Hi there, I've been involved in youth sports, mostly coaching hockey in south winnipeg for 7yrs. As a member of this community for years, I can see we have some of the oldest facilities in the city. I think having a new arena complex would not only benefit the kids playing hockey now, to learn the game in a more comfortable and suitable facility, but would also attract more kids to be exited about joining a league here, where maybe it wouldn't usually be in their plans. Also the boom in population with the new areas which goes without saying.
Thanks for your time, a concerned coach and parent in south Winnipeg, Ed Marchant
