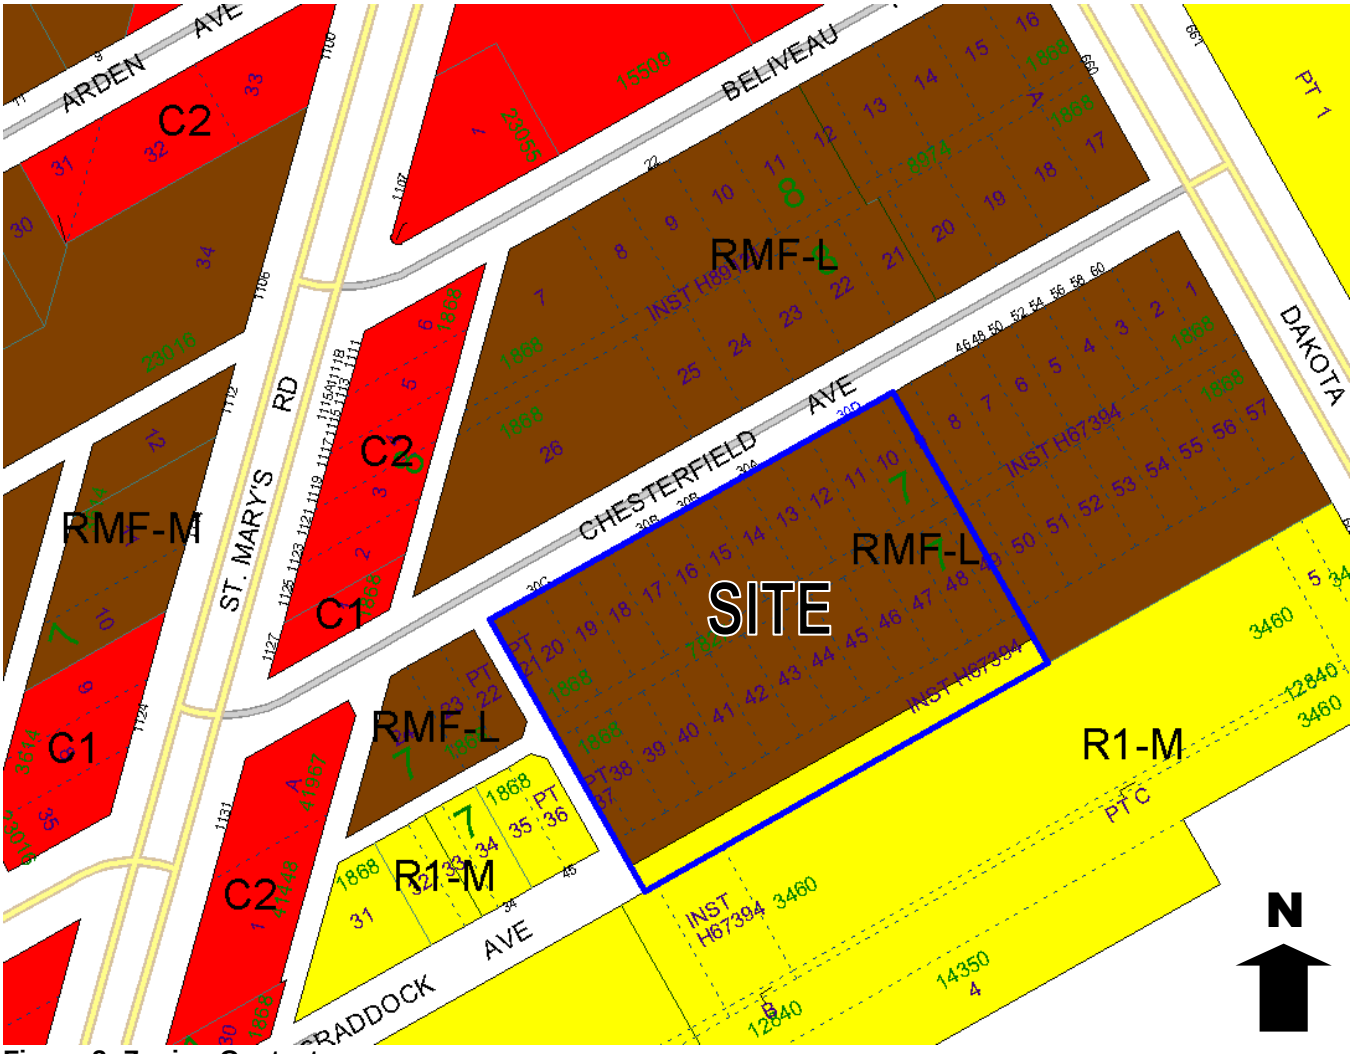

Figure 3: Zoning Context

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to consolidate the lot into one lot from multiple lots, part lots, and a previously closed lane and road, and rezone the southern portion of the site from "R1-M" Residential Single-Family Medium to "RMF-L" Residential Multi-Family Large.
- The rezoning is required to facilitate future redevelopment on the site. Specifically, the applicant intends to redevelop the easternmost block into a four storey building and reconfigure the parking. A conceptual site plan has been submitted.
- Pedestrian access to the development will be accessed Chesterfield Avenue, with the existing parking access to be maintained from the public lane.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the Complete Communities Direction Strategy the proposed development is located within the Areas of Stability – Recent Communities policy area. With regard to this proposal, the key policies guiding development within Areas of Stability include:
    - Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.
    - Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.
    - In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.
    - Support Complete Communities by ensuring diverse and high quality housing stock.
    - Promote a quality public realm with a high level of accessibility to community services and amenities and opportunities for gathering and social interaction.

ZONING BY-LAW 200/2006

"R1-M" Residential Single-Family Medium District

- The R1-M district requires: a minimum lot width of 25 feet, a minimum lot area of 3,500 square feet, side yards of 4 feet, a front yard of 15 feet, and a rear yard of 25 feet. The maximum building height is 35 feet and the maximum lot coverage is 45%.

"RMF-L" Residential Multi-Family Large

- The RMF-L zone is intended to accommodate the development of multi-family units in areas with medium to high residential densities. The dimensional standards for multifamily structures in the RMF-L zone are: a minimum front yard of 25 feet; a minimum rear yard of 25 feet; a minimum side yard of 8 feet, and, a maximum building height of 150 feet. The minimum lot area is 20,000 square feet and the minimum lot area per dwelling unit is 400 square feet.

Reason for Rezoning

- The applicant is required to rezone the "R1-M" portion of the site to "RMF-L" in order to redevelop an existing multi-family apartment block, as the multi-family dwellings are not permitted in the "R1-M" zone. In addition, most of the parking for the apartment blocks on the site is located where the land is zoned "R1-M". Since the applicant intends to redevelop a full apartment block and reconfigure the parking area, the "R1-M" zone must be rezoned to same category as the rest of the site to allow for accessory parking in the area currently zoned "R1-M".

COMPATIBILITY WITH EXISTING NEIGHBOURHOOD AND SURROUNDING USES

- The subject site is located within the Areas of Stability – Mature Communities policy area under the Complete Communities Direction Strategy. Policies guiding development in Mature Communities encourages a mix of housing types.

- The site is already predominantly zoned RMF-L and located next to other multi-family developments zoned RMF-L to the east and north.
- The split-zoning on the site resulted from a road closing. When a road is closed and adjacent to two different zoning districts, each half of the road takes on the adjacent zoning.
- The applicant is eliminating the split-zoning on the property by rezoning the R1-M portion to RMF-L. This rectifies the split-zoning on the property, which is preferred by the Public Service.

LAND DEDICATION

- When a developer rezones and/or subdivides a parcel of land, they are required to put in an application with the City of Winnipeg.
- As a condition of rezoning or subdivision, a developer is required to contribute a portion of the land to be developed to the City for parks purposes.
- The amount of land is not less than 10%.
- The developer is to provide land or 'cash in lieu' as determined by the Planning, Property and Development Department.
- The City is requesting cash in lieu for this application.

RECOMMENDATION

The Urban Planning Division recommends **approval** for the following reasons:

- The subject site is located within the Areas of Stability – Mature Communities policy area under the Complete Communities Direction Strategy. Policies guiding development in Mature Communities encourages a mix of housing types.
- The site is already predominantly zoned RMF-L and located next to other multi-family developments zoned RMF-L to the east and north.
- The applicant is eliminating the split-zoning on the property by rezoning the R1-M portion to RMF-L.
