RECOMMENDATION:	Approval with Conditions and Modifications

SITE DESCRIPTION

The subject site, identified on Figures 1, 2 and 3 of this attachment, is:

- at 567 and 573 Talbot Avenue and is east of Gateway Road;
- in the Talbot-Grey Neighbourhood and the Elmwood East-Kildonan Ward;
- approximately 15,400 square feet;
- two parcels – the westerly one comprised of parts of Lot 1 and Lot 49, Plan 756 WLTO and the easterly one comprised of parts of Lots 46 to 48, Plan 756 WLTO;

- encompassing a single-family dwelling (SFD) and a garage on the westerly parcel and a vacant industrial building on the easterly parcel;
- in an “R1-S” Residential Single-Family Small District of Zoning By-law 200/2006; and
- in a Mature Communities policy area, which is a type of Areas of Stability policy area of *OurWinnipeg* and *Complete Communities* as well as a Neighbourhood Mixed-Use Corridor of *Complete Communities.*

It is of note that the existing SFD has a west side-yard of 9.6 feet, a front yard of 9.6 feet (measured from the enclosed porch), an east side yard of 32.5 feet and windows on the east exterior wall.

SITE CONTEXT

A public lane is immediately north of the site. Single-and two-family dwellings in an “R1-S” Zoning District are north of that public lane.

Figure 1: 2016 Assessed Land Areas & 2016 Aerial Photography **North↑**

Along the south side of Talbot Avenue is an undeveloped parcel in an “RMF-S” Residential Multi-Family Small District. Also along the south side of Talbot are single- and two-family dwellings ranging from one to 1½ storeys, and a place of worship, all in an “R1-S” District;

Immediately east of the site is a property in an “R1-S” District that contains a two-storey two-family dwelling which is over 20 feet from the front property line and nearly 30 feet from the rear property line. Further east is a property containing a convenience store and a dwelling in an “R1-S” District.

Immediately west of the site is a property in an “R1-S” District that contains an 11 unit multi-family dwelling, a portion of which is two-storeys. Further west are Gateway Road and Elmwood Road and, between them, a multi-use path (the Northeast Pioneers Greenway) that connects to a cycling route to the downtown.

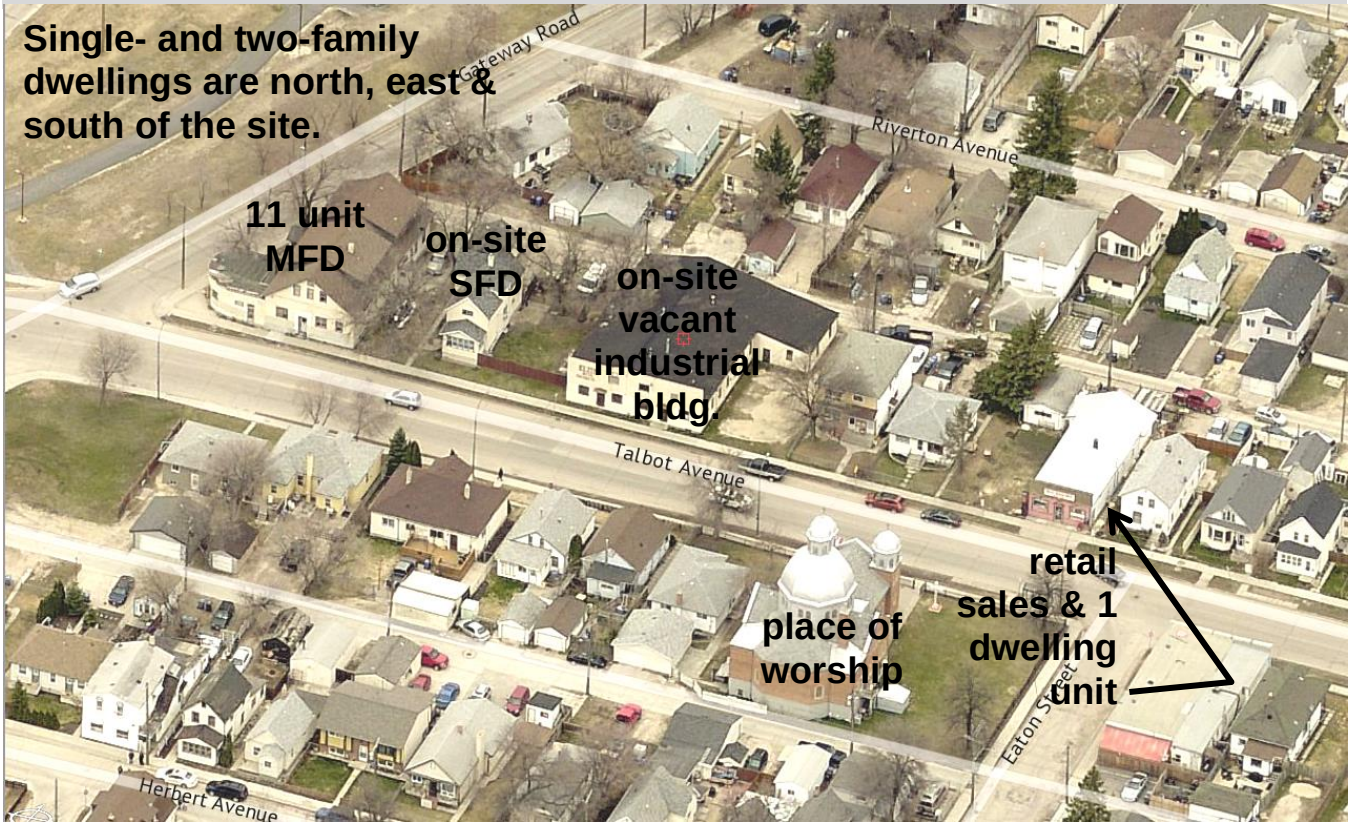

Public transit stops are on Talbot Avenue at Eaton Street (east of the site by approximately 150 feet).

DESCRIPTION OF THE PROPOSED SUBDIVISION AND REZONING AND ASSOCIATED DEVELOPMENT

As stated in the letter of intent and shown on Schedule “A” to this report, the proposal includes:

- retaining the single-family dwelling and the garage but reducing the parcel on which they are located to part of Lot 1, Plan 756 WLTO, which is 33.3 feet wide;
- creating five identical “R2” lots fronting Talbot, from the remainder of the site – parts of Lots 46 to 49, Plan 756 WLTO; and

Figure 2: Pictometry derived from 2016 Aerial Photography, Looking North

- developing, on each proposed “R2” lot, a multi-family dwelling having one dwelling unit in the basement and two suites above grade, as well three accessory parking spaces;

The proposed plan of subdivision and rezoning that are the subject of this report must be approved to accommodate the proposed multi-family dwellings.

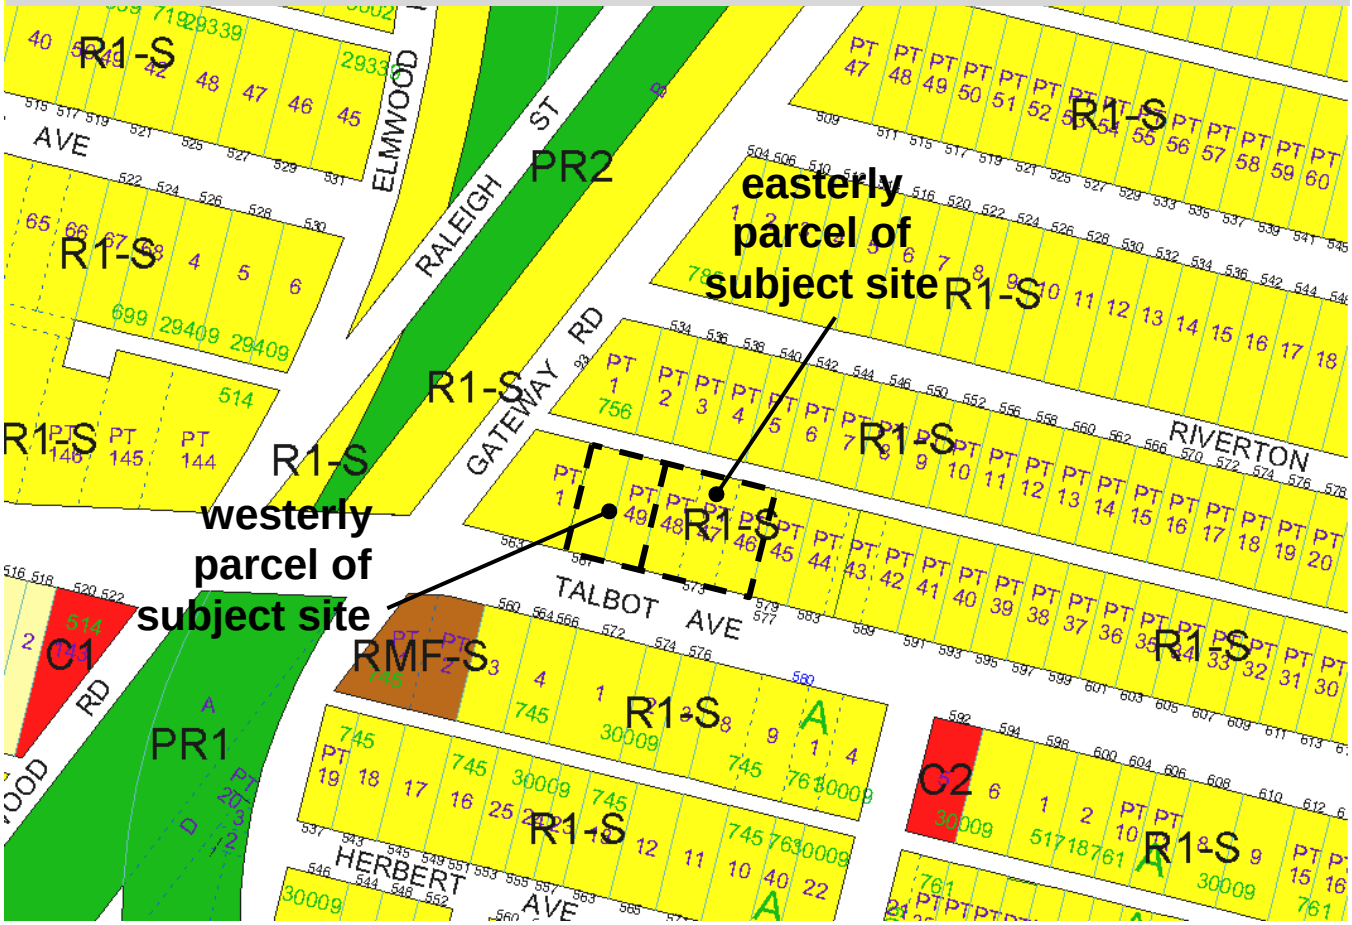

Regarding the parcel proposed to encompass the existing single-family dwelling and the garage, the east side yard would be only 0.9 feet and the eavestrough on the existing dwelling would project 0.05 feet into the proposed “R2” lot that would be to the immediate east.

Conditional use approval is also required because multi-family dwellings are a conditional use in the “R2” District. The file number of this application is DCU 16-104726D. An administrative report on this application has been submitted.

Variances must also be approved to accommodate some of the proposed yards, the proposed lot widths and lot areas, the proposed accessory parking and the proposed residential density. The file number of this application is DAV 16-104731D. An administrative report on this application has also been submitted.

ANALYSIS AND ISSUES

Figure 3: Existing Zoning and Registered Plans **North↑**

OurWinnipeg and Complete Communities

OurWinnipeg is the City's development plan and *Complete Communities* is a "Direction Strategy" of *OurWinnipeg* that provides additional directions and policies on land use and development in the city.

The Key Direction of *OurWinnipeg* and *Complete Communities* that applies to the Areas of Stability policy area states: "Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population."

The proposal generally complies with this Key Direction and with *OurWinnipeg* in general.

The first and third policies of Direction 1 of Section 04 of *Complete Communities* state, respectively:

> *Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complementary to the existing scale, character and built form.*
>
> *Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.*

In addition, Direction 1 of Section 03-2h of *Complete Communities* states "*Promote orderly, minor intensification of neighbourhood mixed use corridors that is in character with the surrounding* neighbourhood."

Regarding the aforementioned policies and Direction 1 of Section 03-2h, five "R2" lots and 15 dwelling units would be somewhat more than a moderate change to the neighbourhood. If the number of "R2" lots and the number of three-unit multi-family dwellings are reduced by one, the proposal:

- would be more of a moderate change and more in character with the neighbourhood;
- would, therefore, comply with the aforementioned policies and Direction 1 of Section 03-2h; and
- would comply with *Complete Communities* in general.

Also regarding the aforementioned policies and Direction 1 of Section 03-2h, the proposed rezoning to "R2," complies with these policies and Direction 1 of Section 03-2h, and with *Complete Communities* in general, because the regulations of the "R2" District are quite similar to those of the "R1-S" District A comparison of the regulations shows that:

- "live-work" dwellings and multi-family dwellings are conditional in "R2" but "not permitted" in "R1-S";
- two-family dwellings are permitted in "R2" but "not permitted" in "R1-S";
- the Special Boundary Conditions and the Front Yard Building Alignments apply in both zoning districts;
- the maximum building height is the same – 35 feet; and
- the minimum interior side yard requirements are similar – four feet in "R2" and three feet, or two feet and four feet, in "R1-S."

Regarding the proposed parcel to encompass the existing SFD and the garage, the proposed east side-yard depth – 0.9 feet – is too shallow to provide sufficient access to that side of the building exterior for maintenance. In addition, it is of note that building code requirements regarding the east exterior wall's window and door openings and exterior cladding and its proximity to the proposed east property line do not apply because that property line is existing. If they did apply, the window openings would have to be closed and the cladding would have to meet a specific fire rating requirement.

However, the existing single-family dwelling and the parcel that would encompass it (as well as the existing garage) would be better suited to the community context, and would have to meet the aforementioned building code requirements, if the proposed parcel is a new lot with a width of 33.4 feet. At this width, the east side-yard would be two feet deep, which is adequate to provide access to that side of the SFD.

Schedule “B” of File DASZ 5/2016 shows the proposal modified in accordance with this analysis.

REASONS FOR THE RECOMMENDATIONS

The Urban Planning Division recommends approval of Schedule “B” of File DASZ 5/2016 because the modified subdivision and rezoning, and the proposed development of each “R2” lot comply with *OurWinnipeg* and *Complete Communities.*
