EXECUTIVE SUMMARY

The Public Service has negotiated the proposed Terms and Conditions of an Encroachment Agreement in favour of The Rural Municipality of Rosser (the "Licensee"). The Licensee intends to construct underground water and sewer pipes on the west side of Brookside Boulevard, north of Inkster Boulevard.

The Licensee will be responsible for all costs associated with the Encroachment Agreement for an encroachment and the Ward Councillor has been consulted.

RECOMMENDATIONS

1. That the proposed Terms and Conditions for an Encroachment Agreement, attached hereto as Schedule A, in favour of the Rural Municipality of Rosser to construct underground private water and sewer pipes within the street right of way to service the Rural Municipality of Rosser Industrial Park, be approved.

2. That the City enter into, execute and deliver an Encroachment Agreement with the Rural Municipality of Rosser and such other agreements (the "Ancillary Agreements") as determined necessary by the City Solicitor / Director of Legal Services to implement the intent of the foregoing.

3. That the authority be delegated to the Chief Administrative Officer to negotiate and approve the terms and conditions of the Encroachment Agreement and the Ancillary Agreements, in accordance with this report and such other terms and conditions deemed necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

4. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

Clause 4(1)(d) of the Encroachment By-law No. 692/74 (the "By-law) states:

"Where the encroachment is of an unusual or commercial nature that it be referred to the Designated Officer of the City for the purpose of negotiating a reasonable rental and making recommendation to the Chief Administrative Officer for subsequent referral to Council."

In Section 2 of the By-law, Designated Officer is defined as "the Director of Planning, Property and Development or such other person as may be authorized in writing by the said Director to exercise some or all of the powers vested in him by this By-law".

The Public Service has negotiated Terms and Conditions of an Encroachment Agreement for an encroachment in favour of the Licensee.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no general, policy, regulatory, environmental, human resource, or other implications of this report.

There is an existing Wastewater Service Sharing Agreement between the City and the Licensee. The Encroachment Agreement is required in order for the Wastewater Service Sharing Agreement to be fully operational. The termination and default clauses in the Encroachment Agreement are the same as the Wastewater Service Sharing Agreement and the Encroachment Agreement shall terminate upon termination, cancellation or expiry of the Wastewater Service Sharing Agreement.

The Licensee will be responsible for all costs associated with this Agreement.

HISTORY/DISCUSSION

The northwest corner of Brookside Boulevard and Inkster Boulevard lies within the Rural Municipality of Rosser and is developed within an industrial park. The Licensee would like to begin constructing underground water and sewer pipes on the west side of Brookside Boulevard, north of Inkster Boulevard (identified on Schedule B & C) to facilitate further development within the industrial park. As a result, the Licensee requires private services within a right-of-way (an encroachment) in order to connect to the nearest municipal services. The application was circulated to applicable City departments and public utilities for consideration and comments. All comments and concerns have been incorporated into the signed terms and conditions (attached as Schedule A).

The Risk Management Division of Corporate Finance reviewed the insurance requirements for this proposed encroachment and their comments have been incorporated into the Terms and Conditions.

The Public Service has negotiated proposed Terms and Conditions of an Encroachment Agreement in favour of the Licensee. The Terms and Conditions were signed prior to 2019 and the rent for the Agreement is based upon the encroachment license annual rate noted in the

City of Winnipeg 2018 Fees and Charges Schedule. Effective January 1, 2019, the rent will decrease to $1,854.30 ($3.00 per square metre). The Public Service reviewed the encroachment portfolio in 2018 and recommended new rental rates in 2019 for different types of land uses which are representative of market value.

It is noted that the City of Winnipeg and the Rural Municipality of Rosser have an existing Wastewater Service Sharing Agreement. The Encroachment Agreement and Wastewater Service Sharing Agreement are related agreements; the Encroachment Agreement is required for the Wastewater Service Sharing Agreement to be fully operable, and the Encroachment Agreement is only effective so long as the Wastewater Service Sharing Agreement is effective. The termination and default clauses of the Encroachment Agreement and the Wastewater Service Sharing Agreement are the same and, if one terminates, the other will need to be terminated.
