This page intentionally left blank

Overview

This appendix details Winnipeg Transit routes that will be changed as of April 12, 2020. The next page provides a complete Southwest Winnipeg area service map. The following pages provide detailed descriptions of the proposed changed routes. For each route, the following is shown:

- a map with the revised routing (if applicable);
- a summary of the changes to routing and/or service hours and/or frequency;
- an overview of the service hours and frequencies; and
- a detailed route description (directions).

Please note that while the routings have been finalized, the specific route names and numbers are subject to change.

For the service hours/frequency overview, tables with a white background apply to weekday service, tables with a yellow background apply to Saturday service, and tables with a pink background apply to Sunday service. Service frequencies are given by time of day in minutes; for example, route 23 has an AM Weekday Service Frequency of 15 minutes, which indicates that there will be a bus *at least* every 15 minutes at stops along this route.
