EXECUTIVE SUMMARY

The Winnipeg Public Service recommends that Council enact an amendment as a correction to the Winnipeg Zoning By-law. The error relates to the indication of minimum and maximum dimensional standards for “RMF” and “RMU” zoning districts. The issue is primarily one of formatting, and no changes to entitlements would result from either the error or its correction.

RECOMMENDATIONS

1) That Council enact an amendment to the Winnipeg Zoning By-law No. 200/2006 (draft amending by-law is attached as Attachment “A”) to correct an error in dimensional standards Table 5-4.

2) That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

This report addresses the correction of a formatting error created in the incorporation of the Transit-Oriented Development Zoning District via DAZ 214/2016 under amending By-law No. 135/2016.

A correction to the Winnipeg Zoning By-law requires final approval by Council, but is not subject to a public hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations are concurred in, the revised dimensional standards Table 5-4 from Attachment "A" will be incorporated into the Winnipeg Zoning By-law, which will properly reflect the dimensional standards for residential mixed use and multi-family zoning districts as they were prior to the enactment of amending By-law No. 135/2016.

HISTORY/DISCUSSION

December 14, 2016, Council enacted By-law No. 135/2016, which amended the Winnipeg Zoning By-law to introduce the Transit-Oriented Development (TOD) Zoning District. Upon consolidation of the changes and use of the updated Winnipeg Zoning By-law, a formatting error was identified.

Because TOD emphasizes buildings up to the sidewalk with minimal setbacks, the dimensional standards table needed to be reformatted to include both minimum yard setbacks and maximum yard setbacks. Similarly, minimum and maximum building heights were incorporated for TOD. In two of the columns the minimum and maximum values were reversed. In another column, only one value is shown. See image below.

As an error, the formatting issue is not deemed to impact entitlements. Since File No. DAZ 214/2016 did not advertise changes to "RMF" and "RMU" zoning standards, it is not possible to incorporate changes to those standards.
