2. By adding to AG 6/01, a copy of a servicing plan covering DASZ 29/03 including:

Dear Ms. Marques:

SUBDIVISION AND REZONING
Land located north of McGillivray, south of Fairhaven Road, west of Lindenwood Drive West.
City Centre Community
File No. DASZ 29/03

An application has been received from Genstar (Greg Jasper) for approval of a plan of subdivision and related zoning change to Zoning By-Law No. 6400/94 by rezoning the subject lands from an "MP-1" Industrial District to a "R1-4" Single-family Residential District and a "RM-4" Multiple-family Residential District to permit the construction of single-family houses, four-plexes, and an apartment building.

RELATED FILES: DAV 331374D, zoning variances for parking, building height and yards.

SITE DESCRIPTION:

Site Area: About 6.6 acres total.

Existing Land Use and Zoning: Vacant land zoned "MP-1" Industrial District.

Surrounding Land Use and Zoning:

North: Vacant land zoned "MP-2" and "A" Agricultural District
South: Linden Ridge Shopping Centre (Canadian Tire) zoned "C2" Commercial District
East: Across Lindenwood Drive West, single-family housing zoned "R1-5.5"
West: Lindenwoods Shopping Centre (Walmart) zoned "C2"

DEVELOPMENT DESCRIPTION:

The proposed development includes three housing components. It is proposed to construct 12 single-family dwellings on 50' by 120' lots on the south side of Lindenwood Drive West between Woodhaven Road and McGillivray. This is the same number of homes that are currently located on the north side of Lindenwood Drive West. Access to the homes will be via a frontage road.

The second housing component is located to the rear of the single-family dwellings, and consists of 5, 2-storey, condominium four-plexes. Each four-plex is provided with two front driveway approaches leading to 2 double garages built into the units. The two outside units in each four-plex are 1-storey, while the two inside units are 2-storey. This is a common and popular housing format in others cities across the country. The four-plex property is 100 feet deep, measured from the private access roadway to the rear of the houses fronting Lindenwood Drive West.

The third housing component consists of three, 4-storey apartment buildings totalling 180 rental units, with surface parking for 75 cars and underground parking for 162 cars. The apartment buildings would share an access road with the four-plexes.

PLAN WINNIPEG:

The site is designated Neighbourhood Policy Area under Plan Winnipeg. The current industrial zoning reflects the previous designation as an Industrial Policy Area, prior to development of the Linden Woods Community in the 70's. The proposal complies with Plan Winnipeg.

ADMINISTRATIVE COMMENTS:

The Planning and Land Use Division supports the proposed development for the following reasons:

- The higher-density residential development is appropriate given the site location on existing transit routes adjacent to the Kenaston/McGillivray regional street intersection and commercial concentration.

- The single-family housing component respects the low-density character of Linden Woods.
- Multiple-family housing is needed in Winnipeg, especially rental apartments.

The Public Works Department is requesting a minimum south side yard of 30 feet measured to the north limit of the abandoned, 34'4" wide Wankling Bay right-of-way that runs along the north side of McGillivray Boulevard. The City has agreed to close that portion of the right-of-way that borders the four-plexes and the apartment buildings for incorporation into the development. The current site plans shows the right-of-way incorporated into the south side yard, with a building setback of about 42 feet measured from the building face to the north limit of McGillivray Boulevard. Pursuant to the request of the Public Works Department, the building separation from the north limit of McGillivary to the building face should be in the order of 65 feet, comprised of the closed Wankling Bay right-of-way of 34'4" plus the required yard of about 30 feet based on the building length (5%), building height (10%) and the presence of windows (+10 feet). Balconies can encroach 5 feet into required yards. The Public Works Department is requesting this setback for sound attenuation.

RECOMMENDATION:

I. That the plan of subdivision proposed under File No. DASZ 29/03 be approved for preparation as a plan of subdivision by a Manitoba Land Surveyor in accordance with Schedule "A" for File No. DASZ 29/03, attached hereto and dated November 26, 2003, for registration in the Winnipeg Land Titles Office, subject to the following:

   A. That the Developer be required to enter into a Development Agreement with the City containing all the conditions outlined in the report of the Administrative Coordinating Group dated December 1,2003;

   B. That the Developer be required to pay to the City 10% cash dedication in lieu of land dedication, to be calculated on the basis of the increase in land value.

II. That the Director of Planning, Property and Development be authorized to certify any documents in connection therewith.

III. That Zoning By-Law No. 6400/94 be amended by rezoning the subject land as shown on Schedule "A" for File No. DASZ 29/03, attached hereto and dated December 2, 2003, to a "R1-4" Single-family Residential District and a "RM-4" Multiple-family Residential District, subject to the applicant entering into a Zoning Agreement with the City pursuant to Section 240 (1) of The City of Winnipeg Charter to apply to the subject site to include the following conditions:

   A. That, prior to the issuance of a development permit, plans showing the site layout, access, parking, fencing, landscaping, site lighting and garbage enclosures be submitted for the approval of the City Centre Community Committee.

B. That private approaches from McGillivray Boulevard to the Planned Area be prohibited.

C. That a south side yard of 18.3 metres (60 feet) be provided against McGillivray Boulevard abutting the multiple-family component of the project, measured from the principal building face to the north limit of McGillivray Boulevard, for purposes of sound attenuation.

D. That a south side yard of 7.6 metres (25 feet) be provided against McGillivray Boulevard abutting the single-family component of the project, measured from the principal building face to the north limit of the Wankling Bay right-of-way.

E. That the Developer permit the City to file a caveat against the title of proposed lots abutting McGillivray Boulevard requiring the owner(s) to maintain and/or repair or replace the sound attenuation fence required under the related Development Agreement.

F. That the maximum number of units on the site be limited to 12 single-family houses, 5, four-plex buildings, and 3 apartment buildings containing a total of 200 units.

G. That the maximum height of the apartment buildings be limited to 16.5 metres (54 feet).

H. That parking be provided at a ratio of 1.3 stalls per dwelling unit for multiple-family buildings.

IV. That, in the event this application is not proceeded with expeditiously and the by-law is not enacted within twenty-four (24) months after adoption of this report by Council, the matter shall be deemed to be concluded and shall not be proceeded with unless Council extends that time.

V. That the City Solicitor be requested to prepare the necessary by-law in accordance with the above.

VI. That the subdivision section of the by-law shall come into force and effect upon execution by the City of Winnipeg of the Development Agreement.

VII. That the zoning section of the by-law shall come into force and effect when the Plan of Subdivision has been registered in the Winnipeg Land Titles Office and when the Zoning Agreement has been filed by caveat as a first charge in the Winnipeg Land Titles Office against those lands **provided that the said effective date occurs within twenty-four (24) months from the date that the said rezoning by-law is adopted by Council.**

VIII. The Plan of Subdivision shall be approved and signed by the Director of Planning, Property and Development within two (2) years of the date of passage of the aforementioned by-law.

IX. In the event that the necessary City of Winnipeg mylar approval signatures have not been secured within 24 months after adoption of the by-law, the matter shall be deemed to be concluded and shall not be proceeded with unless Council extends that time.
