Subject: Opposing the lack of funding for SWCC project

Dear Mayor Bowman and the Executive Policy Committee,

I am unable to attend the meeting tomorrow but would like to submit this email to the EPC for consideration.

I am a resident of South Winnipeg and I am in opposition of the proposed budget, in particular the lack of funding for recreation infrastructure in our area. This is a necessity in our area as all the communities are growing at a rapid rate. Many new families and young couples like myself chose to live in this area assuming that there would be the appropriate amenities for us and our children. So far, our tax dollars have not been used to help build our community. We currently are still without a school in the area and now our community center is in jeopardy. This is unacceptable. Access to schools and recreational facilities are vital to sustain and grow a community. We need a place to bring the community together, promote healthy living and support each other through sport and activity.

This issue needs to be made a priority in the budget. I am voicing my support for SWAT and South Winnipeg Community Center and their initiatives.

Regards,
Anita Zhen
