This page intentionally left blank

Overview

This appendix details Winnipeg Transit routes that will begin service as of April 12, 2020. The next page provides a complete Southwest Winnipeg area service map. The following pages provide detailed descriptions of the proposed new routes. For each route, the following is shown:

- a map showing the routing;
- highlights of how the route changed after public feedback was incorporated;
- an overview of the service hours and frequencies; and
- a detailed route description (directions).

Please note that while the routings have been finalized, the specific route names and numbers are subject to change.

For the service hours/frequency overview, tables with a white background apply to weekday service, tables with a yellow background apply to Saturday service, and tables with a pink background apply to Sunday service.
