Subject: Proposed budget and EPC meeting

Dear Mr. Gameriro and Mr. Mayor,

As residents of Bridgwater Forest, we are emailing to express our extreme concern at the lack of recreation infrastructure in our area. When we built in this area in 2009 we were sold on the idea of the neighbourhood, which included the plan for a school and that was family friendly. Give the number of residents that have moved into this area and the amount of tax dollars collected it is truly unacceptable to not have recreational facilities in the neighbourhood. We do not support the proposed budget which freezes funding for recreational facilities in our area for 5 years.

Sincerely,
Adam & Angie Janssens
