EXECUTIVE SUMMARY

The Open Government Policy intends to provide a framework for the Public Service to move towards being more open, transparent, and accountable.

The objectives set out in the Policy, as with the Policy itself, are not intended to be static, but rather they are anticipated to be organic in nature, as they will continue to be shaped by dialogue with both citizens and City departments. The principles and action items which are set out in the Policy are non-exhaustive, as new ideas and outcomes may, and should, develop over time

1. That Council approves the City of Winnipeg Open Government Policy (Appendix A) and direct the Public Service to report back annually on Open Government Policy implementation at the City of Winnipeg

2. That the proper officers at the City of Winnipeg be authorized to do all things necessary to implement the intent of the foregoing.

IMPLICATIONS OF THE RECOMMENDATIONS

The Public Service will begin working on implementing the Open Government Policy across all City departments, and will report back to Council annually on the implementation of the Policy and any new initiatives undertaken.

HISTORY / DISCUSSION

Over the past decade citizens have been passionate about informing themselves on local community issues and engaging in government policy. Direct access to information and openness and transparency at all levels of government is being demanded in order to empower citizens.

The City of Winnipeg has components of an open government framework but does not have an all-encompassing standardized policy that is implemented City-wide.

On March 20, 2013, Council adopted an Open Data Initiative which endorsed the principles of providing Open and Accessible Data that could be shared with citizens, businesses and other jurisdictions the greatest amount of data possible while respecting privacy and security concerns.

On June 25, 2014, Council adopted the "Open Government Initiative - Improvements to the Freedom of Information and Protection of Privacy Act Process" which directed the Winnipeg Public Service to implement a new process for Freedom of Information and Protection of Privacy Act (FIPPA) requests. This process would focus on the concepts of openness and transparency in providing government data, while ensuring privacy and security of data for citizens and businesses, in keeping with the Open Data Initiatives adopted by Council.

On September 16, 2015, Executive Policy Committee requested that the Public Service conduct a review of all city data sharing and identify opportunities to apply machine readable format along with a review of security and privacy considerations and report back within 90 days.

On October 26, 2015 the City Clerk's office prepared a report outlining leading open government initiatives in other jurisdictions and broad recommendations on next steps for the City of Winnipeg in implementing open government.

On November 18, 2015 the Chief Administrative Officer was directed to implement an open government policy across all Departments in the City of Winnipeg, and to develop an Action Plan for Council's endorsement within 6 months.

On July 13, 2016, Council approved the Open Government Action Plan, and directed the Winnipeg Public Service to report back on an Open Government Policy by February 2017.
