AUDIT COMMITTEE

Item No. 4 Capital Project Estimates

WINNIPEG PUBLIC SERVICE RECOMMENDATION:

That this report be received as information.

ADMINISTRATIVE REPORT

Title: **Capital Project Estimates**

Critical Path: Audit Committee - Council

AUTHORIZATION

Author	Department Head	CFO	CAO
L. Klimchak	B. Mansky City Auditor		

EXECUTIVE SUMMARY

The purpose of these audits is to provide Council with assurance that the estimate classes have been appropriately determined and disclosed for new major capital projects requiring approval in the 2018 Preliminary Capital Budget. One project met the threshold for review this year:

1. Fermor Avenue Bridge (Seine River)

Preparation of the estimates and disclosure of the estimate classes for the capital projects is the responsibility of the Public Service. The classification system used by the Public Service is based on the recommended practices of the Association for the Advancement of Cost Engineering (AACE). Those recommended practices provide a system for classifying cost estimates that is primarily determined by the level of design work that supports the estimates, and secondarily by the costing methodology used to develop the estimates.

In our opinion, the project detail sheet for the above-noted capital project included in the 2018 Preliminary Capital Budget fairly classifies, in all material respects, the estimate for the projected costs based on the recommended practices of the AACE, and the Public Service's Asset Management Initiative framework.
