- Monitor radio traffic, computer and application systems, assign complaints for investigation, monitor security cameras for parkades/lots and WPA office and assign patrols to investigate suspicious activity;

- Enforcement of all Vehicle For Hire regulations, by-laws and procedures, respond to all incidents involving VFH including video/audio downloads based on complaint criteria, complete and electronically log incident reports, issue citations to vehicles and individuals not in compliance with the VFH by-law, and monitor taxi operations to ensure compliance of the bylaw; and

- Provide first level support for the compliance technology (officer equipment) and new technology implementation, provide basic support to the Automatic Licence Plate Reader vehicle equipment and system, provide technology plan in preparation for any special events and Residential Parking Bans.
