RECOMMENDATION

That the request to replace the condition that the Developer provides and landscape a public reserve with the following new condition be approved:

Delete and replace Clause 2A.i as follows:

The Developer shall provide a cash payment, prior to the approval of the development bylaw by council, representing 10% of the appraised value of the development application as determined by the Director of Planning, Property and Development.

REASON FOR THE REPORT

Council authority is required to amend Council's instructions.

EXECUTIVE SUMMARY

The Developer is seeking to amend council instructions to allow the Developer to pay cash for land dedication in lieu of providing and landscaping a public reserve site in the Development.

IMPLICATIONS OF THE RECOMMENDATIONS

Approval of the recommendations would allow the Developer to finalize the Subdivision Plan and associated agreements.

HISTORY/DISCUSSION

On July 13, 2016 Council approved the subdivision and rezoning application for DASZ 39/2015 pertaining to land located at the Northwest intersection of King Edward Street and Inkster Boulevard as shown in Appendix “A”.

One of the conditions of approval was for the Developer to provide for and landscape a public reserve site stated as follows:

“The Developer shall, in accordance with the Development Agreement parameters, dedicate and landscape a public reserve site at a location and configuration to be approved by the Lord Selkirk-West Kildonan Community Committee and all to the satisfaction of the Director of Property and Planning and the Director of Public Works.”

After an extensive review of the site, the Developer has not been able to provide a park site that is suitable to all parties and therefore would like to provide the City with a cash in lieu dedication. This would allow the City to find a more suitable park site off site.

The applicant, Richard Wintrup and Associates, on behalf of the Developer has requested to delete the clause to provide and build the public reserve with a new clause that would allow the Developer to pay to the City cash in lieu dedication:

The Developer shall provide a cash payment representing 10% of the appraised value of the Development application, as determined by the City and prior to the release of the subdivision mylars by the city.

The administration has reviewed this request and recommends approval subject to the Developer providing a cash payment prior to the approval of the applicable development/zoning bylaw by council.
