STANDING POLICY COMMITTEE ON FINANCE

QUESTION PERIOD

Minute No. 151
Councillor Wyatt reiterated a question he had in October of 2015 regarding a first call for the local and regional streets budget and if steps had been taken with the public service to ensure that the tenders and contracts for work would not be late in going out due to the budget not being voted on until March 2016.

Councillor Morantz took the question under advisement and indicated that he would go back to check the list of which matters had been brought forward for first call and report back at a later time.
