DETAILED PROJECT DESCRIPTION

Provide a detailed description of the planned project, including:

- Community need/ support for the project
- Community consultation, if applicable (surveys, open houses, etc.)
- City of Winnipeg staff involved in project to date
- Scope of work
- Cost estimates/ quotes
- Project schedule

Project details, plans and supporting documentation may be submitted as attachments.

Over the past 10 years, the Manitoba Islamic Association facilities have been the centre for great number of community events. From marriage ceremonies, to entertainment, to worship activities, town halls, festivals and bazaars and many others. Our facilities have helped in bringing the community in South Winnipeg together and are a great asset for the neighbourhood. The Gym facility where most of the events are hosted lacks a quality fixed audio visual system. The current audio system in place doesn't meet the quality required to run events. Furthermore, the current system can hardly deliver clear audible sound and lacks the flexibilities for multiple speakers' option. In fact we always resort to renting audio equipment from third parties for quality events. The facility doesn't have fixed visual system such as data projector or TV making it challenging to present media content in the facility.

Scope of work
- Provide wiring for new audio system
- Provide and install new audio system
- Provide and install Visual system including data projector and related cabling
- Acoustics insulation work

Cost estimates/ quotes
- Audio System: $14,000
- Visual System: $11,000
- Consulting Services: $3,000
-

Project schedule
- Project is expected to take 1 month to complete from the time of approval. Detailed schedule can be provided by vendor once the project is awarded.

APPLICANT SIGNATURES

I/We hereby certify that I/we am/are the authorized signing officer(s) for the applying organization and this application is accurate to the best of my/our knowledge.
