REASON FOR THE REPORT:

In accordance with City Policy, properties acquired or used for a civic purpose and that are now to be sold must be declared surplus by Council. Also, the Standing Policy Committee on Property and Development shall finalize all sales, including terms and conditions, for which the Director of the Planning, Property and Development Department has no authority. By this Report, the Department is seeking the approval of the Committee to the proposed terms and conditions of sale.

HISTORY:

The "Subject City Properties" are identified as Parcels A and B on the attached Misc. Plan No. 11369/1.

Prior to 1987 the former Works and Operations Department had attempted on several occasions to have the said property opened as a public lane in order to allow the properties fronting on Watt Street legal access to the rear of their holdings. These attempts were unsuccessful.

In 1987, the then owner of 445 Watt Street applied to purchase the subject City property but the Works and Operations Department objected as there was still an intent to open the property as a public lane. As an alternative, it was suggested that the property be leased to the adjoining owners. The then owners of 447 and 451 Watt Street were agreeable and entered into lease agreements with the City for "landscaping and maintenance purposes" and continued to do so for several years. These leases expired in 1992. The owner of 445 Watt Street was not interested in a lease.

Pursuant to a request from the current owner of 451 Watt Street, Grace Huynh, the Public Works Department reviewed its requirements and has withdrawn its objections to a sale, subject to the lands being consolidated with the adjoining holdings and access to the property being along the frontage of "Parcel A" on Washington Avenue.

The owner of 445 Watt Street was contacted. He advised that he has access to his property directly from the east/west public lane to the south, and, that he has sufficient parking on his own property. This owner advised that he would only be interested in the City's property if he could build upon it. It is not possible to build on "Parcel B" as the current owner of 447 Watt Street, Andrew Arumugam, would require a right-of-way over the property for his access purposes. Consequently the only solution to the disposition of the property was to negotiate a sale of the subject city properties to only Mrs. Huynh (451 Watt Street) and to Mr. Arumugam (447 Watt Street). These two owners each live in apartments over their respective businesses and have only street parking available to them.

Pursuant to discussions with the appropriate Departments, it was determined that, with the acquisition of that portion of the lane shown as Parcel B on the aforementioned sketch, Mr.

Arumugam (447 Watt Street) will now have sufficient area at the rear of his property to allow for parking. Mrs. Huynh (451 Watt Street) will have direct access to Washington Avenue and will forego any continuing right to cross Parcel "B".

The East Kildonan-Transcona Community Committee considered the matter at its meeting held on April 22, 2003 and had no objection to the proposed sale.

The Purchaser's have now returned completed Offers to Purchases, the particulars of which are, in brief, as follows:

Purpose: To allow for a parking area

Other terms and conditions of sale, as established by the Department, are as outlined on the attached offers.

The proposed sale prices are supported by an internal appraisal as conducted by the Department and reflects the need to retain easements in favour of the utilities, a subdivision, rezoning, fencing and paving. As such, the proposed terms and conditions of the sale are acceptable to the Planning, Property and Development Department.

DISCUSSION:

This is a particularly difficult property to deal with due to its narrow width and access and vehicle parking problems involving each of the adjoining Watt Street property owners.

The purchase of the property will necessitate a subdivision and rezoning. As well, a wood fence will have to be constructed along the east property line of Parcels A and B, abutting 508 Washington Avenue, and the parking areas will have to be paved. Both purchasers have agreed to share these costs on a proportionate basis.

The Department recommends that the subject property be declared surplus and that the proposed sales be approved for the following reasons:

a) the property is not developable on its own;
b) due to the size and shape, this property is not marketable to anyone other than the adjoining owners;
c) the property would be on the tax roll at the closing of the sale;
d) the applicants will be responsible for the subdivision and rezoning costs and the preparation of any necessary easement plans;
e) should this proposed sale not be approved there is, at this time, a high degree of probability that a purchaser other than the applicants will not be found. If an alternate purchaser is indeed found, there is no guarantee that a price can be negotiated that will exceed the price which is currently offered;
f) the sale would alleviate parking and access problems for the applicants;
g) the sale will eliminate the liability for the City associated with holding this parcel of vacant land.

The net sale proceeds of the subject sale will be credited to the Land Operating Reserve Account.

Based upon a projected closing date of June 30, 2004, $84.00 will be collected in 2004 in municipal realty taxes. Recoveries of $168.00 in years 2005 through 2008 represent municipal realty taxes the City will receive and assumes no increases in the assessed value of the subject property nor any change to the current Municipal Mill Rate. There are no other financial implications as all costs connected with the conveyance will be the responsibility of the Purchaser
