Agenda – Council – September 26, 2019

Report – Executive Policy Committee – September 10, 2019

Item No. 7 Engage Winnipeg Policy

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On September 10, 2019, the Executive Policy Committee concurred in the recommendation of the Winnipeg Public Service and submitted the following to Council:

1. That the City of Winnipeg Engage Winnipeg Policy (Appendix A) be approved.

2. That the Public Service review the Engage Winnipeg Policy and report back to Council at a minimum of every five years on the implementation of the policy and an evaluation of public engagement at the City of Winnipeg.

3. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

Agenda – Council – September 26, 2019

Report – Executive Policy Committee – September 10, 2019

DECISION MAKING HISTORY:

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On September 10, 2019, the Executive Policy Committee concurred in the recommendation of the Winnipeg Public Service and submitted the matter to Council.

ADMINISTRATIVE REPORT

Title: Engage Winnipeg Policy

Critical Path: Executive Policy Committee – Council

AUTHORIZATION

Author	Department Head	CFO	CAO
M. Vespa	F. Wiltshire	N/A	D. Wardrop, Acting Interim CAO

EXECUTIVE SUMMARY

The Engage Winnipeg Policy (the Policy) intends to provide an approach and foundation for the Public Service to move towards more open, transparent, and accountable public engagement. The Policy is a result of dialogue and collaboration with the public, stakeholders, and internal departments.

As the Policy is applied and the contents are shaped through dialogue with the public, City departments, Councillors, and stakeholders, the Policy is intended to progress and change. The principles and approaches to engagement set out in the Policy are not proposed as a conclusive answer to improving public engagement, as new ideas and outcomes may, and should, develop over time. Continual collaboration, discussion, and capacity building are necessary for the implementation of the Engage Winnipeg Policy, and next steps, to be successful.

RECOMMENDATIONS

1. That the City of Winnipeg Engage Winnipeg Policy (Appendix A) be approved.

2. That the Public Service review the Engage Winnipeg Policy and report back to Council at a minimum of every five years on the implementation of the policy and an evaluation of public engagement at the City of Winnipeg.

3. That the proper officers at the City of Winnipeg be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

On February 22, 2017, Council approved the Open Government Policy, which established ‘participation’ as one of four core Open Government principles.
In addition, on June 21, 2018, Council accepted that the Audit of the William R. Clement Parkway / Sterling Lyon Parkway Extension Project report be received as information. The Public Service committed to developing a public engagement policy in response to several of the Auditor’s recommendations.

Council approval is required for the adoption of a City Policy.

IMPLICATIONS OF THE RECOMMENDATIONS

The Public Service will begin working on implementing the Engage Winnipeg Policy across all City departments, and will review the policy and report back to Council every five years on the implementation of the policy and an evaluation of public engagement at the City of Winnipeg.

The implementation of the Policy will also initiate the development of a Public Engagement Framework (through an administrative standard) and comprehensive toolkit to provide guidance to the Public Service on how to implement the Engage Winnipeg Policy. The Policy will provide the foundation for more consistent public engagement, and the Framework and toolkit will provide details and tools on how to apply the Policy to the various Public Engagement projects undertaken at the City.

The administrative standard will provide appropriate guidance and criteria and a set of processes, communications, activities, events, and options for incorporating public feedback. It will also provide guidance on how to communicate with the public on how feedback will be used in the decision making process.

HISTORY/DISCUSSION

The City of Winnipeg has public engagement expertise, experience, and interest in conducting meaningful public engagement but does not have a standardized policy that is implemented City-wide. The Office of Public Engagement (OPE) has compiled input from the public, City departments, Councillors, and stakeholders to develop the draft Engage Winnipeg Policy (attached as Appendix A). Further, their feedback has been incorporated into the attached draft Engage Winnipeg Policy.

The OPE was created on January 30, 2015 to support the City’s public consultation and engagement activities and is tasked with ensuring that there is consistency and transparency in sharing information with citizens about City projects. Organizationally, the OPE is located in the City's Customer Service & Communications Department.

Since permanent staff (one manager and three public engagement officers) began their positions in January 2017, the OPE has been working to understand City processes and the many ways the Public Service engages with Winnipeggers. OPE staff have been involved in over 120 projects since it was initiated in 2015. A full listing of projects is available in Appendix B. Each project has offered insight into the key principles and important aspects of public engagement that should be reflected in a relevant public engagement policy to ensure all members of the Public Service, elected officials, and the public are using the same foundation and basis for measuring meaningful public engagement.

Notable accomplishments:

- Introduction of an online engagement hub (winnipeg.ca/publicengagement), including a list of all projects, events, newsletters, and ways to get involved.
- All OPE staff trained with International Association for Public Participation (IAP2) foundations training, IAP2 strategies for dealing with opposition and outrage, and public participation facilitation training.
- Centralized hub of templates for internal access to up-to-date tools and guidelines.
- A one-year, centralized subscription for an online engagement tool, funded through the Innovation Fund. This subscription saved the City $112,000 that would have been spent if each project (14 total) had used the software individually.
- RFP for online engagement tool released (closed on June 11, 2019); contract awarded August 8, 2019.

Policy Development

The Policy was developed through gathering input from the public and departments, discussions with Councillors, researching policies in other jurisdictions, and discussions with public engagement practitioners. The purpose of gathering feedback was to answer three key questions:

- What is working well with public engagement?
- What are the challenges?
- How can we work together to improve public engagement?

OPE's involvement in over 120 projects has provided an in-depth understanding of areas for improvement, what the public values about public engagement, areas where guidance is needed, inconsistencies, and the City's public engagement strengths. Lessons learned and best practices from City projects were a key driver in developing the Engage Winnipeg Policy. In addition, the table below outlines the key activities that contributed towards policy development.

Timeframe	Activities	Outcomes
Fall 2016	Meetings with Councillors	Better understanding of Councillor's vision for engagement
Summer 2017	Public engagement newsletter question of the week	Qualitative feedback on what is most important to those who are interested in public engagement and their vision for the future of engagement.
Fall and Winter 2017	Jurisdictional scan	Elements most relevant to Winnipeggers' and the Winnipeg Public Service's needs were adapted to the Winnipeg context to draft the Engage Winnipeg Policy.

		A full list of public engagement policies and frameworks examined as part of the jurisdictional scan are available in Appendix C.
February 2018	International Association of Public Participation Prairies Chapter Annual General Meeting	Feedback collected through activities around vision, strengths and weaknesses, and matching actions to priorities.
Early 2019	Meetings with Councillors to discuss draft Policy	Confirmation of support to move forward with draft policy.
Early 2019	Meetings with Public Engagement consultants	Feedback on what is working well, challenges, and how we can work together to overcome challenges.
Early 2019	Jurisdictional scan revisited	Further refinements to draft policy.
Spring 2019	Meetings with internal departments	Feedback on what is working well, challenges, and how we can work together to overcome challenges.
Summer 2019	Public engagement on draft policy	Further refinements to draft policy.

Table 1 Policy development activities

In the spring of 2019, the OPE gathered feedback from the public, internal departments, Councillors, and public engagement professionals to further refine the draft policy. Table 2 outlines the feedback received on the Policy and how the feedback is addressed in the policy or will be addressed in the next steps following policy approval. We also received other feedback that will be applied to the Framework development and next steps.

Section	Feedback	Consideration and/or change made
Purpose	Improve clarity on what is making the decision making better.	Original: support better decision making. Changed to: support better informed decision making.
Vision	The word ‘connected’ is too vague and unclear.	Original: A connected city that incorporates shared community values and knowledge to make better decisions. “Connected” removed.
Vision	‘Shared community values’ is a challenging term and may be too difficult to reach. Recognizing diverse perspectives may be more appropriate.	Original: A connected city that incorporates shared community values and knowledge to make better decisions. Changed to: A city where meaningfully engagement and recognition of diverse perspectives and knowledge contributes to better decision making.
When will the City engage?	Make language more specific to clarify when the City will engage.	Added “Public engagement” to each circumstance.
Definitions	Make clear that initiatives are included under the ‘project’ term, including feasibility studies and decommissioning	Wording changed to reflect more inclusive types of initiatives.
Principles	“Collaboration” is also a level of engagement	“Collaboration” changed to “Knowledge and partnership seeking”

Principles	The use of the term ‘participant’ is unclear.	The term ‘participant’ was replaced or removed to improve clarity.
Types of Engagement	Remove reference to ‘levels’ of engagement as this implies a hierarchy. Different levels are applied in different circumstances, rather than one being better than another.	‘Levels of Engagement’ changed to ‘Types of Engagement’
Types of Engagement	‘Inform’ should be a separate type of engagement.	Although ‘inform’ is recognized on the IAP2 spectrum, the Policy defines public engagement as a process where the city collects input. Informing is a one-way communication effort by the City and is recognized as required all types of engagement.
General	The policy is vague. Suggestions for specific changes.	The public engagement framework will serve as the ‘how to’ document with regards to applying the general foundation set out in the Policy.

Table 2 Policy feedback and response

The Engage Winnipeg Policy provides definitions, guidance as to when the policy should be applied, a vision, guiding principles, types of public engagement, and roles and responsibilities. The Policy responds to evolving public expectations for clear and consistent opportunities to become involved in the decisions that affect them.

Next Steps

The Engage Winnipeg Policy provides the foundation for consistent and transparent public engagement. There is still plenty of work to do and it will take a collaborative and concerted effort to improve public engagement and reach the vision set out in the Policy. The details on the application of that approach will be provided through the Engage Winnipeg Framework and engagement toolkit, which will be developed following the approval of the Engage Winnipeg Policy.

The OPE intends to engage the public and stakeholders over the next year to develop a comprehensive Framework and toolkit to support the Engage Winnipeg Policy and ensure the Public Service, elected officials, and the public have the resources and support available to engage meaningfully and reach the Engage Winnipeg Policy vision.

FINANCIAL IMPACT

Financial Impact Statement **Date:** August 14, 2019

Project Name:

Engage Winnipeg Policy

Comments:

There are no financial implications related to the recommendation of this report.

CONSULTATION

This Report has been prepared in consultation with:
Internal department representatives from Community Services, Property, Planning, and Development, Public Works, Winnipeg Transit, and Water and Waste.

OURWINNIPEG POLICY ALIGNMENT

03-1 Direction 2: Provide equitable access to municipal programs, services and facilities.

>Strive to engage a diverse cross section of local stakeholders in planning initiatives.
>Support the provision of services and communication in age-friendly and alternative formats. Work to implement accessible City communications.

The Engage Winnipeg Policy principles include representation and inclusivity, reflecting the need to engage diverse stakeholders in formats that are accessible to all.

03-2 Direction 3: Work in partnership with communities to identify and address neighbourhood issues.

The Engage Winnipeg Policy provides a foundation for meaningful public engagement to address neighbourhood issues through considering input and feedback at the project level.
