RECOMMENDATIONS

1. That Zoning Agreement Caveat 2297030/1 under File DASZ 14/97 dated Sept. 1, 1998 (By-law 7250/1998), be amended as follows:

   A. That Clause 3(a) be amended by removing the value "85" and replacing it with "71.9".

2. That the Director of Legal Services and City Solicitor be requested to prepare the necessary Amending Agreement to Zoning Agreement DASZ 14/97 (By-law 7250/1998) as approved in aforesaid Recommendation 1.

3. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

4. That the Director of Legal Services and City Solicitor be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.

REASON FOR THE REPORT

- The applicant is proposing to construct a 3-season sunroom onto the existing house in the rear yard of 15 Gelhorn Place. The property backs onto a stormwater retention lake.
- The rear wall of the proposed sunroom addition will be 71.9 feet away from the rear property line. The minimum rear yard setback for principal buildings is 85 feet under zoning agreement DASZ 14/97 due to the proximity to the stormwater retention lake.

- The applicant is applying to amend the above noted clause to accommodate the proposed sunroom addition.
- A zoning agreement amendment requires a Public Hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- The Report is being submitted for the Committee's consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

- If the recommendations of the Urban Planning Division are concurred in, a rear yard setback of 71.9 feet measured from the rear property line to the principal building will be permitted on the subject site.

HISTORY

DASZ 14/98

- DASZ 14/98 involved the subdivision and rezoning of lands in the neighbourhood of Mandalay West. The development required stormwater retention lakes. Some of the lots created through DASZ 14/98 abut the stormwater retention lakes. As a result, a condition of approval was recommended by the Water and Waste Department to ensure enough distance between proposed dwellings and the stormwater retention lake. The subject condition included in the zoning agreement relevant to the subject application (ZAA 14/98) is as follows:

  3. Minimum rear yards for all lots backing upon the proposed stormwater retention pondsshall be as follows:

     a) 85 feet to any principal dwelling,

     b) 67 feet to any accessory structure.

REPORT SUMMARY

- The applicant is proposing to construct a 3-season sunroom onto the existing house in the rear yard of 15 Gelhorn Place. The property backs onto a stormwater retention lake.
- The rear wall of the proposed sunroom will be 71.9 feet away from the rear property line. The minimum rear yard setback for principal buildings is 85 feet under zoning agreement DASZ 14/98 due to its proximity to the stormwater retention lake.
- The applicant is applying to amend zoning agreement DASZ 14/98 to permit a rear yard setback of 71.9 feet in order to accommodate the proposed sunroom addition.
- The Urban Planning Division recommends supporting this application because:
    - The primary reason for including the rear yard setbacks stipulated in the zoning agreement is to protect structures on lots abutting the retention lake from flooding and related damage in the event of a 100-year storm.
    - The City's Water and Waste Department was consulted about the subject application and have no objections to the development.
    - The sunroom addition will have virtually no impact on neighbouring views of the retention lake.

SITE DESCRIPTION

- The subject property is located on the south side of Gelhorn Place in the Mandalay West neighbourhood of the Old Kildonan Ward.
- The property is **15,643 square feet** in area.
- The subject property contains a bi-level, 1,548 square foot home with an attached garage that was built in 1999.
- The property backs onto a stormwater retention lake to the south.
- The site is within the Areas of Stability – Recent Communities Policy Area under the Complete Communities Direction Strategy. The property is zoned "R1-M" Residential Single-Family Medium.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to construct a sunroom that will be approximately 12’ x 17’ feet (about 200 sq ft) to the rear of the existing house at 15 Gelhorn Place.
- The rear wall of the sunroom addition will be 71.9 feet away from the rear property line. The minimum rear yard setback for principal buildings is 85 feet under zoning agreement DASZ 14/98 due to the proximity to the stormwater retention lake.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the *Complete Communities Direction Strategy* the proposed development is within the Areas of Stability – Recent Communities policy area. Key relevant policies guiding development within Areas of Stability include:

- Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.
- Support Complete Communities by ensuring diverse and high quality housing stock.
- In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.

ZONING

"R1-M" Residential Single-Family Medium District

- The R1-M district requires: a minimum lot width of 25 feet, a minimum lot area of 3,500 square feet, side yards of 4 feet, a front yard of 15 feet, and a rear yard of 25 feet. The maximum building height is 35 feet and the maximum lot coverage is 45 percent.

LAND USE BY-LAW

Zoning Agreement DASZ 14/98

Clause 3 reads as follows:

3. Minimum rear yards for all lots backing upon the proposed stormwater retention ponds shall be as follows:

   a) 85 feet to any principal dwelling,

   b) 67 feet to any accessory structure.

- The applicant is proposing to construct a sunroom addition that will be 71.9 feet away from the rear property line and therefore does not comply with the above Clause 3(a) of the zoning agreement.

RATIONALE FOR REAR YARD SETBACK IN THE ZONING AGREEMENT

- The rear yard setback incorporated into the zoning agreement is intended to accommodate fluctuations in the water level of the stormwater retention pond.
- The rear yard setback applied to principal and detached buildings, temporary buildings and swimming pools is intended to provide for an adequate amount of usable on-site rear yard space after the lake has reached its highest design level, which is a 100-year storm frequency. Further, the setback stipulated in the Zoning Agreement is also intended to guard against potential legal repercussions in the event of a 100-year storm.
- The City's Water and Waste Department was consulted about the subject application and have no objections thereto.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The sunroom addition will have virtually no impact on neighbouring views of the retention pond.

RECOMMENDATION

The Urban Planning Division recommends **approval** for the following reasons:

- The primary reason for including the rear yard setbacks stipulated in the zoning agreement is to protect structures on lots abutting the retention pond from flooding and related damage in the event of a 100-year storm.
- Water and Waste were consulted about the subject application and have no objections to the proposed development.
- The sunroom addition will have virtually no impact on neighbouring views of the retention pond.
