EXECUTIVE SUMMARY

Revisions to the Materials Management Policy (the Policy) are recommended to bring the Policy up-to-date with current practices and in-line with various Trade Agreements.

In 2017, the City of Winnipeg (City) became subject to two new Trade Agreements: *The Canadian Free Trade Agreement* (CFTA) (replacing the Agreement on Internal Trade (AIT)) and *The Canada-European Union (EU) Comprehensive Economic and Trade Agreement* (CETA). Under these agreements, the City's procurement practices require minor changes.

Effective January 1, 2019, the City will also be subject to a third agreement, *The New West Partnership Trade Agreement* (NWPTA) (*Trade Agreement between Western Provinces*).

The NWPTA agreement will impose lower single source dollar thresholds than the current Trade Agreements.

Revisions to the Policy include:

- Addition of a guiding principle relating to the procurement of sustainable goods and services;
- Clarification of authority for approval of Single Source negotiations; who can approve under which circumstances;
- Revision to Trade Agreement language;
- Reduction in values for Single Source negotiations for all procurement;
- Various other changes

RECOMMENDATIONS

1. That Council approve revisions to the Materials Management Policy F1-003, attached as *Appendix A - Amendment to the Materials Management Policy*, to become effective from and after the date of approval by Council.

2. That the proper officers of the City be authorized to do all things necessary to *implement the intent of the foregoing.*

REASON FOR THE REPORT

Council has the authority to approve revisions to the Materials Management Policy.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no financial implications with the revisions to the Policy. Revisions to the Policy will provide clarity to elected officials and the Winnipeg Public Service.

HISTORY/DISCUSSION

On March 24, 2004, Council adopted the Materials Management Policy which replaced the Policy on Purchasing Procedures and the Disposal of Surplus Supplies and the Policy on Assignment of Consultants.

Council has approved several revisions to the Policy in recent years.

On July 1, 1995, *The Agreement on Internal Trade* (AIT) came into force in Canada. AIT had little effect on how the City of Winnipeg performed daily tasks.

In 2017, the City became party to two new Trade Agreements; *The Canadian Free Trade Agreement* (CFTA) (replacing AIT) and *The Canada-European Union (EU) Comprehensive Economic and Trade Agreement* (CETA). Under these two agreements, the City's procurement practices require minor changes.

Currently, the CFTA agreement has single source thresholds of $100,000 for goods and services and $250,000 for construction which requires no revision to the Policy.

In addition to the above agreements, *The New West Partnership Trade Agreement* (NWPTA) is scheduled to become effective January 1, 2019. NWPTA contains lower single source dollar thresholds than CFTA or CETA. This will affect the City as the NWPTA thresholds require public solicitation for any goods and services (including Consultant Services) exceeding $75,000, and construction exceeding $200,000.

Currently, the City's Administrative Standard FM-002 imposes more onerous levels of approval for single source at:

- goods, services and construction $5000;
- Consultant Services $100,000 (Capital) and $35,000 (non-Capital).

Without single source approval, public solicitation is required where the estimated value exceeds the above thresholds.

All delegations of authority to the Winnipeg Public Service, pursuant to the Policy, are through the Chief Administrative Officer. This is consistent with the City Organization By-Law #7100/97.

The Policy is written to contain that which is necessary to set out Council's direction to the Winnipeg Public Service. The Chief Administrative Officer issues administrative standards that establish procedures for the due administration of the Policy and the related delegations of authority, within the Winnipeg Public Service.

The Table below demonstrates the detail of the revisions included in *Appendix A – Amendment to the Materials Management Policy.*

Current version	**Proposed revision**	**Note/Comment**
A. Purpose: The City of Winnipeg Materials Management Policy provides governance of materials management functions and is founded on the following guiding principles: • The City's needs must be met in an effective and efficient manner. • The taxpayers of the City are entitled to the best value for their taxes. • All businesses are entitled to fair and ethical treatment.	**A. Purpose** Add a 4th guiding principle: • Procurement of sustainable goods and services.	*Note: Materials Management is updating the Policy in order to include Sustainable Procurement within the Policy. This revision to the Policy will supersede the Sustainable Development & Environmental Issues Policy (1990) and bring the Policy in-line with A Sustainable Winnipeg, an OurWinnipeg Direction Strategy.*
