EXECUTIVE SUMMARY

The Public Service has negotiated the proposed Terms and Conditions of an Encroachment Agreement in favour of Winnipeg Condominium Corporation No. 434 (the "Licensee"). The Licensee is the owner of 121-123 Princess Street and requires the Encroachment Agreement to construct a ramp for barrier free access to obtain a final occupancy permit.

The Licensee will be responsible for all costs for this encroachment.

The Ward Councillor concurs in the recommendation of the Public Service.

RECOMMENDATIONS

1. That the proposed terms and conditions for an Encroachment Agreement, attached hereto as Schedule A, in favour of Winnipeg Condominium Corporation No. 434 for the land adjacent to 121-123 Princess Street (identified as "Encroachment Area" on Misc. Plan No. 15112 in Schedule A) be approved.

2. That the City enter into, execute and deliver an Encroachment Agreement with Winnipeg Condominium Corporation No. 434 and such other agreements (the "Ancillary Agreements") as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing.

3. That the authority be delegated to the Chief Administrative Officer to negotiate and approve the terms and conditions of the Encroachment Agreement and the Ancillary Agreements in accordance with this report and such other terms and conditions deemed necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

4. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

On March 22nd, 2017, Council approved the terms and conditions of an Encroachment Agreement between the City and Winnipeg Condominium Corporation No. 434 for constructing a ramp. Within the terms and conditions the following clause was included:

> "That the approval of this application by the Designated Officer – Encroachments is only valid for a period of six (6) months from the date of said approval unless the Licensee enters into an Encroachment Agreement with the City of Winnipeg within the stated time frame, or alternatively obtains an extension of time from the Designated Officer – Encroachments;"

In response to objections from a nearby land owner, the Licensee reviewed the design for the ramp to be constructed within the encroachment area. The design review did not yield any alternative solutions and was not completed until late October 2017, approximately one month after the six-month approval period imposed by Council.

In summary, the previous Council approval has expired and the Licensee is seeking another approval for the same encroachment. The proposed terms and conditions are unchanged from the previous approval with the exception of the annual fees which are determined by the Encroachment By-law No. 692/72.

The Encroachment Agreement is required to secure a final occupancy permit.

IMPLICATIONS OF THE RECOMMENDATIONS

The Public Service has determined that there are no general, policy, regulatory, environmental, human resource, or other implications of this report.

The Encroachment Agreement may be terminated upon ninety (90) days written notice should the City require these lands for any purpose in the future.

The Licensee will be responsible for all costs associated with this Agreement.

The Licensee will no longer be charged interim occupancy fees.

HISTORY/DISCUSSION

In 2016, an application was submitted to the City's Zoning and Permits Branch to develop and maintain a ramp for barrier free access adjacent to 121-123 Princess Street. The ramp was required in order to secure a final occupancy permit.

The application was circulated to applicable City departments and public utilities for consideration and comments. All comments and concerns were incorporated into the signed Terms and Conditions.

The Risk Management Division of Corporate Finance reviewed the insurance requirements for this proposed encroachment and their comments were incorporated into the Terms and Conditions.

The Public Service negotiated the proposed Terms and Conditions for an Encroachment Agreement in favour of Winnipeg Condominium Corporation No. 434 and Council approved the terms and conditions on March 22, 2017.

In April of 2017, the owner of a neighboring property (the “Complainant”) objected to the Licensee’s plans for construction of a ramp in the lane between the two properties. The objection focused on the following:

- Garbage trucks having difficulties accessing bins at end of laneway
- Delivery trucks having difficulties making deliveries in the laneway
- Loss of up to 3 staff parking spots

When the Complainant expressed their concerns, construction of the ramp was halted indefinitely in search of a mutually beneficial solution. The Licensee considered the installation of a lift instead of a ramp but this option was found to be unsuitable and financially impractical.

In October, 2017 with no other options available to them, the Licensee began work on a revised ramp that they hoped would satisfy the Complainant’s concerns.

On March 13, 2018, the City received a new ramp plan that included minor alterations to certain aspects of the ramp. The Licensee was notified that Council would have to approve the terms and conditions for a second time as the six-month approval window imposed by Council had expired.

The occupier of the main floor and basement at 121-123 Princess Street continues to pay interim occupancy fees inasmuch as a final occupancy permit cannot be issued until barrier free access is obtained. To date, the sum total of the interim occupancy permits has now exceeded the cost of the final occupancy permit.

This report seeks approval of the Encroachment Agreement as previously negotiated, with the exception that the annual fees have changed as they are determined by the Encroachment By-law No. 692/74 (as noted in Schedule A, attached).

The Ward Councillor concurs in the recommendation of the Public Service.

The Complainant was notified that the terms and conditions would be provided to Council for a second time for approval. The Public Service will continue to investigate possible resolutions to the objections from the Complainant.
