Subject: Letter for City Council

I cannot register for the meeting tomorrow but I need to voice my support.

South Winnipeg must have the current recreation facility deficit in South Winnipeg fixed. This is the feeling of SWAT (South Winnipeg Action Team). Other community groups in South Winnipeg are also support those residents of Winnipeg South who attend the Waverley Grand Mosque as a "one voice" movement. This will not be unfamiliar to Mayor Bowman as several groups have met with him about the fact that this part of the city has grown immensely and recreation for the kids has not kept pace. As it stands, the City's 2018 Draft Operating budget includes NO FUNDING for this much needed project.

Please add funding for this facility, or at least, funding for planning, so groups can get this project going.
