REPORTS

Item No. 8 Alternatives for Snow Removal

STANDING COMMITTEE RECOMMENDATION:

The Standing Policy Committee on Infrastructure Renewal and Public Works granted a further extension of time of 30 days for the Winnipeg Public Service to report back on the following:

1. Innovative alternatives for snow-clearing, sanding/salting operations, and spring cleanup operations that are a direct result from winter sand/salt operations that can result in long-term savings and service improvements.

**Minutes – Standing Policy Committee on Infrastructure Renewal and Public Works –
February 27, 2018**

DECISION MAKING HISTORY:

Moved by Councillor Pagtakhan,

That a further extension of time of 30 days be granted for the Winnipeg Public Service to report back on the matter.

Carried

STANDING COMMITTEE RECOMMENDATION:

On November 21, 2017, the Standing Policy Committee on Infrastructure Renewal and Public Works granted a further extension of time to its meeting in February 2018 for the Winnipeg Public Service to report back on the following:

1. Innovative alternatives for snow-clearing, sanding/salting operations, and spring cleanup operations that are a direct result from winter sand/salt operations that can result in long-term savings and service improvements.

On September 11, 2017, the Standing Policy Committee on Infrastructure Renewal and Public Works granted an extension of time to its meeting on November 21, 2017 for the Winnipeg Public Service to report back on the matter.

On January 31, 2017, the Standing Policy Committee on Infrastructure Renewal and Public passed the following motion:

WHEREAS Winnipeg experiences some of the lowest temperatures and significant snowfalls Canada during the winter months;

AND WHEREAS according to Environment Canada, December 2016 was Winnipeg's second snowiest month in recorded history;

AND WHEREAS snow removal costs ran over budget in 2016 heading into an \$88M deficit in the 2018 budget;

THEREFORE BE IT RESOLVED THAT the Winnipeg Public Service explore innovative alternatives for snow-clearing, sanding/salting operations, and spring cleanup operations that are a direct result from winter sand/salt operations that can result in long-term savings and service improvements and report back at the September 2017 meeting.
