate intensification.

NEIGHBOURHOOD COMPATIBILITY

The proposed increase in density is minor in nature and is not changing the footprint or height of the existing building.

CONDITIONS

The Planning and Land Use Division is recommending several conditions to ensure that any future development is sensitive to the scale of existing buildings in the area.

These conditions restrict height to 45 feet (4 stories) and require plan approval prior to any redevelopment of the site with a new building or structure.

SUMMARY
The Urban Planning Division supports the rezoning and subdivision for the following key reasons:

- Stafford Street has the characteristics of a community mixed use corridor. Policies for community mixed use corridors in Complete Communities include encouraging moderate intensification.
- The proposed increase in density is minor in nature and is not changing the footprint or height of the existing building.

RECOMMENDATIONS
The Urban Planning Division recommends that the application be approved and that the subject property be rezoned to a “RMF-L” – Residential Multi-Family District
