APPLICATION PART B

St. Vital Museum Display Expansion, Artifact Restoration and Archival Project

The St. Vital Historical Society Inc. is a non-profit community organization that aims to preserve and promote the history of St. Vital. The St. Vital Historical Society Inc. operates the St. Vital Museum, which stores and displays over 10,000 artifacts pertaining to the history of St. Vital. Currently, the museum occupies the first floor of the historic 104-year old St. Vital Fire Hall located at 600 St. Mary's Road, Winnipeg.

The St. Vital Museum serves the community of St. Vital specifically and Winnipeg residents more broadly in a variety of ways. The museum is free for all to visit and anyone is welcome to access the collection for research. Free tours are offered by request. The museum is vital in preserving the history of St. Vital for future generations. The museum is expanding its offerings by developing on-site programming that allows community members to share their knowledge (as a presenter), and to learn knew knowledge (as a participant), at presentations and demonstrations. We are also looking to expand the number of tours we offer to school groups by developing curriculum based school programs.

Scope of Work

Archiving

Purchase Filemaker Pro in order that volunteers can have concurrent access to database as part of our collection management project. Create proper storage and display solutions for all artifacts by improving the long term storage spaces and display conditions. Continue to properly document and catalogue all donations from the past and future donations.

Display / Exhibit Construction

Staff and volunteers will work to improve conditions in any problematic display cases by making necessary changes to the way in which artifacts are displayed. Some old display cases will need to be rebuilt or retrofitted, and others may need to be moved and replaced with newly purchased display cases. Exhibit layouts will need to be redesigned including the addition of interpretive panels.

Artifact Restoration and Preservation

Staff and volunteers will continue to restore and preserve artifacts including the fire truck, photo collection and all incoming artifact donations.

PROJECT COST	**$ 16,400.00**
Project Cost	$ 16,400.00
CIG Contribution	$ (8,200.00)
Sponsor (SVHS) Contribution	$ 8,200.00

Subject: FileMaker Pricing

Hi Tim,

Thanks for calling in. For a total of (5) FM Pros, it comes out to $1305 CAD and this is the non-profit rate as well. I'm happy to discount it to $1200 today only.

Give me a call at your earliest convenience and we can take care of their order with a CC.

Please note: The items contained in this list are specialised equipment necessary for the proper conservation of museum artifacts. These materials need to be purchased from specialised retailers as they must be able to guarantee the chemical composition of their products including details such as the pH, UV penetration rate, and level of reaction with other materials. Due to the special nature of these supplies there are limited retailers in Canada. The main retailer for museum supplies is Carr McLean and so the list on the right is the prices of the supplies from that supplier. Brodart also carries some museum supplies but focuses more on supplying libraries. The prices on the right are for supplies from Brodart. In many cases Brodart might carry a similar, but not exactly the same product as Carr McLean, these prices are identified with the light grey.

There are suppliers out of the US that carry museum supplies but ordering from them costs more in shipping and fees at the border.

Fwd: Foam Core Quote

To: svhsholliday@icloud.com

Hello Bob,

Sorry for the delay on this quote, Jeff was not able to get back to me with pricing until Saturday.

See Below:

1) 1 - 20"x40" single-sided foam core print, customer supplied artwork. $55 + tax.

How will you be mounting these?

Let me know if this works for you.

From: Jim Murray General Services.
91 Cormorant Bay
Winnipeg MB
R2J 2V8

Att: Jeff Whyte

Further to our conversation concerning the necessary repair work on the SVHS display cases and further construction of museum-quality, acid-free storage units, here are the estimates, based on today's cost of material. Prices may vary at the time of purchase.

Display case repairs: to install caster wheels; repair shelving; re-attach the sides of gray cases that contain farming and carpentry tools and
$1,000

Display/Exhibit: build display units for odd-sized items like scythes, vintage washing machines; antique chairs of former politicians and school trustees; attach bull to wall. The most demanding chore will be to construct a display area for the antique tools in the main display room (Tod family artifacts).

$1,500
